Forum: Calcutta High Court

Case: WPA No. 5778 of 2023

Date: 05 September 2023 (final order; earlier interim proceedings existed)

Assessment year: Not applicable

Repository status: HOLD_SUBSEQUENT_HISTORY_RECONCILED_TO_LATER_ORDER

Material background

The petitioners challenged Look Out Circulars that restrained travel. The stated basis included their status as alleged wilful defaulters / exposure to bank dues and the petitioners disputed whether those grounds fell within the governing Office Memoranda.

The High Court considered the legal limits on LOCs and the facts relied on by the authorities.

Decision / legal effect recorded

The later order in WPA No. 5778 of 2023 set aside the LOC and directed the authorities to ensure that the petitioners were not restrained on the basis of the impugned LOC.

This record replaces the earlier interim-stage discovery proposition for repository purposes, but any later appellate order should still be checked before reliance.

Source and limitation note

Secondary readable case record uses the later final order identified in the same writ proceeding; the earlier discovery record related to an interim stage.
