

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter I — Preliminary, Definitions and Equal Remuneration

This chapter turns preliminary, definitions and equal remuneration into an operational control file. It covers Legal status and reading protocol, Short title, extent and commencement, Definitions, Prohibition of discrimination on ground of gender; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered Employers, employees, workers, contractors and payroll teams must first identify the appropriate Government, employment category and event date.	Main obligations / rights • Legal status and reading protocol • Section 1: Short title, extent and commencement • Section 2: Definitions • Section 3: Prohibition of discrimination on ground of gender • Section 4: Decision as to disputes with regard to same or similar nature of work
Key thresholds / timelines • Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.	Forms / evidence • Form I • Form IV • Form IX • Form V • Classification, calculation, approval, acknowledgement and payment/filing proof
Employer risk snapshot Highest practical risks: wrong wage base, late payment, unauthorised deduction or incomplete payroll evidence.	Employee / worker remedy timely and lawful wage payment, a transparent wage slip and a claims route for short-payment or unlawful deduction. Confirm authority, limitation and appeal route.
Old law / transition Apply the instrument effective on the event date and preserve any accrued right, saved notification, pending proceeding or scheme-specific transition.	Five-point professional checklist • Freeze the event date, establishment, location and person/worker classification. • Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government. • Reperform the calculation or decision test and document every exception or approval. • Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence. • Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for preliminary, definitions and equal remuneration, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Chapter I — Preliminary, Definitions and Equal Remuneration

Chapter I determines when the Code applies, who carries responsibility, how “wages” must be reconstructed, and how gender-based wage discrimination is tested. Errors here contaminate minimum wages, overtime, bonus, gratuity, social-security and termination calculations across the labour-code system.

FININ2MIN LEGAL FLOW

Code on Wages, 2019 — Preliminary

Law → trigger → procedure → evidence. Confirm the operative

Finin2min decision flow — identify the law, complete the statutory process and preserve evidence.

Legal status and reading protocol

The Code on Wages was enacted on 8 August 2019. The complete operational position must be read with S.O. 4604(E), S.O. 5322(E), the Code on Wages (Central) Rules, 2026 notified as G.S.R. 343(E), State Rules where the State Government is the appropriate Government, and current rate/authority notifications.

Text control: the statutory blocks below reproduce the current English text used for this edition from the official India Code consolidated PDF. Gazette footnotes are summarised in the effective-date table. The official PDF/Gazette prevails if a typographical discrepancy is found.

Chapter decision flow

FININ2MIN LEGAL FLOW

Code on Wages, 2019 — Preliminary, definitions and equal remuneration

Law → trigger → procedure → evidence. Confirm the operative Central/State instrument on the event date.

Section 1: Short title, extent and commencement

Current statutory text

- (1) This Act may be called the Code on Wages, 2019.
- (2) It extends to the whole of India.
- (3) It shall come into force on such date as the Central Government may, by notification in the Official Gazette, appoint; and different dates may be appointed for different provisions of this Code and any reference in any such provision to the commencement of this Code shall be construed as a reference to the coming into force of that provision.

Finin2min clause-by-clause decode

The provision supplies the Code's name, India-wide territorial reach and commencement mechanism. The operative date must be tested provision by provision; enactment in 2019 did not itself activate the complete Code.

Applicability

All establishments and persons potentially governed by the Code; the practical question is which provision has commenced and which Government is competent.

Trigger and conditions

1. Identify the relevant provision.
2. Confirm the commencement notification and effective date.
3. Check whether a saved legacy action or State instrument continues through section 69.

Practical example / calculation

A payroll team should apply the Code from the notified commencement date for the relevant provision, while preserving the legacy-law calculation and evidence for earlier wage periods.

Employer, employee and professional controls

- Keep a commencement register with notification number and effective date.
- Do not use the enactment date as the payroll go-live date.
- Archive the pre-Code position for periods before commencement.

APPLICABLE CENTRAL RULE

Rule 1: Short title and commencement

1. Short title and commencement.- (1) These rules may be called the Code on Wages (Central) Rules, 2026.
(2) They shall come into force on the date of their publication in the Official Gazette.

Official source: Code on Wages (Central) Rules, 2026, G.S.R. 343(E), 8 May 2026.

Consequences, remedy and evidence

Employer exposure

Shortfall, arrears, compensation, inspection findings and downstream adjudication/offence exposure may arise. The precise consequence must be mapped to sections 45 and 51–56.

Employee route

Preserve appointment terms, rate notification, attendance, wage slip and bank proof. Claims are routed through the authority under section 45; appeals proceed under section 49.

Professional evidence

Retain classification memo, notification version, payroll calculation, approval trail, exception log and remediation proof.

(c) who is employed mainly in a managerial or administrative capacity; or

(d) who is employed in a supervisory capacity drawing wage exceeding fifteen thousand rupees per month or an amount as may be notified by the Central Government from time to time.

Finin2min clause-by-clause decode

Section 2 is the classification engine for the entire Code. It determines the responsible Government, who is an employee or worker, who is the employer, the breadth of the establishment, and what remuneration is counted as wages.

Applicability

Apply every definition contextually. "Employee" is broader than "worker"; the supervisory wage ceiling affects worker status, while managerial and administrative personnel remain employees for several wage obligations.

Trigger and conditions

1. Classify establishment and appropriate Government.
2. Identify employee, worker, contractor and principal employer roles.
3. Rebuild the wage basket using the inclusive core and excluded components.
4. Apply the 50% inclusion-back rule and the 15% in-kind ceiling.

Practical example / calculation

Monthly remuneration is ₹70,000. Core pay (basic + DA + retaining allowance) is ₹30,000 and listed exclusions are ₹40,000. Fifty per cent of total remuneration is ₹35,000. The exclusion excess of ₹5,000 is added back, producing statutory wages of ₹35,000 before any other provision-specific adjustment.

Employer, employee and professional controls

- Maintain a documented wage-definition reconciliation for every salary structure.
- Version-control the payroll rule whenever allowances change.
- Separate employee/worker classification from income-tax salary classification.

APPLICABLE CENTRAL RULE

Rule 2: Definitions

2. Definitions.- (1) In these rules, unless the context otherwise requires. —

(a) "appeal" means an appeal under sub-section (1) of section 49; (b) "appellate authority" means the appellate authority appointed by the Central Government under sub-section (1) of section 49; (c) "appendix" means Appendix annexed to these rules; (d) "authority" means the authority appointed by the Central Government under sub-section (1) of section 45; (e) "Board" means the Central Advisory Board constituted by the Central Government under sub-section (1) of section 42; (f) "Chairperson" means the Chairperson of the Board; (g) "Code" means the Code on Wages, 2019 (29 of 2019); (h) "Committee" means a committee appointed by the Central Government under clause (a) of sub-section (1) of section 8; (i) "day" means a period of twenty-four hours beginning at mid-night; (j) "electronically" means any information submitted by email or maintained or displayed on the designated portal or mobile application or website or digital payment in any mode for the purposes of the Code; (k) "form" means the forms appended to these rules; (l) "geographical area" means the areas notified by the Central Government from time to time. (m) "highly skilled occupation" means an occupation which calls in its performance a specific level of perfection and required competence acquired through intensive technical or professional training or practical occupational experience for a considerable period and also requires of an employee to assume full responsibility for judgment or decision involved in the execution of such occupation; (n) "Inspector-cum-Facilitator" means a person appointed by the Central Government, under sub-section (1) of section 51; (o) "member" means a member of the Board; (p) "normal rate of wage" means wage as defined under clause (y) of section 2; (q) "registered trade union" means a trade union registered under the Industrial Relations Code, 2020 (35 of 2020); (r) "section" means a section of the Code; (s) "semi-skilled occupation" means an occupation which in its performance requires the application of skill gained by the experience on job which is capable of being applied under the supervision or guidance of a skilled employee and includes supervision over the unskilled occupation; (t) "skilled occupation" means an occupation which involves skill and competence in its performance through experience on the job or through training as an apprentice in a technical or vocational institute and the performance of which calls for initiating and judgment; (u) "unskilled occupation" means an occupation which in its performance requires the application of simply the operating experience and involves no further skills.

(2) Words and expressions used in these rules but not defined herein, shall have the meanings respectively assigned to them under the Code.

CHAPTER II

MINIMUM WAGES

Consequences, remedy and evidence

Employer exposure

Shortfall, arrears, compensation, inspection findings and downstream adjudication/offence exposure may arise. The precise consequence must be mapped to sections 45 and 51–56.

Employee route

Preserve appointment terms, rate notification, attendance, wage slip and bank proof. Claims are routed through the authority under section 45; appeals proceed under section 49.

Professional evidence

Retain classification memo, notification version, payroll calculation, approval trail, exception log and remediation proof.

SECTION 3 · OPERATIVE

Section 3: Prohibition of discrimination on ground of gender

Current statutory text

(1) There shall be no discrimination in an establishment or any unit thereof among employees on the ground of gender in matters relating to wages by the same employer, in respect of the same work or work of a similar nature done by any employee.

(2) No employer shall,—

(i) for the purposes of complying with the provisions of sub-section (1), reduce the rate of wages of any employee; and

(ii) make any discrimination on the ground of sex while recruiting any employee for the same work or work of similar nature and in the conditions of employment, except where the employment of women in such work is prohibited or restricted by or under any law for the time being in force.

Finin2min clause-by-clause decode

The employer must not discriminate on gender in wage rates for the same or substantially similar work and must not use recruitment or conditions of employment to recreate the same discrimination.

Applicability

All employees of the same employer where work comparability can be tested on skill, effort, experience, responsibility and working conditions.

Trigger and conditions

1. Compare actual duties, not designations alone.
2. Test skill, effort, experience and responsibility.
3. Confirm similar working conditions.
4. Do not cure inequality by reducing anyone's wage.

Practical example / calculation

Two analysts have different job titles but perform the same reconciliations, carry the same approval responsibility and work under the same conditions. The employer must explain any gender-linked pay variance with objective evidence rather than the title difference alone.

Employer, employee and professional controls

- Run role-based pay-equity testing annually.
- Keep job descriptions, evaluation criteria and pay-band approvals.
- Escalate unexplained gender pay variances.

Consequences, remedy and evidence

Employer exposure

Shortfall, arrears, compensation, inspection findings and downstream adjudication/offence exposure may arise. The precise consequence must be mapped to sections 45 and 51–56.

Employee route

Preserve appointment terms, rate notification, attendance, wage slip and bank proof. Claims are routed through the authority under section 45; appeals proceed under section 49.

Professional evidence

Retain classification memo, notification version, payroll calculation, approval trail, exception log and remediation proof.

SECTION 4 · OPERATIVE

Section 4: Decision as to disputes with regard to same or similar nature of work

Current statutory text

Where there is any dispute as to whether a work is of same or similar nature for the purposes of section 3, the dispute shall be decided by such authority as may be notified by the appropriate Government.

Finin2min clause-by-clause decode

A notified authority—not the employer unilaterally—decides disputes over whether work is the same or similar for section 3.

Applicability

A dispute under section 3 where the parties disagree on comparability.

Trigger and conditions

1. Identify the appropriate Government.
2. Locate the current notification appointing the authority.
3. Prepare evidence on actual work content and conditions.

Practical example / calculation

A same-work dispute file should contain job descriptions, actual work samples, responsibility matrices, shift conditions, qualification requirements and pay-band approvals before the notified authority.

Employer, employee and professional controls

- Preserve job evaluation evidence and witness records.
- Track service and hearing dates.
- Avoid relying only on job titles or grade codes.

Consequences, remedy and evidence

Employer exposure

Shortfall, arrears, compensation, inspection findings and downstream adjudication/offence exposure may arise. The precise consequence must be mapped to sections 45 and 51–56.

Employee route

Preserve appointment terms, rate notification, attendance, wage slip and bank proof. Claims are routed through the authority under section 45; appeals proceed under section 49.

Professional evidence

Retain classification memo, notification version, payroll calculation, approval trail, exception log and remediation proof.

Forms, registers, portals and due dates

Form / record	Purpose	Basis	Timing / control
Form I	Employee Register	Rule 51	Maintain electronically or physically; preserve five years after last entry.
Form IV	Wages, overtime, advances, fines and deductions register	Rule 51	Maintain contemporaneously; preserve five years.
Form IX	Attendance Register-cum-Muster Roll	Rule 51	Maintain contemporaneously; preserve five years.
Form V	Wage slip	Rule 52	Issue electronically or physically on or before payment of wages.

Portal control: use the live Central or State labour portal specified for the establishment and transaction. Portal screens do not amend the Code or Rules. Retain acknowledgement, uploaded file, payment proof and the instruction version used.

Notifications and effective-date history

Instrument	Date	Legal effect
S.O. 4604(E)	18 Dec 2020	Partial commencement affecting Central Advisory Board and specified rule-making/repeal provisions.
S.O. 5322(E)	21 Nov 2025	Commencement of the remaining Code on Wages provisions specified in the instrument.
Section 4 authority notification	Current instrument to be selected by appropriate Government	Determines the authority deciding same/ similar-work disputes.

Old-law / new-Code concordance

Legacy framework	Current Code	Transition control
Equal Remuneration Act, 1976 — equal remuneration and recruitment	Sections 3–4	Broader gender-neutral formulation; use Code definitions and current authority notification.
Minimum Wages / Payment of Wages / Bonus definitions	Section 2	Unified definitions, especially wages, employee, worker, employer and appropriate Government.

Binding and highly relevant judicial principles

Pre-Code decisions remain useful only to the extent their principle is consistent with the current text. Always test amendment or legislative override before relying on an old ratio.

Randhir Singh v. Union of India

Supreme Court, (1982) 1 SCC 618

Principle: Equal pay for equal work is a constitutional goal flowing from equality principles, but comparability must be established on relevant factors.

Current-law use: Legacy constitutional principle survives; apply through the broader gender-neutral text of sections 3–4.

Mackinnon Mackenzie & Co. Ltd. v. Audrey D'Costa

Supreme Court, (1987) 2 SCC 469

Principle: The substance of work, skill, effort and responsibility matters more than labels or historic job segregation.

Current-law use: Highly relevant to the section 2(v) comparability test.

State of Punjab v. Jagjit Singh

Supreme Court, (2017) 1 SCC 148

Principle: Where materially equal work is established in public employment, unequal basic pay may violate equality; classification and duties remain fact-sensitive.

Current-law use: Use cautiously outside its public-employment facts; do not convert it into an automatic private-sector parity rule.

Official judgment retrieval: Supreme Court of India Verdict Finder / SCR portal. Case citations are included for professional verification.

State-law variation alerts

Issue	Variation	Control
Appropriate Government	Central sphere specified in section 2(d); State sphere for other establishments.	Do not assume Central Rules govern an ordinary State-sphere establishment.
Pay-equity authority	Authority is appointed by the relevant appropriate Government.	Check current State Gazette / labour department notification.
Salary and wage structuring	State wage notifications and local Shops/Establishments rules may add obligations.	Apply the more specific binding instrument and document the hierarchy analysis.

Detailed Finin2min Q&A

Does the Code apply only to “workers”?

No. Several obligations use the broader term “employee”. Worker status becomes important for provisions that expressly use that narrower definition.

Are managers outside the Code?

Not automatically. A managerial person may be outside the worker definition yet remain an employee for wage-payment and other provisions.

Does CTC equal wages?

No. CTC is a commercial payroll concept. Section 2(y) requires a statutory reconstruction of included and excluded remuneration.

Is the 50% rule a salary-structure cap?

It is an inclusion-back mechanism. When specified exclusions exceed 50% of total remuneration, the excess is deemed wages.

Can an employer reduce higher-paid employees to create parity?

No. Section 3 expressly prevents reducing a rate of wages to comply with equal-pay requirements.

Are job titles decisive for same work?

No. Actual skill, effort, experience, responsibility and working conditions must be compared.

Does section 3 protect only women?

The current text prohibits discrimination on the ground of gender and is framed for employees of any gender.

Who decides a same-work dispute?

The authority notified by the appropriate Government under section 4.

Can HRA be ignored for every wage calculation?

No. It is generally excluded under section 2(y), subject to the 50% inclusion-back rule and the special second proviso for equal wages and payment of wages.

How is in-kind remuneration treated?

Up to 15% of total wages may be deemed part of wages where provided in lieu of whole or part of wages.

Is a contractor always the only employer?

No. The definition of employer includes the contractor, while principal-employer duties may arise under connected Codes and contractual arrangements.

Which Government is appropriate for a bank or mine?

The Central Government, subject to the full statutory classification in section 2(d).

Do State rules matter for a private shop?

Yes. In most ordinary private establishments, the State Government is the appropriate Government and State rules/notifications must be checked.

Is an apprentice an employee?

An apprentice engaged under the Apprentices Act is excluded from the employee definition. Mislabeled trainees require factual review.

Does a payroll allowance name control classification?

No. Substance, contractual entitlement and the statutory list control.

Can a settlement redefine wages below the Code?

No. Contracting or settlement cannot override the statutory floor where the Code applies.

What evidence supports pay equity?

Current job descriptions, actual task records, evaluation methodology, pay bands, qualifications, responsibility and working-condition evidence.

Should legacy Equal Remuneration Act cases be ignored?

No. Their principles may remain persuasive where consistent with the new wording, but the Code text and current notifications control.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter II — Minimum Wages, Floor Wage, Hours and Overtime

This chapter turns minimum wages, floor wage, hours and overtime into an operational control file. It covers Legal status and reading protocol, Payment of minimum rate of wages, Fixation of minimum wages, Components of minimum wages; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered Employers, employees, workers, contractors and payroll teams must first identify the appropriate Government, employment category and event date.	Main obligations / rights • Legal status and reading protocol • Section 5: Payment of minimum rate of wages • Section 6: Fixation of minimum wages • Section 7: Components of minimum wages • Section 8: Procedure for fixing and revising minimum wages
Key thresholds / timelines • Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.	Forms / evidence • Form I • Form IV • Form IX • Form V • Form II
Employer risk snapshot Highest practical risks: wrong wage base, late payment, unauthorised deduction or incomplete payroll evidence.	Employee / worker remedy timely and lawful wage payment, a transparent wage slip and a claims route for short-payment or unlawful deduction. Confirm authority, limitation and appeal route.
Old law / transition Apply the instrument effective on the event date and preserve any accrued right, saved notification, pending proceeding or scheme-specific transition.	Five-point professional checklist • Freeze the event date, establishment, location and person/worker classification. • Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government. • Reperform the calculation or decision test and document every exception or approval. • Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence. • Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for minimum wages, floor wage, hours and overtime, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

FININ2MIN LEGAL FLOW

Code on Wages, 2019 — Minimum wages, floor wage, hours and overtime

Law → trigger → procedure → evidence. Confirm the operative Central/State instrument on the event date.

Section 5: Payment of minimum rate of wages

Current statutory text

No employer shall pay to any employee wages less than the minimum rate of wages notified by the appropriate Government.

Finin2min clause-by-clause decode

The notified minimum rate is a hard wage floor. Contract terms, consent or internal salary bands cannot authorise a lower payment.

Applicability

Every employee and establishment covered by the relevant Central or State minimum-wage notification.

Trigger and conditions

1. Identify appropriate Government and scheduled/category mapping.
2. Select skill level, occupation and zone.
3. Apply current VDA and effective date.

Practical example / calculation

If the applicable notified monthly minimum is ₹18,900 including current VDA, a contract promising ₹18,000 cannot reduce the statutory entitlement. The ₹900 shortfall and consequential arrears remain payable.

Employer, employee and professional controls

- Maintain a location–category–skill wage matrix.
- Reconcile payroll monthly against current notifications.
- Block below-floor salary changes in HRIS.

Consequences, remedy and evidence

Employer exposure

Shortfall, arrears, compensation, inspection findings and downstream adjudication/offence exposure may arise. The precise consequence must be mapped to sections 45 and 51–56.

Employee route

Preserve appointment terms, rate notification, attendance, wage slip and bank proof. Claims are routed through the authority under section 45; appeals proceed under section 49.

Professional evidence

Retain classification memo, notification version, payroll calculation, approval trail, exception log and remediation proof.

Section 6: Fixation of minimum wages

Current statutory text

(1) Subject to the provisions of section 9, the appropriate Government shall fix the minimum rate of wages payable to employees in accordance with the provisions of section 8.

(2) For the purposes of sub-section (1), the appropriate Government shall fix a minimum rate of wages—

(a) for time work; or

(b) for piece work.

(3) Where employees are employed on piece work, for the purpose of sub-section (1), the appropriate Government shall fix a minimum rate of wages for securing such employees a minimum rate of wages on a time work basis.

(4) The minimum rate of wages on time work basis may be fixed in accordance with any one or more of the following wage periods, namely:—

(i) by the hour; or

(ii) by the day; or

(iii) by the month.

(5) Where the rates of wages are fixed by the hour or by the day or by the month, the manner of calculating the wages shall be such, as may be prescribed.

(6) For the purpose of fixation of minimum rate of wages under this section, the appropriate Government,—

(a) shall primarily take into account the skill of workers required for working under the categories of unskilled, skilled, semi-skilled and highly-skilled or geographical area or both; and

(b) may, in addition to such minimum rate of wages for certain category of workers, take into account their arduousness of work like temperature or humidity normally difficult to bear, hazardous occupations or processes or underground work as may be prescribed by that Government; and

(c) the norms of such fixation of minimum rate of wages shall be such as may be prescribed.

(7) The number of minimum rates of wages referred to in sub-section (6) may, as far as possible, be kept at minimum by the appropriate Government.

Finin2min clause-by-clause decode

The appropriate Government fixes time and piece rates. Classification should primarily reflect skill and geography and may also reflect arduousness and hazardous conditions.

Applicability

Every wage category notified by the appropriate Government.

Trigger and conditions

1. Classify time or piece work.
2. Apply skill and geographical category.
3. Apply arduousness/hazard additions where notified.
4. Use Rule 3 for day/hour/month conversion in the Central sphere.

Practical example / calculation

Under Central Rule 3, a notified daily rate of ₹800 converts to ₹100 per hour ($₹800 \div 8$) and ₹20,800 per month ($₹800 \times 26$), subject to the Rule's rounding convention.

Employer, employee and professional controls

- Document category evidence.
- Test rounding in payroll.
- Do not use a lower internal hourly divisor.

APPLICABLE CENTRAL RULE

Rule 3: Manner of calculating minimum rate of wages

3. Manner of calculating minimum rate of wages.—(1) For the purposes of sub-section (5) of section 6, the minimum rate of wages shall be fixed by the day basis keeping in view the criteria which shall be separately specified by the Central Government by special or general order:

Provided that the Central Government shall not fix the minimum wages of the Central Government employees under this Code.

(2) Where the rate of wages for a day is fixed, such amount shall be divided by eight for fixing the rate of wages for an hour and multiplied by twenty six for fixing the rate of wages for a month and in such

division and multiplication the factors of one-half and more than one-half shall be rounded as next figure and the factors less than one-half shall be ignored.

(3) In case there is less than six days working week, the hourly rate of minimum wages so calculated shall be used to derive the minimum wages for the day.

Consequences, remedy and evidence

Employer exposure

Shortfall, arrears, compensation, inspection findings and downstream adjudication/offence exposure may arise. The precise consequence must be mapped to sections 45 and 51–56.

Employee route

Preserve appointment terms, rate notification, attendance, wage slip and bank proof. Claims are routed through the authority under section 45; appeals proceed under section 49.

Professional evidence

Retain classification memo, notification version, payroll calculation, approval trail, exception log and remediation proof.

Section 7: Components of minimum wages

Current statutory text

(1) Any minimum rate of wages fixed or revised by the appropriate Government under section 8 may consist of—

(a) a basic rate of wages and an allowance at a rate to be adjusted, at such intervals and in such manner as the appropriate Government may direct, to accord as nearly as practicable with the variation in the cost of living index number applicable to such workers (hereinafter referred to as “cost of living allowance”); or

(b) a basic rate of wages with or without the cost of living allowance, and the cash value of the concessions in respect of supplies of essential commodities at concession rates, where so authorised; or

(c) an all-inclusive rate allowing for the basic rate, the cost of living allowance and the cash value of the concessions, if any.

(2) The cost of living allowance and the cash value of the concessions in respect of supplies of essential commodities at concession rate shall be computed by such authority, as the appropriate Government may by notification, appoint, at such intervals and in accordance with such directions as may be specified or given by the appropriate Government from time to time.

Finin2min clause-by-clause decode

A minimum wage can be structured as basic plus cost-of-living allowance, basic plus concessions, or an all-inclusive rate. The notified computation authority and interval govern VDA/cash-value updates.

Applicability

Where a minimum-wage notification uses basic, VDA or concession components.

Trigger and conditions

1. Read the notification's component structure.
2. Apply the latest cost-of-living index period.
3. Use the appointed authority's computation.

Practical example / calculation

Where the notification states basic ₹14,000 plus VDA ₹2,400, payroll must update the VDA on the operative cycle and cannot treat the basic component alone as the minimum wage.

Employer, employee and professional controls

- Retain CPI/VDA source and effective-date evidence.
- Separate arrears caused by retrospective VDA revisions.
- Do not freeze VDA beyond the notified cycle.

APPLICABLE CENTRAL RULE

Rule 4: Interval for revision of variable dearness allowance

4. Interval for revision of variable dearness allowance.- The cost of living allowance and the cash value of the concession in respect of essential commodities at concession rate shall be computed once before 1st April and then before 1st October in every year to revise the variable dearness allowance payable to the employees on the minimum wages considering the Average Consumer Price Index Number for Industrial Workers published by the Labour Bureau, Ministry of Labour and Employment, Government of India.

Section 8: Procedure for fixing and revising minimum wages

Current statutory text

(1) In fixing minimum rates of wages for the first time or in revising minimum rates of wages under this Code, the appropriate Government shall either—

(a) appoint as many committees as it considers necessary to hold enquiries and recommend in respect of such fixation or revision, as the case may be; or

(b) by notification publish its proposals for the information of persons likely to be affected thereby and specify a date not less than two months from the date of the notification on which the proposals shall be taken into consideration.

(2) Every committee appointed by the appropriate Government under clause (a) of sub-section (1) shall consist of persons—

(a) representing employers;

(b) representing employees which shall be equal in number of the members specified in clause (a); and

(c) independent persons, not exceeding one-third of the total members of the committee.

(3) After considering the recommendation of the committee appointed under clause (a) of sub-section (1) or, as the case may be, all representations received by it before the date specified in the notification under clause (b) of that sub-section, the appropriate Government shall by notification fix, or as the case may be, revise the minimum rates of wages and unless such notification otherwise provides, it shall come into force on the expiry of three months from the date of its issue:

Provided that where the appropriate Government proposes to revise the minimum rates of wages in the manner specified in clause (b) of sub-section (1), it shall also consult concerned Advisory Board constituted under section 42.

(4) The appropriate Government shall review or revise minimum rates of wages ordinarily at an interval not exceeding five years.

Finin2min clause-by-clause decode

Minimum-wage fixation may follow a committee route or a proposal-and-objection route. The final notification ordinarily becomes effective after three months unless it says otherwise, and rates should ordinarily be reviewed within five years.

Applicability

Government fixation/revision process and affected employers/employees.

Trigger and conditions

1. Identify route used.
2. For proposal route, confirm at least two months for representations.
3. Read final notification for effective date.
4. Track five-year ordinary review cycle.

Practical example / calculation

A proposal published on 1 July cannot specify a representation cut-off earlier than the statutory minimum two-month window. Payroll changes arise from the final notification and its effective-date clause, not from the proposal itself.

Employer, employee and professional controls

- Calendar draft and final notifications.
- File representations with evidence where relevant.
- Do not apply draft proposals as law.

Consequences, remedy and evidence

Employer exposure

Shortfall, arrears, compensation, inspection findings and downstream adjudication/offence exposure may arise. The precise consequence must be mapped to sections 45 and 51–56.

Employee route

Preserve appointment terms, rate notification, attendance, wage slip and bank proof. Claims are routed through the authority under section 45; appeals proceed under section 49.

Professional evidence

Retain classification memo, notification version, payroll calculation, approval trail, exception log and remediation proof.

Section 9: Power of Central Government to fix floor wage

Current statutory text

(1) The Central Government shall fix floor wage taking into account minimum living standards of a worker in such manner as may be prescribed:

Provided that different floor wage may be fixed for different geographical areas.

(2) The minimum rates of wages fixed by the appropriate Government under section 6 shall not be less than the floor wage and if the minimum rates of wages fixed by the appropriate Government earlier is more than the floor wage, then, the appropriate Government shall not reduce such minimum rates of wages fixed by it earlier.

(3) The Central Government may, before fixing the floor wage under sub-section (1), obtain the advice of the Central Advisory Board constituted under sub-section (1) of section 42 and consult State Governments in such manner as may be prescribed.

Finin2min clause-by-clause decode

The Central Government sets a floor wage based on minimum living standards. State or Central minimum rates cannot fall below it, and a previously higher rate cannot be reduced merely because the floor is lower.

Applicability

All appropriate Governments when fixing minimum wages; employers indirectly through the notified rates.

Trigger and conditions

1. Locate current floor-wage instrument.
2. Compare applicable minimum wage with floor wage.
3. Preserve higher existing minimum rate.

Practical example / calculation

If the floor wage is ₹16,000 and a State rate is already ₹18,500, the State rate cannot be reduced to ₹16,000 merely because that is the floor.

Employer, employee and professional controls

- Maintain floor-vs-notified-rate exception report.
- Treat geographic floor wage separately where notified.

Consequences, remedy and evidence

Employer exposure

Shortfall, arrears, compensation, inspection findings and downstream adjudication/offence exposure may arise. The precise consequence must be mapped to sections 45 and 51–56.

Employee route

Preserve appointment terms, rate notification, attendance, wage slip and bank proof. Claims are routed through the authority under section 45; appeals proceed under section 49.

Professional evidence

Retain classification memo, notification version, payroll calculation, approval trail, exception log and remediation proof.

Section 10: Wages of employee who works for less than normal working day

Current statutory text

If an employee whose minimum rate of wages has been fixed under this Code by the day works on any day on which he was employed for a period of less than the requisite number of hours constituting a normal working day, he shall, save as otherwise hereinafter provided, be entitled to receive wages in respect of work done on that day, as if he had worked for a full normal working day:

Provided that he shall not be entitled to receive wages for a full normal working day,—

(i) in any case where his failure to work is caused by his unwillingness to work and not by the omission of the employer to provide him with work; and

(ii) in such other cases and circumstances, as may be prescribed.

Finin2min clause-by-clause decode

A day-rated employee generally receives the full daily minimum wage if the employer fails to provide a full normal day. The protection does not apply where the employee was unwilling to work or another prescribed exception applies.

Applicability

Day-rated minimum-wage employees who work less than the normal daily hours.

Trigger and conditions

1. Confirm employee reported and was willing to work.
2. Identify who caused the shortfall.
3. Check prescribed exceptions.

Practical example / calculation

A day-rated employee reports for an eight-hour shift, but the employer provides only four hours of work due to machine breakdown. Subject to the statutory exceptions, the full daily minimum wage remains protected.

Employer, employee and professional controls

- Record reporting time, work allocation and downtime cause.
- Do not auto-prorate employer-caused idle time.

Consequences, remedy and evidence

Employer exposure

Shortfall, arrears, compensation, inspection findings and downstream adjudication/offence exposure may arise. The precise consequence must be mapped to sections 45 and 51–56.

Employee route

Preserve appointment terms, rate notification, attendance, wage slip and bank proof. Claims are routed through the authority under section 45; appeals proceed under section 49.

Professional evidence

Retain classification memo, notification version, payroll calculation, approval trail, exception log and remediation proof.

Section 11: Wages for two or more classes of work

Current statutory text

Where an employee does two or more classes of work to each of which a different minimum rate of wages is applicable, the employer shall pay to such employee in respect of the time respectively occupied in each such class of work, wages at not less than the minimum rate in force in respect of each such class.

Finin2min clause-by-clause decode

Where one employee performs multiple classes of work carrying different rates, wages must be allocated by the time spent in each class.

Applicability

Multi-skilled or mixed-duty employees.

Trigger and conditions

1. Identify each class and rate.
2. Record time in each class.
3. Pay at least the applicable rate for each period.

Practical example / calculation

An employee spends five hours on skilled electrical work and three hours on semi-skilled packing. Time must be recorded and each block paid at not less than its applicable rate.

Employer, employee and professional controls

- Use task/time coding.
- Avoid averaging that underpays a higher-rated activity.

Consequences, remedy and evidence

Employer exposure

Shortfall, arrears, compensation, inspection findings and downstream adjudication/offence exposure may arise. The precise consequence must be mapped to sections 45 and 51–56.

Employee route

Preserve appointment terms, rate notification, attendance, wage slip and bank proof. Claims are routed through the authority under section 45; appeals proceed under section 49.

Professional evidence

Retain classification memo, notification version, payroll calculation, approval trail, exception log and remediation proof.

Section 12: Minimum time rate wages for piece work

Current statutory text

Where a person is employed on piece work for which minimum time rate and not a minimum piece rate has been fixed under this Code, the employer shall pay to such person wages at not less than the minimum time rate.

Finin2min clause-by-clause decode

A piece worker remains protected by the minimum time rate where no piece rate has been fixed.

Applicability

Piece-rate work covered by a time-rate minimum wage but no notified piece rate.

Trigger and conditions

1. Measure hours/time period.
2. Calculate minimum time-rate entitlement.
3. Compare with piece earnings and pay the higher protected amount.

Practical example / calculation

A piece worker earns ₹620 from output during an eight-hour day, while the protected time-rate minimum is ₹800. The employer must make up the ₹180 shortfall.

Employer, employee and professional controls

- Run time-rate floor reconciliation each wage period.

Consequences, remedy and evidence

Employer exposure

Shortfall, arrears, compensation, inspection findings and downstream adjudication/offence exposure may arise. The precise consequence must be mapped to sections 45 and 51–56.

Employee route

Preserve appointment terms, rate notification, attendance, wage slip and bank proof. Claims are routed through the authority under section 45; appeals proceed under section 49.

Professional evidence

Retain classification memo, notification version, payroll calculation, approval trail, exception log and remediation proof.

Section 13: Fixing hours of work for normal working day

Current statutory text

(1) Where the minimum rates of wages have been fixed under this Code, the appropriate Government may—

- (a) fix the number of hours of work which shall constitute a normal working day inclusive of one or more specified intervals;
- (b) provide for a day of rest in every period of seven days which shall be allowed to all employees or to any specified class of employees and for the payment of remuneration in respect of such days of rest;
- (c) provide for payment for work on a day of rest at a rate not less than the overtime rate.

(2) The provisions of sub-section (1) shall, in relation to the following classes of employees apply, only to such extent and subject to such conditions as may be prescribed, namely:—

- (a) employees engaged in any emergency which could not have been foreseen or prevented;
- (b) employees engaged in work of the nature of preparatory or complementary work which must necessarily be carried on outside the limits laid down for the general working in the employment concerned;
- (c) employees whose employment is essentially intermittent;
- (d) employees engaged in any work which for technical reasons has to be completed before the duty is over; and
- (e) employees engaged in a work which could not be carried on except at times dependent on the irregular action of natural forces.

(3) For the purposes of clause (c) of sub-section (2), employment of an employee is essentially intermittent when it is declared to be so by the appropriate Government on the ground that the daily hours of duty of the employee, or if there be no daily hours of duty as such for the employee, the hours of duty normally include periods of inaction during which the employee may be on duty but is not called upon to display either physical activity or sustained attention.

Finin2min clause-by-clause decode

The appropriate Government may define the normal day, weekly rest and rest-day remuneration. Prescribed exceptions apply to emergencies, preparatory work, intermittent work, technically continuous work and work dependent on natural forces.

Applicability

Employees whose minimum rate has been fixed; Central Rule 5 supplies 8-hour/day and 48-hour/week architecture in the Central sphere.

Trigger and conditions

1. Identify applicable hours notification and OSHWC interface.
2. Schedule weekly rest.
3. Classify any exception narrowly.
4. Record rest-day substitution.

Practical example / calculation

A six-day Central-sphere schedule must align the eight-hour normal day, weekly rest and forty-eight-hour weekly ceiling, while separately checking the OSHWC rule on rest intervals.

Employer, employee and professional controls

- Time-system alerts for 8/48-hour limits.
- Weekly-rest dashboard.
- Exception approval and compensatory-rest record.

APPLICABLE CENTRAL RULE

Rule 5: Hours of work for normal working day

5. Hours of work for normal working day. - (1) The number of hours of work which shall constitute normal working day for an employee whose wage period is on a daily basis shall be eight hours and interval for rest shall be in accordance with notification issued in this regard under Occupational Safety, Health and Working Conditions Code, 2020 (37 of 2020).

(2) The number of hours of work which shall constitute a normal working day for an employee whose wage period is other than on a daily basis shall be so fixed that the total number of weekly working hours shall not exceed forty-eight hours.

Official source: Code on Wages (Central) Rules, 2026, G.S.R. 343(E), 8 May 2026.

APPLICABLE CENTRAL RULE

Rule 6: Weekly day of rest

6. Weekly day of rest.— (1) Subject to the provisions of this rule, an employee shall be allowed rest for one day in every week (hereinafter referred to as "the rest day"), in case of six-day working week which shall ordinarily be a Sunday and in case of less than six-days working week, the rest day shall include Saturday and Sunday, however, the employer may fix any other day of the week as the rest day for any employee or class of employees:

Provided that in a six-days working week or less than six days working week, as the case may be, the remaining days of the week shall be paid rest days for such employees:

Provided further that an employee shall be entitled for the rest day under this sub-rule, if he has worked under the same employer in case of six-days working week for a continuous period of not less than six days and in case of less than six-days working week for a continuous period of the stipulated number of working days, as the case may be:

Provided also that the employee shall be informed of the day fixed as the rest day and of any subsequent change in the rest day before the change is effected, by display of a notice to that effect at a conspicuous place in the place of employment or electronically.

Explanation.- For the purpose of computation of the continuous period of not less than six days or the stipulated number of days worked in a week specified in the second proviso to this sub-rule, (a) any day on which an employee is required to attend for work but is given only an allowance for attendance and is not provided with work; (b) any day on which an employee is laid off on payment of compensation under the Industrial Relations Code, 2020 (35 of 2020), and; (c) any leave or holiday, with or without pay, granted by the employer to an employee in the period of six days or during the stipulated number of working days of a week, as the case may

be, immediately preceding the rest days.

(2) An employee shall not be required or allowed to work on the rest day unless he is allowed a substituted rest day on one of the working days in a week immediately before or after the rest day:

Provided that no substitution shall be made, which shall result in the employee working for more than ten days consecutively without a rest day.

(3) Where any employee works on a rest day and has been given a substituted rest day on any working days before or after the rest day, the rest day shall, for the purposes of calculating the weekly hours of work, be included in the week in which the substituted rest day occurs.

(4) An employee shall be granted for rest day, wages calculated at the rate applicable to the previous working day; where he works on the rest day and has been given a substituted rest day, then, he shall be paid wages for the rest day on which he worked, at the overtime rate and wages for the substituted rest day at the rate applicable to the previous working day: Provided that in case of six-days working week where— (i) the minimum rate of wages of the employee as notified under the Code has been worked out by dividing the minimum monthly rate of wages by twenty- six; or (ii) the actual daily rate of wages of the employee has been worked out by dividing the monthly rate of wages by twenty-six and such actual daily rate of wages is not less than the notified minimum daily rate of wages of the employee, then, no wages for the rest day shall be payable; and (iii) the employee works on the rest day and has been given a substituted rest day, then, the employee shall be paid, only for the rest day on which he worked, an amount equal to the wages payable at the overtime rate, which shall not be less than twice the normal rate of wages,

and, in case any dispute arises whether the daily rate of wages has been worked out in accordance with the provisions of this proviso, the Chief Labour Commissioner (Central) or the Deputy Chief Labour Commissioner (Central) having jurisdiction may, on application made in this behalf, decide the same, after giving an opportunity to the parties concerned to make written representations:

Provided further that in case of an employee governed by a piece-rate system, the employee shall be paid wages for the rest day on which he works, at the overtime rate and wages for the substituted rest day at the rate applicable to the previous working day.

Explanation.- For the purpose of this sub-rule, the words 'previous working day' means the last day on which the employee has worked, which precedes the rest day or the substituted rest day, as the case may be; and where the substituted rest day falls on a day immediately after the rest day, the previous working day means the last day on which the employee has worked, which precedes the rest day.

(5) The provisions of this rule shall not operate to the prejudice of more favourable terms, if any, to which an employee may be, entitled under any other law or under the terms of any award, agreement or contract of service, and in such a case, the employee shall be entitled only to more favorable terms.

Explanation.- For the purposes of this rule, the expression 'week' shall mean a period of seven days beginning at midnight on Saturday night.

APPLICABLE CENTRAL RULE

Rule 7: Night shifts

7. Night shifts. —Where an employee works on a shift which extends beyond midnight, then, —

(i) a rest day for the whole day for the purposes of rule 6 shall, in this case means a period of twenty-four consecutive hours beginning from the time when his shift ends; and (ii) the following day in such a case shall be deemed to be the period of twenty-four hours beginning from the time when such shift ends and the hours after midnight during which such employee was engaged in work shall be counted towards the previous day.

APPLICABLE CENTRAL RULE

Rule 8: Extent and conditions of working hours for certain categories of employees

8. Extent and conditions of working hours for certain categories of employees.- The number of working hours for certain categories of employees under sub-section (2) of section 13 may exceed the normal working hours, specified in rule 5:

Provided that the overtime of these categories of employees shall be as per section 14.

Official source: Code on Wages (Central) Rules, 2026, G.S.R. 343(E), 8 May 2026.

Consequences, remedy and evidence

Employer exposure

Shortfall, arrears, compensation, inspection findings and downstream adjudication/offence exposure may arise. The precise consequence must be mapped to sections 45 and 51–56.

Employee route

Preserve appointment terms, rate notification, attendance, wage slip and bank proof. Claims are routed through the authority under section 45; appeals proceed under section 49.

Professional evidence

Retain classification memo, notification version, payroll calculation, approval trail, exception log and remediation proof.

Section 14: Wages for overtime work

Current statutory text

Where an employee whose minimum rate of wages has been fixed under this Code by the hour, by the day or by such a longer wage-period as may be prescribed, works on any day in excess of the number of hours constituting a normal working day, the employer shall pay him for every hour or for part of an hour so worked in excess, at the overtime rate which shall not be less than twice the normal rate of wages.

Finin2min clause-by-clause decode

Work beyond the normal day attracts overtime at not less than twice the normal rate. A part of an excess hour is also protected.

Applicability

Employees with minimum rates fixed by hour, day or prescribed longer wage period who exceed the normal day.

Trigger and conditions

1. Determine normal hours.
2. Capture all excess time, including part-hours.
3. Compute at least 2× normal rate.
4. Overlay any more beneficial State/sector rule.

Practical example / calculation

Normal hourly wage is ₹125. Two hours and thirty minutes of covered overtime require at least ₹625: $2.5 \times ₹250$.

Employer, employee and professional controls

- No unauthorised overtime without payment.
- Reconcile attendance, production and payroll.
- Retain overtime approval and employee acknowledgment.

Forms, registers, portals and due dates

Form / record	Purpose	Basis	Timing / control
Form I	Employee Register	Rule 51	Maintain electronically or physically; preserve five years after last entry.
Form IV	Wages, overtime, advances, fines and deductions register	Rule 51	Record minimum wage, overtime and deductions contemporaneously.
Form IX	Attendance Register-cum-Muster Roll	Rule 51	Primary hours and overtime evidence.
Form V	Wage slip	Rule 52	Issue on or before wage payment.
Form II / III	Claim / appeal	Rules 49–50	Use for dispute remedy; employer appeal requires deposit of claim amount.

Portal control: use the live Central or State labour portal specified for the establishment and transaction. Portal screens do not amend the Code or Rules. Retain acknowledgement, uploaded file, payment proof and the instruction version used.

Notifications and effective-date history

Instrument	Date	Legal effect
S.O. 5322(E)	21 Nov 2025	Commencement of Chapter II provisions.
Minimum-wage notifications	Central or State, category/zone specific	Supply the operative rate, VDA, occupation, skill and geographical classification.
Section 7(2) authority instrument	Appropriate Government	Appoints the authority computing cost-of-living allowance and concession value.
Floor-wage instrument	Central Government	Sets the statutory floor; verify the current notified amount and geography immediately before use.

Old-law / new-Code concordance

Legacy framework	Current Code	Transition control
Minimum Wages Act, 1948 — sections 3–5	Sections 5–9	Universal Code architecture, floor wage and revised fixation process.
Minimum Wages Act — sections 12–17	Sections 10–14	Short-day, mixed-work, piece-work, hours, rest and overtime protections.
Saved State notifications/ actions	Section 69 savings	Apply only after verifying survival, consistency and later replacement.

Binding and highly relevant judicial principles

Pre-Code decisions remain useful only to the extent their principle is consistent with the current text. Always test amendment or legislative override before relying on an old ratio.

Bijay Cotton Mills Ltd. v. State of Ajmer

Supreme Court, AIR 1955 SC 33

Principle: Minimum-wage legislation is a valid social-welfare restriction; the statutory floor is not defeated by ordinary freedom-of-contract arguments.

Current-law use: Legacy constitutional principle remains relevant to Code enforcement.

U. Unichoyi v. State of Kerala

Supreme Court, AIR 1962 SC 12

Principle: A statutory minimum wage is not fixed by reference to an individual employer's capacity to pay.

Current-law use: Relevant to objections based only on affordability.

Workmen v. Reptakos Brett & Co. Ltd.

Supreme Court, (1992) 1 SCC 290

Principle: Needs-based wage analysis includes food, clothing, housing and additional essentials such as education, medical needs, recreation and old-age provision.

Current-law use: Useful context for living-standard and floor-wage methodology; the current statutory instrument controls the actual rate.

Airfreight Ltd. v. State of Karnataka

Supreme Court, (1999) 6 SCC 567

Principle: Where a notification specifies basic plus VDA, total remuneration and notification wording must be analysed before determining shortfall.

Current-law use: Apply only after reading current section 7 structure and the operative notification.

State-law variation alerts

Issue	Variation	Control
Rate notification	Occupation, skill, zone and VDA vary by appropriate Government.	Build a State/UT-specific rate matrix; never use one national amount.
Normal day / weekly rest	Central Rules apply in the Central sphere; State Rules and Shops laws may differ.	Overlay the binding State rule and any more beneficial sector condition.
Overtime	Section 14 floor is at least twice normal rate; other laws may be more specific.	Map OSHWC, Shops and Establishments, factory/mine or settlement provisions.
VDA cycle	Central Rule 4 uses 1 April and 1 October; State cycles vary.	Maintain jurisdiction-specific effective-date calendars.

Detailed Finin2min Q&A

Is one national minimum wage rate applicable everywhere?

No. The Central Government fixes a floor wage, while the appropriate Government fixes operative minimum rates that cannot be lower.

Can a State reduce an existing higher rate to the floor wage?

No. Section 9 protects a previously higher minimum rate from reduction merely because the floor is lower.

Are minimum wages limited to scheduled employments?

The Code's architecture is universal, subject to commencement, jurisdiction and notified classifications.

How is a daily rate converted to hourly and monthly in the Central sphere?

Rule 3 divides the daily rate by eight for hourly rate and multiplies it by twenty-six for monthly rate, applying the specified rounding rule.

What if the establishment works five days a week?

Rule 3(3) uses the hourly rate to derive the daily rate; Rule 6 separately addresses paid rest days and weekly-rest structure.

How often must VDA be revised under the Central Rules?

Rule 4 requires revision on 1 April and 1 October each year.

Is the normal day eight hours?

For a daily wage period in the Central sphere, Rule 5 states eight hours, with rest intervals linked to OSHWC instruments.

Is the weekly ceiling forty-eight hours?

Rule 5(2) states that, for wage periods other than daily, total weekly working hours shall not exceed forty-eight hours.

Is every Sunday necessarily the rest day?

Not invariably. Rule 6 provides the ordinary position and permits another fixed day with notice and conditions.

Must rest days be paid?

Rule 6 contains paid-rest-day protections; apply the exact sub-rule to the working-week model.

How is a night shift rest day calculated?

Rule 7 treats the rest day as twenty-four consecutive hours beginning when the shift ends.

Can overtime be paid at 1.5 times?

Not where section 14 applies: the statutory minimum is twice the normal rate.

Does part of an overtime hour count?

Yes. Section 14 covers every hour or part of an hour worked in excess.

Can a piece worker earn below the time-rate floor?

No, where section 12 applies and no minimum piece rate has been fixed.

What if an employee performs two skill categories in one shift?

Section 11 requires payment for the time in each class at not less than that class's minimum rate.

Can employer-caused downtime be prorated?

Section 10 generally protects the full daily wage where the employee was willing to work and the employer did not provide work.

What is the ordinary revision cycle for minimum wages?

Section 8 says the appropriate Government shall ordinarily review or revise rates at an interval not exceeding five years.

Does a draft wage notification change payroll immediately?

No. A draft or proposal is not operative law. Apply the final notification from its stated effective date.

Which rate wins if a State law is more beneficial?

The specific statutory interaction and savings must be checked; employers should not reduce a more beneficial binding entitlement without legal review.

What records prove compliance?

Rate notification, classification basis, attendance, muster roll, wage register, wage slips, overtime approvals, bank payment proof and arrears reconciliation.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter III - Payment of wages and deductions

This chapter turns payment of wages and deductions into an operational control file. It covers Mode of payment of wages, Fixation of wage period, Time limit for payment of wages, Deductions which may be made from wages; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered Employers, employees, workers, contractors and payroll teams must first identify the appropriate Government, employment category and event date.	Main obligations / rights • Section 15: Mode of payment of wages • Section 16: Fixation of wage period • Section 17: Time limit for payment of wages • Section 18: Deductions which may be made from wages • Section 19: Fines
Key thresholds / timelines • Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.	Forms / evidence • Register • Notice • Classification, calculation, approval, acknowledgement and payment/filing proof
Employer risk snapshot Highest practical risks: wrong wage base, late payment, unauthorised deduction or incomplete payroll evidence.	Employee / worker remedy timely and lawful wage payment, a transparent wage slip and a claims route for short-payment or unlawful deduction. Confirm authority, limitation and appeal route.
Old law / transition Map the event date and savings position against: Payment of Wages Act, 1936; Minimum Wages Act, 1948; Payment of Bonus Act, 1965; Equal Remuneration Act, 1976.	Five-point professional checklist • Freeze the event date, establishment, location and person/worker classification. • Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government. • Reperform the calculation or decision test and document every exception or approval. • Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence. • Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for payment of wages and deductions, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Code on Wages, 2019 — Payment of wages and deductions

Law → trigger → procedure → evidence. Confirm the operative Central/State instrument on the event date.

Finin2min decision flow — identify the law, complete the statutory process and preserve evidence.

Publication-source status: The chapter contains the complete analytical and Rule-mapping layer. For the four parent Codes, the exact current Act text is displayed through the official India Code PDF/section viewer. It is not re-labelled as locally embedded text where the retained source file is unavailable. This preserves legal honesty while the official text is retained as the controlling source.

Open section 15 in the official source. Statutory title: Mode of payment of wages.

Finin2min clause-by-clause decode

1. Identify the person or establishment to whom section 15 applies.
2. Convert every condition in “Mode of payment of wages” into a dated checklist.
3. Map the applicable authority, State/Central jurisdiction and documentary evidence.
4. Test exceptions, provisos, deeming language and consequences separately.

Applicable Central Rules immediately below the provision

No direct Central Rule is mapped. Check general procedural Rules, State Rules and later notifications.

Practical example

A payroll team tests the employee category, wage period, notified rate, permitted exclusions and documentary proof before releasing payroll. It records the calculation, approval, bank output and wage slip so that every disputed limb can be reconstructed.

Controls and evidence

- Employer: assign owner, configure system and retain approval/payment proof.
- Employee/worker: retain contract, attendance, wage/benefit proof and communication.
- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Identify the substantive default first, then separately map arrears or benefit, interest/damages, administrative penalty, prosecution, compounding, company/officer liability, forum, appeal and limitation. Do not infer a remedy from the heading alone.

Forms and registers must be confirmed from the appended 2026 Central Rules and the live portal applicable to the appropriate Government. A form is not treated as current merely because an earlier law used the same number.

Notifications and effective-date history

Control	Required action

Enactment	Record Act number, assent and Gazette publication.
Commencement	Use the provision-specific commencement notification; the four Codes became broadly operative from 21 November 2025 subject to earlier partial commencement and corrigenda.
Central Rules	Read the applicable 2026 Central Rules from their Gazette date and verify subsequent amendments.
State instrument	Check final State Rules, authority notifications, forms and rates where the State is appropriate Government.

Old-law/new-Code concordance

Predecessor law	Transition control
Payment of Wages Act, 1936	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Minimum Wages Act, 1948	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Payment of Bonus Act, 1965	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Equal Remuneration Act, 1976	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
People's Union for Democratic Rights v. Union of India	Non-payment of the applicable minimum wage may engage constitutional and statutory consequences; use the principle only after aligning it with the universal Code coverage and current notification.
Airfreight Ltd. v. State of Karnataka	Minimum-wage components and neutralisation must be read from the governing notification and statutory scheme, not from payroll labels alone.
Manganese Ore (India) Ltd. v. Chandi Lal Saha	The legal character of an allowance or benefit depends on the governing provision and facts; nomenclature is not decisive.
Workmen v. Reptakos Brett & Co.	Needs-based wage principles remain relevant to wage fixation, but the current statutory floor and notified rates control compliance.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Code on Wages, 2019, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 15 - Mode of payment of wages?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 16 - Fixation of wage period?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter IV - Payment of bonus

This chapter turns payment of bonus into an operational control file. It covers Eligibility for bonus, etc, Proportionate reduction in bonus in certain cases, Computation of number of working days, Disqualification for bonus; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, employees, workers, contractors and payroll teams must first identify the appropriate Government, employment category and event date.

Main obligations / rights

- Section 26: Eligibility for bonus, etc
- Section 27: Proportionate reduction in bonus in certain cases
- Section 28: Computation of number of working days
- Section 29: Disqualification for bonus
- Section 30: Establishments to include departments, undertakings and branches

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Forms / evidence

- Applicable form/register, calculation file, approval and acknowledgement evidence
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employer risk snapshot

Highest practical risks: wrong wage base, late payment, unauthorised deduction or incomplete payroll evidence.

Employee / worker remedy

timely and lawful wage payment, a transparent wage slip and a claims route for short-payment or unlawful deduction. Confirm authority, limitation and appeal route.

Old law / transition

Map the event date and savings position against: Payment of Wages Act, 1936; Minimum Wages Act, 1948; Payment of Bonus Act, 1965; Equal Remuneration Act, 1976.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for payment of bonus, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Practical example

A payroll team tests the employee category, wage period, notified rate, permitted exclusions and documentary proof before releasing payroll. It records the calculation, approval, bank output and wage slip so that every disputed limb can be reconstructed.

Controls and evidence

- Employer: assign owner, configure system and retain approval/payment proof.
- Employee/worker: retain contract, attendance, wage/benefit proof and communication.
- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Identify the substantive default first, then separately map arrears or benefit, interest/damages, administrative penalty, prosecution, compounding, company/officer liability, forum, appeal and limitation. Do not infer a remedy from the heading alone.

Practical example

A multi-location employer prepares a legal classification memo, identifies the appropriate Government, maps the operative provision and Rule, records the decision owner and retains the documents needed to prove compliance during inspection or litigation.

Controls and evidence

- Employer: assign owner, configure system and retain approval/payment proof.
- Employee/worker: retain contract, attendance, wage/benefit proof and communication.
- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Identify the substantive default first, then separately map arrears or benefit, interest/damages, administrative penalty, prosecution, compounding, company/officer liability, forum, appeal and limitation. Do not infer a remedy from the heading alone.

Forms and registers must be confirmed from the appended 2026 Central Rules and the live portal applicable to the appropriate Government. A form is not treated as current merely because an earlier law used the same number.

Notifications and effective-date history

Control	Required action
Enactment	Record Act number, assent and Gazette publication.
Commencement	

	Use the provision-specific commencement notification; the four Codes became broadly operative from 21 November 2025 subject to earlier partial commencement and corrigenda.
Central Rules	Read the applicable 2026 Central Rules from their Gazette date and verify subsequent amendments.
State instrument	Check final State Rules, authority notifications, forms and rates where the State is appropriate Government.

Old-law/new-Code concordance

Predecessor law	Transition control
Payment of Wages Act, 1936	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Minimum Wages Act, 1948	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Payment of Bonus Act, 1965	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Equal Remuneration Act, 1976	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
People's Union for Democratic Rights v. Union of India	Non-payment of the applicable minimum wage may engage constitutional and statutory consequences; use the principle only after aligning it with the universal Code coverage and current notification.
Airfreight Ltd. v. State of Karnataka	Minimum-wage components and neutralisation must be read from the governing notification and statutory scheme, not from payroll labels alone.
Manganese Ore (India) Ltd. v. Chandi Lal Saha	The legal character of an allowance or benefit depends on the governing provision and facts; nomenclature is not decisive.
Workmen v. Reptakos Brett & Co.	Needs-based wage principles remain relevant to wage fixation, but the current statutory floor and notified rates control compliance.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Code on Wages, 2019, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 26 - Eligibility for bonus, etc?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 27 - Proportionate reduction in bonus in certain cases?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 28 - Computation of number of working days?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 29 - Disqualification for bonus?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 30 - Establishments to include departments, undertakings and branches?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 31 - Payment of bonus out of allocable surplus?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 32 - Computation of gross profits?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 33 - Computation of available surplus?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter V - Advisory Boards

This chapter turns advisory boards into an operational control file. It covers Central Advisory Board and State Advisory Boards; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, employees, workers, contractors and payroll teams must first identify the appropriate Government, employment category and event date.

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Employer risk snapshot

Highest practical risks: wrong wage base, late payment, unauthorised deduction or incomplete payroll evidence.

Old law / transition

Map the event date and savings position against: Payment of Wages Act, 1936; Minimum Wages Act, 1948; Payment of Bonus Act, 1965; Equal Remuneration Act, 1976.

Main obligations / rights

- Section 42: Central Advisory Board and State Advisory Boards

Forms / evidence

- Applicable form/register, calculation file, approval and acknowledgement evidence
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employee / worker remedy

timely and lawful wage payment, a transparent wage slip and a claims route for short-payment or unlawful deduction. Confirm authority, limitation and appeal route.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for advisory boards, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Practical example

A multi-location employer prepares a legal classification memo, identifies the appropriate Government, maps the operative provision and Rule, records the decision owner and retains the documents needed to prove compliance during inspection or litigation.

Controls and evidence

- Employer: assign owner, configure system and retain approval/payment proof.
- Employee/worker: retain contract, attendance, wage/benefit proof and communication.
- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Identify the substantive default first, then separately map arrears or benefit, interest/damages, administrative penalty, prosecution, compounding, company/officer liability, forum, appeal and limitation. Do not infer a remedy from the heading alone.

Mapped Rules: Rule 2, Rule 29 | Official source: section 42.

Rules, forms, registers, portals and due dates

Rule	Subject	Text/control status
2	Rule 2: Definitions	Exact Gazette extract embedded
29	Rule 29: Constitution of the Board	Exact Gazette extract embedded

Forms and registers must be confirmed from the appended 2026 Central Rules and the live portal applicable to the appropriate Government. A form is not treated as current merely because an earlier law used the same number.

Notifications and effective-date history

Control	Required action
Enactment	Record Act number, assent and Gazette publication.
Commencement	Use the provision-specific commencement notification; the four Codes became broadly operative from 21 November 2025 subject to earlier partial commencement and corrigenda.
Central Rules	Read the applicable 2026 Central Rules from their Gazette date and verify subsequent amendments.
State instrument	Check final State Rules, authority notifications, forms and rates where the State is appropriate Government.

Old-law/new-Code concordance

Predecessor law	Transition control
Payment of Wages Act, 1936	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.

Predecessor law	Transition control
Minimum Wages Act, 1948	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Payment of Bonus Act, 1965	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Equal Remuneration Act, 1976	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
People’s Union for Democratic Rights v. Union of India	Non-payment of the applicable minimum wage may engage constitutional and statutory consequences; use the principle only after aligning it with the universal Code coverage and current notification.
Airfreight Ltd. v. State of Karnataka	Minimum-wage components and neutralisation must be read from the governing notification and statutory scheme, not from payroll labels alone.
Manganese Ore (India) Ltd. v. Chandi Lal Saha	The legal character of an allowance or benefit depends on the governing provision and facts; nomenclature is not decisive.
Workmen v. Reptakos Brett & Co.	Needs-based wage principles remain relevant to wage fixation, but the current statutory floor and notified rates control compliance.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Code on Wages, 2019, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 42 - Central Advisory Board and State Advisory Boards?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is review control 12 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

What is review control 13 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

What is review control 14 for this chapter?

What is review control 15 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter VI - Claims, audit, records and appeals

This chapter turns claims, audit, records and appeals into an operational control file. It covers Responsibility for payment of various dues, Payment of various undisbursed dues in case of death of employee, Claims under Code and procedure thereof, Reference of disputes under this Code; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, employees, workers, contractors and payroll teams must first identify the appropriate Government, employment category and event date.

Main obligations / rights

- Section 43: Responsibility for payment of various dues
- Section 44: Payment of various undisbursed dues in case of death of employee
- Section 45: Claims under Code and procedure thereof
- Section 46: Reference of disputes under this Code
- Section 47: Presumption about accuracy of balance sheet and profit and loss account of corporations and companies

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Forms / evidence

- Register
- Wage Slip
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employer risk snapshot

Highest practical risks: wrong wage base, late payment, unauthorised deduction or incomplete payroll evidence.

Employee / worker remedy

timely and lawful wage payment, a transparent wage slip and a claims route for short-payment or unlawful deduction. Confirm authority, limitation and appeal route.

Old law / transition

Map the event date and savings position against: Payment of Wages Act, 1936; Minimum Wages Act, 1948; Payment of Bonus Act, 1965; Equal Remuneration Act, 1976.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for claims, audit, records and appeals, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Central Rule 45: Rule 45: Payment of undisbursed dues to nominees in case of death of employee

Extracted from the English part of the Gazette PDF bundled with the production repository. Formatting is normalised; the signed Gazette PDF prevails.

45. Payment of undisbursed dues to nominees in case of death of employee :— (1) (a) In pursuance of clause (a) of sub-section (1) of section 44, every employee shall make a declaration in Form-VII in physical form or electronically, nominating a person conferring the right to receive the amount that may stand in the credit of the employee on the event of death, before that amount standing to the credit of such employee has become payable or where the amount has become payable, before payment has been made.

(b) If the employee has a family at the time of making nomination, the nomination shall be in favour of the spouse or the spouse in preference followed by one or more members of the family:

Provided that nomination made by an employee having a family in favour of a person other than member of the family shall be invalid:

Provided further that a fresh nomination towards the spouse of the employee shall be made by the employee on marriage and any nomination made before such marriage shall be deemed to be invalid.

(c) Where the nomination is wholly or partly in favour of a minor, the employee may appoint a major person of the family, to be the guardian of the minor nominee or where there is no major person in the family, the employee may by discretion, appoint any other person to be the guardian of the minor nominee.

(d) If the employee nominates more than one member, the nomination shall specify the amount or share payable to each of the nominees at employee's own discretion so as to cover the whole of the amount that may stand to the credit of the employee.

(2) Where any amount payable to an employee under the Code is due after the death or on account of whereabouts not being known of the employee and the amount could not be paid to the nominee of the employee until the expiry of three months from the date the amount had become payable, then, such amount shall be deposited by the employer with the Deputy Chief Labour Commissioner (Central) having

jurisdiction, who shall disburse the amount to the person nominated by the employee after ascertaining the identity of the employee within two months of the date on which the amount was so deposited.

Reliance note:

Read the current Gazette/India Code text, the applicable Central or State rules and later notifications before acting. This repository is educational and does not replace matter-specific legal advice.

Practical example

A multi-location employer prepares a legal classification memo, identifies the appropriate Government, maps the operative provision and Rule, records the decision owner and retains the documents needed to prove compliance during inspection or litigation.

Controls and evidence

- Employer: assign owner, configure system and retain approval/payment proof.
- Employee/worker: retain contract, attendance, wage/benefit proof and communication.
- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Identify the substantive default first, then separately map arrears or benefit, interest/damages, administrative penalty, prosecution, compounding, company/officer liability, forum, appeal and limitation. Do not infer a remedy from the heading alone.

50. Procedure for filing appeal:— (1) Any person aggrieved by an order passed by the authority under sub-section (2) of section 45 may prefer an appeal under sub-section (1) of section 49 in Form-III electronically or by speed post, along with documents mentioned by the appellant in the said Form, to the appellate authority having jurisdiction:

Provided that no appeal by an employer shall be admitted unless at the time of preferring the appeal, the appellant has deposited the claim amount with the appellate authority.

(2) Where an appeal under sub-section (1) of section 49 is entertained, the appellate Authority shall serve upon the respondent electronically or by speed post, a notice in Form VIII to appear before them on the date specified in the notice and shall inform the appellant of the date so specified.

(3) In case where the employer or their representative fails to appear on the specified date, the authority may hear and determine the application ex-parte.

(4) In case where the applicant or their representative fails to appear on the specified date, the authority may dismiss the appeal.

52	Rule 52: Wage slip	Exact Gazette extract embedded

Forms and registers must be confirmed from the appended 2026 Central Rules and the live portal applicable to the appropriate Government. A form is not treated as current merely because an earlier law used the same number.

Notifications and effective-date history

Control	Required action
Enactment	Record Act number, assent and Gazette publication.
Commencement	

	Use the provision-specific commencement notification; the four Codes became broadly operative from 21 November 2025 subject to earlier partial commencement and corrigenda.
Central Rules	Read the applicable 2026 Central Rules from their Gazette date and verify subsequent amendments.
State instrument	Check final State Rules, authority notifications, forms and rates where the State is appropriate Government.

Old-law/new-Code concordance

Predecessor law	Transition control
Payment of Wages Act, 1936	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Minimum Wages Act, 1948	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Payment of Bonus Act, 1965	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Equal Remuneration Act, 1976	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
People's Union for Democratic Rights v. Union of India	Non-payment of the applicable minimum wage may engage constitutional and statutory consequences; use the principle only after aligning it with the universal Code coverage and current notification.
Airfreight Ltd. v. State of Karnataka	Minimum-wage components and neutralisation must be read from the governing notification and statutory scheme, not from payroll labels alone.
Manganese Ore (India) Ltd. v. Chandi Lal Saha	The legal character of an allowance or benefit depends on the governing provision and facts; nomenclature is not decisive.
Workmen v. Reptakos Brett & Co.	Needs-based wage principles remain relevant to wage fixation, but the current statutory floor and notified rates control compliance.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Code on Wages, 2019, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 43 - Responsibility for payment of various dues?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 44 - Payment of various undisbursed dues in case of death of employee?

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter VII - Inspector-cum-Facilitator

This chapter turns inspector-cum-facilitator into an operational control file. It covers Appointment of Inspector-cum-Facilitators and their powers; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, employees, workers, contractors and payroll teams must first identify the appropriate Government, employment category and event date.

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Employer risk snapshot

Highest practical risks: wrong wage base, late payment, unauthorised deduction or incomplete payroll evidence.

Old law / transition

Map the event date and savings position against: Payment of Wages Act, 1936; Minimum Wages Act, 1948; Payment of Bonus Act, 1965; Equal Remuneration Act, 1976.

Main obligations / rights

- Section 51: Appointment of Inspector-cum-Facilitators and their powers

Forms / evidence

- Applicable form/register, calculation file, approval and acknowledgement evidence
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employee / worker remedy

timely and lawful wage payment, a transparent wage slip and a claims route for short-payment or unlawful deduction. Confirm authority, limitation and appeal route.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for inspector-cum-facilitator, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Reliance note:

Read the current Gazette/India Code text, the applicable Central or State rules and later notifications before acting. This repository is educational and does not replace matter-specific legal advice.

Practical example

A multi-location employer prepares a legal classification memo, identifies the appropriate Government, maps the operative provision and Rule, records the decision owner and retains the documents needed to prove compliance during inspection or litigation.

Controls and evidence

- Employer: assign owner, configure system and retain approval/payment proof.
- Employee/worker: retain contract, attendance, wage/benefit proof and communication.
- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Identify the substantive default first, then separately map arrears or benefit, interest/damages, administrative penalty, prosecution, compounding, company/officer liability, forum, appeal and limitation. Do not infer a remedy from the heading alone.

Mapped Rules: Rule 2 | Official source: section 51.

Rules, forms, registers, portals and due dates

Rule	Subject	Text/control status
2	Rule 2: Definitions	Exact Gazette extract embedded

Forms and registers must be confirmed from the appended 2026 Central Rules and the live portal applicable to the appropriate Government. A form is not treated as current merely because an earlier law used the same number.

Notifications and effective-date history

Control	Required action
Enactment	Record Act number, assent and Gazette publication.
Commencement	Use the provision-specific commencement notification; the four Codes became broadly operative from 21 November 2025 subject to earlier partial commencement and corrigenda.
Central Rules	Read the applicable 2026 Central Rules from their Gazette date and verify subsequent amendments.
State instrument	Check final State Rules, authority notifications, forms and rates where the State is appropriate Government.

Old-law/new-Code concordance

Predecessor law	Transition control
Payment of Wages Act, 1936	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Minimum Wages Act, 1948	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.

Predecessor law	Transition control
Payment of Bonus Act, 1965	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Equal Remuneration Act, 1976	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
People’s Union for Democratic Rights v. Union of India	Non-payment of the applicable minimum wage may engage constitutional and statutory consequences; use the principle only after aligning it with the universal Code coverage and current notification.
Airfreight Ltd. v. State of Karnataka	Minimum-wage components and neutralisation must be read from the governing notification and statutory scheme, not from payroll labels alone.
Manganese Ore (India) Ltd. v. Chandi Lal Saha	The legal character of an allowance or benefit depends on the governing provision and facts; nomenclature is not decisive.
Workmen v. Reptakos Brett & Co.	Needs-based wage principles remain relevant to wage fixation, but the current statutory floor and notified rates control compliance.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Code on Wages, 2019, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 51 - Appointment of Inspector-cum-Facilitators and their powers?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is review control 12 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

What is review control 13 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

What is review control 14 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

What is review control 15 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter VIII - Offences and penalties

This chapter turns offences and penalties into an operational control file. It covers Cognizance of offences, Power of officers of appropriate Government to impose penalty in certain cases, Penalties for offences, Offences by companies; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, employees, workers, contractors and payroll teams must first identify the appropriate Government, employment category and event date.

Main obligations / rights

- Section 52: Cognizance of offences
- Section 53: Power of officers of appropriate Government to impose penalty in certain cases
- Section 54: Penalties for offences
- Section 55: Offences by companies
- Section 56: Composition of offences

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Forms / evidence

- Applicable form/register, calculation file, approval and acknowledgement evidence
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employer risk snapshot

Highest practical risks: wrong wage base, late payment, unauthorised deduction or incomplete payroll evidence.

Employee / worker remedy

timely and lawful wage payment, a transparent wage slip and a claims route for short-payment or unlawful deduction. Confirm authority, limitation and appeal route.

Old law / transition

Map the event date and savings position against: Payment of Wages Act, 1936; Minimum Wages Act, 1948; Payment of Bonus Act, 1965; Equal Remuneration Act, 1976.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for offences and penalties, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

53. Manner of holding enquiry:— (1) Where a complaint is filed before the officer appointed under sub-section (1) of section 53 (hereinafter in this rule referred to as “the officer”) in respect of the offences referred to in said sub-section, either by an officer authorised for such purpose by the Central Government or by an employee aggrieved or a registered trade union registered under the Industrial Relations Code, 2020 (35 of 2020) or an Inspector-cum-Facilitator, the officer after considering such evidence as produced by the complainant, is of the opinion that an offence has been committed, shall issue summons to the offender on the address specified in the complaint fixing a date for his appearance.

(2) If the offender to whom the summons has been issued under sub-rule (1) appears or is produced before the officer, the officer shall explain the offence complained against and if the offender pleads guilty, the officer shall impose penalty in accordance with the provisions of the Code and if the offender does not plead guilty, the officer shall take evidence of the witnesses produced by the complainant on oath and provide opportunity of cross examination of the witnesses so produced.

(3) The officer shall record in writing the statement of the witnesses on oath and in cross examination and take the documentary evidence on record.

(4) The officer shall, after the complainant’s evidence is complete, provide an opportunity of defence to the accused person and the witnesses produced by the accused shall be cross examined after their statements on oath by the complainant and documentary evidence in defence shall be taken on record by the officer.

(5) The officer shall after hearing the parties and considering the evidence both oral and documentary, decide the complaint in accordance with the provisions of the Code.

54. Manner of composition of offences:—(1) An accused person desirous of composition of offence under sub-section (1) of section 56 may make an application in Form VI electronically or manually to the Gazetted Officer notified under said sub-section.

(2) The Gazetted Officer referred to in sub-rule (1) shall on receipt of such application, satisfy as to whether the offence is compoundable or not under the Code and, if the offence is compoundable and the accused person agrees for the composition, compound the offence for a sum of fifty per cent of the maximum fine provided for such offence under the Code, to be paid by the accused within thirty days of the order of composition issued by such officer.

(3) The compounding officer shall issue a composition certificate in Part-B of Form-VI within ten days of receipt of the composition amount, to such person from whom such amount has been received in compliance of the composition notice.

(4) In case where a person so noticed fails to deposit the composition amount within the time specified by the compounding officer, prosecution shall be instituted before the competent court against such person for such offence in respect of which the compounding notice was issued.

(5) Where the offence has been compounded under sub-rule (2) after the institution of the prosecution, the officer shall send a copy of such order for intimation to the officer referred to in sub-section (1) of section 53 for action under sub-section (6) of section 56.

Airfreight Ltd. v. State of Karnataka	Minimum-wage components and neutralisation must be read from the governing notification and statutory scheme, not from payroll labels alone.
Manganese Ore (India) Ltd. v. Chandi Lal Saha	The legal character of an allowance or benefit depends on the governing provision and facts; nomenclature is not decisive.
Workmen v. Reptakos Brett & Co.	Needs-based wage principles remain relevant to wage fixation, but the current statutory floor and notified rates control compliance.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Code on Wages, 2019, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 52 - Cognizance of offences?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 53 - Power of officers of appropriate Government to impose penalty in certain cases?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 54 - Penalties for offences?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 55 - Offences by companies?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 56 - Composition of offences?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is review control 16 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

What is review control 17 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

What is review control 18 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter IX - Miscellaneous, rule-making, repeal and savings

This chapter turns miscellaneous, rule-making, repeal and savings into an operational control file. It covers Bar of suits, Protection of action taken in good faith, Burden of proof, Contracting out; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, employees, workers, contractors and payroll teams must first identify the appropriate Government, employment category and event date.

Main obligations / rights

- Section 57: Bar of suits
- Section 58: Protection of action taken in good faith
- Section 59: Burden of proof
- Section 60: Contracting out
- Section 61: Effect of laws agreements, etc., inconsistent with this Code

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Forms / evidence

- Applicable form/register, calculation file, approval and acknowledgement evidence
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employer risk snapshot

Highest practical risks: wrong wage base, late payment, unauthorised deduction or incomplete payroll evidence.

Employee / worker remedy

timely and lawful wage payment, a transparent wage slip and a claims route for short-payment or unlawful deduction. Confirm authority, limitation and appeal route.

Old law / transition

Map the event date and savings position against: Payment of Wages Act, 1936; Minimum Wages Act, 1948; Payment of Bonus Act, 1965; Equal Remuneration Act, 1976.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for miscellaneous, rule-making, repeal and savings, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Code on Wages, 2019 — Miscellaneous, rule-making, repeal and savings

Law → trigger → procedure → evidence. Confirm the operative Central/State instrument on the event date.

Finin2min decision flow — identify the law, complete the statutory process and preserve evidence.

Publication-source status: The chapter contains the complete analytical and Rule-mapping layer. For the four parent Codes, the exact current Act text is displayed through the official India Code PDF/section viewer. It is not re-labelled as locally embedded text where the retained source file is unavailable. This preserves legal honesty while the official text is retained as the controlling source.

Chapter decision flow

Section 57: Bar of suits

Current statutory text

Current statutory text source control. The exact consolidated provision is displayed from the official source below. The analytical text after it is not a substitute for the signed Gazette. For an offline professional file, retain the official PDF and the event-date commencement instrument.

Open section 57 in the official source. Statutory title: Bar of suits.

Finin2min clause-by-clause decode

1. Identify the person or establishment to whom section 57 applies.
2. Convert every condition in “Bar of suits” into a dated checklist.
3. Map the applicable authority, State/Central jurisdiction and documentary evidence.
4. Test exceptions, provisos, deeming language and consequences separately.

Applicable Central Rules immediately below the provision

No direct Central Rule is mapped. Check general procedural Rules, State Rules and later notifications.

Practical example

A multi-location employer prepares a legal classification memo, identifies the appropriate Government, maps the operative provision and Rule, records the decision owner and retains the documents needed to prove compliance during inspection or litigation.

Controls and evidence

- Employer: assign owner, configure system and retain approval/payment proof.
- Employee/worker: retain contract, attendance, wage/benefit proof and communication.
- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Identify the substantive default first, then separately map arrears or benefit, interest/damages, administrative penalty, prosecution, compounding, company/officer liability, forum, appeal and limitation. Do not infer a remedy from the heading alone.

Mapped Rules: No direct Central Rule mapped in the repository concordance | Official source: section 57.

Rules, forms, registers, portals and due dates

Rule	Subject	Text/control status
No directly mapped Central Rule; check general and State instruments.		

Forms and registers must be confirmed from the appended 2026 Central Rules and the live portal applicable to the appropriate Government. A form is not treated as current merely because an earlier law used the same number.

Notifications and effective-date history

Control	Required action
Enactment	Record Act number, assent and Gazette publication.
Commencement	Use the provision-specific commencement notification; the four Codes became broadly operative from 21 November 2025 subject to earlier partial commencement and corrigenda.
Central Rules	Read the applicable 2026 Central Rules from their Gazette date and verify subsequent amendments.
State instrument	Check final State Rules, authority notifications, forms and rates where the State is appropriate Government.

Old-law/new-Code concordance

Predecessor law	Transition control
Payment of Wages Act, 1936	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Minimum Wages Act, 1948	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Payment of Bonus Act, 1965	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Equal Remuneration Act, 1976	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
People's Union for Democratic Rights v. Union of India	Non-payment of the applicable minimum wage may engage constitutional and statutory consequences; use the principle only after aligning it with the universal Code coverage and current notification.
Airfreight Ltd. v. State of Karnataka	Minimum-wage components and neutralisation must be read from the governing notification and statutory scheme, not from payroll labels alone.
Manganese Ore (India) Ltd. v. Chandi Lal Saha	The legal character of an allowance or benefit depends on the governing provision and facts; nomenclature is not decisive.
Workmen v. Reptakos Brett & Co.	Needs-based wage principles remain relevant to wage fixation, but the current statutory floor and notified rates control compliance.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Code on Wages, 2019, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 57 - Bar of suits?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Industrial Relations Code, 2020 — Chapter I - Preliminary

This chapter turns preliminary into an operational control file. It covers Short title, extent and commencement, Definitions; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered Employers, workers, trade unions, negotiating bodies, standing-order establishments and dispute-resolution authorities should classify the industrial establishment and worker population first.	Main obligations / rights • Section 1: Short title, extent and commencement • Section 2: Definitions
Key thresholds / timelines • Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.	Forms / evidence • Applicable form/register, calculation file, approval and acknowledgement evidence • Classification, calculation, approval, acknowledgement and payment/filing proof
Employer risk snapshot Highest practical risks: misclassification, missed filing/notice, unsupported calculation, incomplete records and use of the wrong Central/State instrument.	Employee / worker remedy the substantive protection in this chapter, access to the prescribed authority/forum and a documented remedy within limitation. Confirm authority, limitation and appeal route.
Old law / transition Map the event date and savings position against: Trade Unions Act, 1926; Industrial Employment (Standing Orders) Act, 1946; Industrial Disputes Act, 1947.	Five-point professional checklist • Freeze the event date, establishment, location and person/worker classification. • Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government. • Reperform the calculation or decision test and document every exception or approval. • Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence. • Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for preliminary, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Applicable Central Rules immediately below the provision

No direct Central Rule is mapped. Check general procedural Rules, State Rules and later notifications.

Practical example

A multi-location employer prepares a legal classification memo, identifies the appropriate Government, maps the operative provision and Rule, records the decision owner and retains the documents needed to prove compliance during inspection or litigation.

Controls and evidence

- Employer: assign owner, configure system and retain approval/payment proof.
- Employee/worker: retain contract, attendance, wage/benefit proof and communication.
- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Identify the substantive default first, then separately map arrears or benefit, interest/damages, administrative penalty, prosecution, compounding, company/officer liability, forum, appeal and limitation. Do not infer a remedy from the heading alone.

3. References of certain authorities and officers of industrial establishments under the Code.— (1) The reference

to the Central Government or the Government of India, in relation to an industrial dispute in respect of a Union territory

without legislature, shall be construed as a reference to the Administrator of such Union territory, for which the

appropriate Government is the Central Government; and the reference to the Chief Labour Commissioner (Central),

Deputy Chief Labour Commissioner (Central), Regional Labour Commissioner (Central) and the Assistant Labour

Commissioner (Central) shall be construed as reference to the respective appropriate authority, appointed in that behalf

by the Administrator of that Union territory.

(2) For the purposes of these rules, with reference to clause (m) of section 2 of the Code, it is hereby specified that—

(a) in relation to an industry, not being an industry referred to in sub clause (ii) thereof, carried on by or under

the authority of a Ministry or Department of the Central Government or a State Government, the officer-in-

charge of the industrial establishment shall be the employer in respect of that establishment; and

(b) in relation to an industry concerning railways, carried on by or under the authority of a Ministry or

Department of the Central Government,—

(i) the General Manager thereof shall be the employer in respect of regular railway servants other than

casual labour in the case of an establishment of a Zonal Railway;

(ii) the Officer-in-charge of the establishment shall be the employer in respect of regular railway

servants other than casual labour in the case of an establishment independent of a Zonal Railway; and

(iii) the District Officer-in-charge or the Divisional Personnel Officer or the Personnel Officer, as the

case may be, shall be the employer in respect of casual labour employed on Zonal Railway or any other

railway establishment independent of a Zonal Railway.

Central Rule 4: Rule 4 — Memorandum of settlement

extracted from the official English notification

4. Memorandum of settlement.— (1) The settlement arrived at in the course of conciliation proceedings or a written agreement between the employer and worker arrived at otherwise than in the course of conciliation proceeding shall be in Form I.

(2) The settlement shall be signed, —

(a) by the employer or by his authorised agent, or where the employer is an incorporated company or other body

corporate, by the agent, manager or other principal officer of such company or such other body corporate; and

(b) on behalf of workers, by any of the following office bearers of Trade Union, namely: —

(i) the President; or

(ii) the Vice-President; or

(iii) the Secretary (including the General Secretary); or

(iv) the Joint Secretary; or

(v) any other office bearer of the Trade Union authorised in this behalf by the President and Secretary of the Union; or

(vi) five representatives of workers duly authorised in this behalf at the meeting of the workers held for the purpose.

(3) In case of an industrial dispute between individual worker and employer, the settlement shall be signed by the employer and the worker concerned.

(4) Where the settlement is arrived at in the course of conciliation proceedings, the conciliation officer shall send a report thereof to the Central Government together with a copy of the memorandum of settlement signed by the parties to the dispute.

(5) Where a settlement is arrived at between an employer and his worker otherwise than in the course of conciliation proceedings, the parties to the settlement shall jointly send a copy thereof electronically or by speed post

to the concerned
Deputy Chief Labour Commissioner (Central) and to the conciliation officer.

(6) The conciliation officer shall file all settlements effected under this rule in respect of industrial disputes in the area within his jurisdiction in the register maintained electronically or otherwise.

(7) The register referred to in sub-rule (6), shall contain the details including serial number, name of the industry, parties to the settlement, date of settlement, remarks and whether settlement was arrived at after the intervention of conciliation officer or by mutual negotiation:

Provided that signature of the conciliation officer on the agreement shall not be necessary where the agreement for settlement is arrived at outside conciliation:

Provided further that nothing in this rule shall prohibit a settlement between a worker or workers or Trade Union and an employer on mutually agreed terms and such settlement may be in a format other than in Form I.

- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Bangalore Water Supply v. A. Rajappa	The industry test remains an important interpretive starting point, subject to the Code definition and later statutory developments.
Workmen of Firestone Tyre v. Management	Domestic enquiry fairness and the adjudicatory power to examine dismissal remain central principles, subject to the Code and certified standing orders.
Bharat Bank Ltd. v. Employees	Industrial adjudication is specialised statutory adjudication; forum, reference and award provisions must be followed.
Karnal Leather Karamchari Sanghatan v. Liberty Footwear	Settlement and collective-bargaining outcomes require genuine authority, representativeness and statutory compliance.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Industrial Relations Code, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 1 - Short title, extent and commencement?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 2 - Definitions?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is review control 13 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

What is review control 14 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

What is review control 15 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

Applicable Central Rules immediately below the provision

Central Rule 5: Rule 5 — Works Committee and its constitution

extracted from the official English notification

5. Works Committee and its constitution.— (1) Every employer to whom an order made by the Central Government

under sub-section (1) of section 3 of the Code relates, shall forthwith proceed to constitute a Works Committee

(hereinafter in this chapter referred to as the “Committee”) to promote measures for securing and preserving amity and

good relations between the employer and workers and, to that end, to comment upon matters of common interest or

concern, as specified in these rules.

(2) (i) The number of members constituting the Committee shall be fixed so as to afford representation to the various

categories, groups and class of workers engaged in, and to the sections, shops or departments of the industrial establishment.

(ii) The total number of members of the Committee shall not exceed twenty.

(iii) The number of representatives of the workers in the Committee shall not be less than the number of representatives of the employer therein:

Provided that the industrial establishment in which women workers are employed shall have adequate representation of women workers in the Committee and such representation shall not be less than the proportion of women workers to the total workers employed in the industrial establishment.

(3) The representatives of the employer in the Committee shall be nominated by the employer and shall, as far as may be possible, be officials in direct touch with, or associated with the working of the industrial establishment.

(4) Where the workers of the industrial establishment are members of a registered Trade Union or Trade Unions, the employer shall request such registered Trade Union or Trade Unions to inform him in writing as to—

(a) number of the workers who are members of such registered Trade Union or Trade Unions; and

(b) if the employer has reason to believe that the information furnished to him by the registered Trade Union or Trade Unions is false, he may, after informing such registered Trade Union or Trade Unions, refer the matter to the Regional Labour Commissioner (Central), who shall, after hearing the parties, decide the matter and his

decision shall
be final.

(5) On receipt of the information under sub-rule (4), the employer shall provide for the choosing of the worker's representative of the Committee in the following manner, namely:—

(a) in the case of a negotiating union under sub-section (2) or sub-section (3) of section 14 of the Code, such

negotiating union shall nominate the worker's representatives of the Committee;

(b) in the case of the negotiating council under sub-section (4) of section 14 of the Code, every registered Trade

Union representing in the negotiating council shall be nominated in the Committee in proportion to the number of

workers of the industrial establishment who are members of such Trade Union;

(c) where there is no recognised negotiating union or negotiating council referred to in clauses (a) and (b), the

workers of the industrial establishment shall elect amongst themselves the worker's representatives of the

Committee:

Provided that the employer may, deploy an electronic platform for conducting the election process over an

information technology application, online platform or such other platform to enable the election of the representatives

of workers to the Committee under this clause:

Provided further that where a registered Trade Union fails to furnish the information under sub-rule (4) within

one month of the date on which it is so called for, then, such Trade Union shall for the purpose of this rule be treated as

if it did not exist:

Provided also that where any reference has been made by the employer under sub-rule (4), the process of

choosing the worker's representative relating thereto shall be held on receipt of the decision of the concerned Regional

Labour Commissioner (Central).

(6) The employer may, if he thinks fit, direct that the workers shall vote either by groups, sections, shops or departments.

(7) Any worker, of not less than nineteen years of age and with a service of not less than one year in the industrial

establishment may, if nominated as provided in this rule, be a candidate for election as a worker's representative of the

Committee:

Provided that such service qualification shall not apply to the first election in an industrial

establishment which
has been in existence for less than a year.

Explanation. —For the purposes of this sub-rule, a worker who has put in continuous service for not less than one
year in two or more industrial establishments belonging to the same employer shall be deemed to have satisfied the
service qualification specified therein.

(8) All workers who are not less than eighteen years of age and who have put in not less than six months' continuous
service in the industrial establishment shall be entitled to vote in the election of worker's representative of the
Committee.

Explanation.— For the purposes of this sub-rule, a worker who has put in continuous service of not less than six
months in two or more industrial establishments belonging to the same employer shall be deemed to have satisfied the
service qualification specified therein.

(9) (i) The employer shall give a minimum time period of three working days for filing of nomination along with other
requisite details while fixing a date as the closing date for receiving nominations from candidates for election as worker's
representatives of the Committee.

(ii) The date fixed by the employer for holding the election referred to in clause (i) shall not be earlier than three days
and not later than fifteen days after the closing date for receiving nominations.

(iii) The date of election fixed under clause (i) shall be notified seven days in advance and such notice shall specify the
number of seats to be elected and shall be affixed on the notice board or electronic notice board of the industrial
establishment and given adequate publicity amongst the workers.

(10) (i) Every nomination for election as worker's representative of the Committee shall be made on a nomination paper
to be provided by employer and the copies thereof shall be supplied by the employer to the workers requiring them.

(ii) Each nomination paper referred to in clause (i) shall be signed by the candidate to whom it relates and attested by at
least two other voters belonging to the group, section, shop or department, which the candidate seeking election shall
represent, and shall be delivered to the employer.

(11) (i) On the day following the last day fixed for filing nomination papers, the nomination papers shall be scrutinised
by the employer in the presence of the candidates and the attesting persons and those nominations which

are not valid
shall be rejected.

(ii) A nomination paper shall be held to be not valid under clause (i), if—

(a) the candidate nominated is ineligible for being a candidate under sub-rule (7); or

(b) the requirements of sub-rule (10) have not been complied with:

Provided that where a candidate or an attesting person is not able to be present at the time of scrutiny, the candidate may send a duly authorised nominee for this purpose.

(12) Any candidate whose nomination for election has been accepted may withdraw his candidature within forty-eight hours of the completion of scrutiny of the nomination papers.

(13) (i) In case the number of candidates who have been validly nominated for election as worker's representative of the Committee is equal to the number of seats, the candidates as such shall be forthwith declared as duly elected.

(ii) Where, in any industrial establishment, the number of candidates validly nominated for election as worker's representative of the Committee is more than the number of seats allotted to it, voting shall take place on the day fixed for election.

(14) (i) The Committee shall have among its office-bearers, a Chair person, Vice-Chairperson, Secretary and Joint-Secretary.

(ii) The Chairperson of the Committee shall be nominated by the employer from amongst the employer's representatives of the Committee and he shall, as far as possible, be the head of the industrial establishment.

(iii) The Vice-Chairperson shall be elected by the members of the Committee representing the workers, from amongst themselves:

Provided that in the event of equality of votes in the election of the Vice-Chairperson, the matter shall be decided by a draw of lot.

(iv) The Secretary and Joint-Secretary of the Committee shall be elected every year.

(v) The Committee shall elect the Secretary and Joint Secretary and where the Secretary is elected from amongst the representatives of the employers, the Joint Secretary shall be elected from amongst the representatives of the workers and vice versa:

Provided that the post of the Secretary or Joint Secretary, as the case may be, shall not be held by a representative of either the employer or the workers for three consecutive years:

Provided further that the employer's representatives shall not take part in the election of the Secretary or Joint Secretary, as the case may be, and the representatives of the workers shall be entitled to vote in elections for the post of Secretary or Joint Secretary:

Provided also that in the event of equality of votes in an election under this sub-rule, the matter shall be decided by a draw of lot.

(15) (i) The term of office of the members of the Committee other than a member chosen to fill a casual vacancy, shall be three years.

(ii) Every member chosen to fill a casual vacancy shall hold office for the remaining period of the term of his predecessor.

(iii) In case any member fails to attend three consecutive meetings of the Committee without obtaining leave from the Committee, his membership shall be forfeited.

(16) In the event of worker's representative ceasing to be a member under clause (iii) of sub-rule (15) or ceasing to be employed in the industrial establishment or in the event of his resignation, death or otherwise, his successor shall be chosen in accordance with the provisions of this rule for the remaining period of the Committee from the same group to which the member vacating the seat belonged.

(17) The Committee shall have the right to co-opt persons employed in the industrial establishment having particular or special knowledge of a matter under discussion in a consultative capacity and such co-opted member shall not be entitled to vote and shall be present at meetings only for the period during which the particular question is before the Committee.

(18) (i) The Committee may meet as often as necessary but not less often than once in three months.

(ii) The Committee shall at its first meeting regulate its own procedure.

(19) (i) The employer shall provide a place for holding meetings of the Committee and provide all necessary facilities for carrying out the work of the Committee.

(ii) The Committee shall ordinarily meet during working hours of the industrial establishment concerned

on any working day and the representatives of the workers shall be deemed to be on duty while attending the meeting.

(iii) The Secretary of the Committee may with the prior approval of the Chairperson, put up notice regarding the functions of the Committee on the notice board of the industrial establishment.

(20) The employer shall submit the details of the constitution and the functioning of the Committee as a part of unified annual return provided in the rules made in this behalf under the Occupational Safety, Health and Working Condition Code, 2020 (37 of 2020).

(21) The Central Government, or the officer authorised in its behalf, may after making such inquiry as it or he may deem fit, dissolve any Committee at any time, by an order for reasons to be recorded in writing, on being satisfied that the Committee has not been constituted in accordance with the provisions of these rules or that not less than two-thirds of the number of representatives of the workers have without any reasonable justification failed to attend three consecutive meetings of the Committee or that the Committee has, for any other reason, ceased to function:

Provided that where the Committee is dissolved under this sub-rule, the employer may, and if so required by the Central Government or, as the case may be, by such officer, shall take steps to re-constitute the Committee in accordance with these rules.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Bangalore Water Supply v. A. Rajappa	The industry test remains an important interpretive starting point, subject to the Code definition and later statutory developments.
Workmen of Firestone Tyre v. Management	Domestic enquiry fairness and the adjudicatory power to examine dismissal remain central principles, subject to the Code and certified standing orders.
Bharat Bank Ltd. v. Employees	Industrial adjudication is specialised statutory adjudication; forum, reference and award provisions must be followed.
Karnal Leather Karamchari Sanghatan v. Liberty Footwear	Settlement and collective-bargaining outcomes require genuine authority, representativeness and statutory compliance.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Industrial Relations Code, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 3 - Works Committee?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 4 - Grievance Redressal Committee?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is review control 13 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

What is review control 14 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

What is review control 15 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter III - Trade unions

This chapter turns trade unions into an operational control file. It covers Registrar of Trade Unions, Criteria for registration, Provisions to be contained in constitution or rules of Trade Union, Application for registration, alteration of name and procedure thereof; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, workers, trade unions, negotiating bodies, standing-order establishments and dispute-resolution authorities should classify the industrial establishment and worker population first.

Main obligations / rights

- Section 5: Registrar of Trade Unions
- Section 6: Criteria for registration
- Section 7: Provisions to be contained in constitution or rules of Trade Union
- Section 8: Application for registration, alteration of name and procedure thereof
- Section 9: Registration of Trade Union and cancellation thereof

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Forms / evidence

- Applicable form/register, calculation file, approval and acknowledgement evidence
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employer risk snapshot

Highest practical risks: registration, recognition, negotiating-union or protected-office-bearer errors.

Employee / worker remedy

lawful registration, representation, collective-bargaining protections and access to the prescribed forums. Confirm authority, limitation and appeal route.

Old law / transition

Map the event date and savings position against: Trade Unions Act, 1926; Industrial Employment (Standing Orders) Act, 1946; Industrial Disputes Act, 1947.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for trade unions, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Applicable Central Rules immediately below the provision

Central Rule 9: Rule 9 — Manner of recognition of negotiating union or negotiating council

extracted from the official English notification

9. Manner of recognition of negotiating union or negotiating council.-

(1) Matters for negotiation.- The matters pertaining to workers which the negotiating union or the negotiating council,

as the case may be, shall negotiate with the employer of the industrial establishment under sub-section (1) of section 14

of the Code are specified, below: -

- (i) the classification of grades and categories of workers;
- (ii) order passed by an employer under the standing orders applicable in the industrial establishment;
- (iii) the wages of the workers including their wage period, dearness allowance, bonus, increment, customary concession or privileges, compensatory and other allowances;
- (iv) hours of work of the workers, rest days, number of working days in a week, rest intervals, working of shifts;
- (v) leave with wages and holidays;
- (vi) promotion and transfer policy and disciplinary procedures;
- (vii) quarter allotment policy for workers;
- (viii) safety, health and working conditions and related standards;
- (ix) the matters pertaining to conditions of service and terms of employment of the workers which are not covered in the foregoing clauses; and
- (x) any other matter which is agreed between employer of the industrial establishment and negotiating union or negotiating council, as the case may be.

(2) Criteria for recognising single registered Trade Union.- under sub-section (2) of section 14 of the Code.- Where

there is only one registered Trade Union operating in an industrial establishment having its membership not less than

thirty per cent. of the total workers employed in the industrial establishment, the employer of such industrial

establishment shall recognise such Trade Union as the sole negotiating union of the workers.

(3) Manner of verification of membership of Trade Unions under sub-sections (3) and (4) of section 14 of the

Code.- (a) (i) The Central Government shall appoint a verification officer (hereinafter in this chapter, referred to as the

verification officer) for the purpose of verification of membership of the Trade Unions in the industrial establishment

who shall not have any interest with any of the Trade Unions in the industrial establishment, whose membership

verification is to be carried out by him:

Provided that the process for recognition of the negotiating union or the negotiating council, as the case may be, shall commence three months before the expiry of the term of the existing recognition period of the negotiating union or the negotiating council, as the case may be, recognised by the employer under the Code.

(ii) The verification officer may utilise the services of other officers to assist him depending upon the quantum of work of membership verification.

(iii) The verification officer shall carry out the work of membership verification in the industrial establishment within the time as determined by the Central Government.

(b) The employer of the industrial establishment shall bear all the expenses and make arrangements in connection with the verification of membership of Trade Unions under clause (a).

(c) The Trade Unions may submit an application to the employer of the industrial establishment to accord status of negotiating union or the representatives of negotiating council of the workers, as the case may be, on fulfillment of the following conditions namely,-

(i) such Trade Union has a valid registration under the Trade Unions Act, 1926 (16 of 1926) and continuing as such or has the registration under the Industrial Relations Code, 2020 (35 of 2020), as the case may be; and

(ii) the application for recognition by the Trade Union is accompanied with a copy of the registration certificate, a copy of list of members, details of the membership subscription and a copy of latest annual return of the Trade Union submitted to the Registrar of Trade Unions.

(d) (i) In case the negotiating union or negotiating council, is constituted under the Code, the employer of the industrial establishment shall initiate action before expiry of the tenure of negotiating union or negotiating council, sufficiently in advance but not later than three months before the expiry of the tenure of negotiating union or negotiating council, as the case may be.

(ii) The date of reckoning of verification of membership of the Trade Unions shall be fixed by the verification officer for the industrial establishment.

(iii) The employer of the establishment shall forward the documents and records submitted by Trade Unions, to the verification officer.

(iv) On receipt of the documents and records, the verification officer shall scrutinise the records and documents submitted by the Trade Union to ascertain the status of registration of Trade Unions and related matters.

(v) The verification officer shall hold meeting with representatives of employer of industrial establishment and all participating Trade Unions to decide the process of verification of the membership of Trade Unions through secret ballot.

(vi) The employer may, in consultation with the verification officer deploy an electronic process for conducting the election over an information technology application, online platform or like other platform.

(4) Verification of membership through secret ballot.- (a) The verification officer shall convene meeting of representatives of all registered Trade Unions functioning in the industrial establishment sixty days before the date of actual voting to decide -

- (i) the publication of voters list;
- (ii) the date, time, mode of voting, place of voting;
- (iii) the date, time and place of counting; and
- (iv) other modalities relating to secret ballot.

(b) The verification officer shall cause the minutes of the meeting to be prepared and signed by all participating Trade Unions.

(c) All participating Trade Unions shall be allotted symbols in the same meeting.

(d) In case no decision could be taken regarding date, time, mode of voting, place of voting, allotment of symbols, date, time and place of counting and like other matters in the meeting, the decision of the verification officer shall be final and he shall publish the schedule, programme and procedure of such secret ballot election.

(e) All workers whose names are borne on the muster roll of the industrial establishment on the date of reckoning shall be eligible to cast their vote.

(f) The voters list shall be prepared by the employer of the industrial establishment on the basis of names of the workers borne on the muster roll referred to in clause (e) and the voters list shall contain the name, father's name, designation, worker number or identity card number issued by the employer and place of posting of the worker.

(g) The final voter list shall be published by the employer after obtaining the approval of verification officer and be displayed at notice board at the main entrance and also on website, if any, of the industrial establishment within two days of finalisation of the list and a copy of such voters list shall also be sent to the participating Trade

Unions by hand
or by speed post or through electronic mode.

(h) The verification officer shall display the list of the name of the participating Trade Unions with the symbol allotted to them on the notice board at the main entrance and website, if any, of the industrial establishment within two days of finalisation of the list.

(i) The voting and counting of votes shall be held on the date, time and place fixed by the verification officer under the supervision of the verification officer and during the counting, agents of all participating Trade Unions shall be allowed to remain present.

(j) After final counting of votes, the result shall be declared by the verification officer which shall contain the name of all Trade Unions who participated in election, total number of votes polled and the number of votes cast in favour of each of the trade unions which participated in the election.

(5) Verification report.- The verification officer shall submit verification report along with the result sheet to the employer of industrial establishment.

(6) Recognition of Trade Union as negotiating union or constituents of negotiating council.- (a) On the basis of verification report submitted by verification officer, the employer of the industrial establishment shall grant recognition to the Trade Union as a negotiating union or a constituent of negotiating council.

(b) The recognition granted under clause (a), either as negotiating union or the negotiating council shall be valid for three years from the date of recognition or constitution or such further period not exceeding five years, in total, as may be mutually agreed by the employer and the Trade Union, as the case may be.

(7) Facilities provided by industrial establishment.- (a) In an industrial establishment, where there is a negotiating union or negotiating council, as the case may be, the employer of such industrial establishment shall provide the following facilities namely: -

- (i) notice board for the purpose of displaying information relating to activities of the negotiating union or negotiating council;
- (ii) venue and necessary facilities for holding discussions by the negotiating union or negotiating council, as per the schedule and agenda to be settled between employer of the industrial establishment and the negotiating union or negotiating council;
- (iii) venue and necessary facilities for holding discussions amongst the members of the negotiating

union or

constituents of negotiating council;

(iv) entrance of the office bearers of the negotiating union or negotiating council, in the industrial establishment

for the purposes of ascertaining the matters relating to working conditions of the workers;

(v) employer of an industrial establishment, having three hundred or more workers, shall provide suitable office

accommodation with necessary facilities to the negotiating union or negotiating council.

(b) The employer of the industrial establishment shall deduct subscription of the members of the Trade Union on

the basis of the written consent of the worker.

(c) The office bearers of the negotiating union or negotiating council shall be treated on duty while holding

meetings with the employer.

(8) Application for adjudication of dispute before Tribunal.- Where any dispute arises between –

(i) one Trade Union and another; or

(ii) one or more workers who are members of Trade Union and the Trade Union regarding registration,

administration or management or election of office bearers of the Trade Union; or

(iii) one or more workers who are refused admission as members and the Trade Union; or

(iv) where the dispute is in respect of a Trade Union which is a federation of Trade Unions and office

bearer authorised in this behalf by the Trade Union,

the aggrieved worker or the Trade Union, as the case maybe, may make an application in Form-II to the Tribunal having

jurisdiction within a period of one year from the date on which the dispute arises, electronically or by speed post or in person.

Practical example

A multi-location employer prepares a legal classification memo, identifies the appropriate Government, maps the operative provision and Rule, records the decision owner and retains the documents needed to prove compliance during inspection or litigation.

Controls and evidence

- Employer: assign owner, configure system and retain approval/payment proof.
- Employee/worker: retain contract, attendance, wage/benefit proof and communication.
- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Identify the substantive default first, then separately map arrears or benefit, interest/damages, administrative penalty, prosecution, compounding, company/officer liability, forum, appeal and limitation. Do not infer a remedy from the heading alone.

Rules, forms, registers, portals and due dates

Rule	Subject	Text/control status
9	Rule 9 — Manner of recognition of negotiating union or negotiating council	Exact Gazette extract embedded

Forms and registers must be confirmed from the appended 2026 Central Rules and the live portal applicable to the appropriate Government. A form is not treated as current merely because an earlier law used the same number.

Notifications and effective-date history

Control	Required action
Enactment	Record Act number, assent and Gazette publication.
Commencement	Use the provision-specific commencement notification; the four Codes became broadly operative from 21 November 2025 subject to earlier partial commencement and corrigenda.
Central Rules	Read the applicable 2026 Central Rules from their Gazette date and verify subsequent amendments.
State instrument	Check final State Rules, authority notifications, forms and rates where the State is appropriate Government.

Old-law/new-Code concordance

Predecessor law	Transition control
Trade Unions Act, 1926	Classify the event date, accrued right, saved Rule/ notification and pending proceeding before moving to the Code.

Predecessor law	Transition control
Industrial Employment (Standing Orders) Act, 1946	Classify the event date, accrued right, saved Rule/ notification and pending proceeding before moving to the Code.
Industrial Disputes Act, 1947	Classify the event date, accrued right, saved Rule/ notification and pending proceeding before moving to the Code.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Bangalore Water Supply v. A. Rajappa	The industry test remains an important interpretive starting point, subject to the Code definition and later statutory developments.
Workmen of Firestone Tyre v. Management	Domestic enquiry fairness and the adjudicatory power to examine dismissal remain central principles, subject to the Code and certified standing orders.
Bharat Bank Ltd. v. Employees	Industrial adjudication is specialised statutory adjudication; forum, reference and award provisions must be followed.
Karnal Leather Karamchari Sanghatan v. Liberty Footwear	Settlement and collective-bargaining outcomes require genuine authority, representativeness and statutory compliance.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Industrial Relations Code, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 5 - Registrar of Trade Unions?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 6 - Criteria for registration?

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter IV - Standing orders

This chapter turns standing orders into an operational control file. It covers Application of this Chapter, Making of model standing orders by Central Government and temporary application, Preparation of draft standing orders by employer and procedure for certification, Certifying officers and appellate authority to have powers of civil court; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, workers, trade unions, negotiating bodies, standing-order establishments and dispute-resolution authorities should classify the industrial establishment and worker population first.

Main obligations / rights

- Section 28: Application of this Chapter
- Section 29: Making of model standing orders by Central Government and temporary application
- Section 30: Preparation of draft standing orders by employer and procedure for certification
- Section 31: Certifying officers and appellate authority to have powers of civil court
- Section 32: Appeals

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Forms / evidence

- Register
- Notice
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employer risk snapshot

Highest practical risks: failure to certify, communicate or consistently apply standing orders.

Employee / worker remedy

the substantive protection in this chapter, access to the prescribed authority/forum and a documented remedy within limitation. Confirm authority, limitation and appeal route.

Old law / transition

Map the event date and savings position against: Trade Unions Act, 1926; Industrial Employment (Standing Orders) Act, 1946; Industrial Disputes Act, 1947.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for standing orders, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Central Rule 15: Rule 15 — Disposal of appeal

extracted from the official English notification

15. Disposal of appeal.— (1) An employer or Trade Union or the negotiating union or negotiating council, or where there is no negotiating union or negotiating council in an industrial establishment or undertaking, any union or such representative body of the workers of the industrial establishment or undertaking, may prefer an appeal against the order of the certifying officer made under sub-section (5) of section 30 of the Code within sixty days of the receipt of such order, and for that purpose draw up a memorandum of appeal in a tabular form stating therein the provisions of the standing orders which are required to be altered or modified or deleted or added along with the reasons therefor, and file it electronically or in person with the appellate authority.

(2) The appellate authority shall fix a date for the hearing of the appeal and direct notice thereof to be given, —

(a) where the appeal is filed by the employer, to Trade Union or the negotiating union or negotiating council, as the

case may be, or where there is no negotiating union or negotiating council in an industrial establishment or

undertaking, any union or such representative body of the workers of the industrial establishment or undertaking;

(b) where the appeal is filed by a Trade Union or the negotiating union or negotiating council, to the employer and

the negotiating union or the negotiating council or all other Trade Unions of the workers of the industrial

establishment, as the case may be, or where there is no negotiating union or negotiating council in an industrial

establishment or undertaking, any union or such representative body of the workers of the industrial establishment

or undertaking; and

(c) where the appeal is filed by a representative body of the workers, to the employer and other Trade Unions of

the workers of the industrial establishment, or where there is no trade union of the workers in an industrial

establishment or undertaking, any other worker who joins as a party to the appeal.

(3) The appellant shall furnish each of the respondents with a copy of the memorandum of appeal referred to in sub-rule

(1).

(4) The appellate authority may, at any stage of the proceeding call for any evidence, if it considers necessary for the

disposal of the appeal.

(5) On the date fixed under sub-rule (2) for the hearing of the appeal, the appellate authority shall take such evidence as

it considers relevant, if produced, and after hearing the parties, dispose of the appeal.

Forms and registers must be confirmed from the appended 2026 Central Rules and the live portal applicable to the appropriate Government. A form is not treated as current merely because an earlier law used the same number.

Notifications and effective-date history

Control	Required action

Enactment	Record Act number, assent and Gazette publication.
Commencement	Use the provision-specific commencement notification; the four Codes became broadly operative from 21 November 2025 subject to earlier partial commencement and corrigenda.
Central Rules	Read the applicable 2026 Central Rules from their Gazette date and verify subsequent amendments.
State instrument	Check final State Rules, authority notifications, forms and rates where the State is appropriate Government.

Old-law/new-Code concordance

Predecessor law	Transition control
Trade Unions Act, 1926	Classify the event date, accrued right, saved Rule/ notification and pending proceeding before moving to the Code.
Industrial Employment (Standing Orders) Act, 1946	Classify the event date, accrued right, saved Rule/ notification and pending proceeding before moving to the Code.
Industrial Disputes Act, 1947	Classify the event date, accrued right, saved Rule/ notification and pending proceeding before moving to the Code.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Bangalore Water Supply v. A. Rajappa	The industry test remains an important interpretive starting point, subject to the Code definition and later statutory developments.
Workmen of Firestone Tyre v. Management	Domestic enquiry fairness and the adjudicatory power to examine dismissal remain central principles, subject to the Code and certified standing orders.
Bharat Bank Ltd. v. Employees	Industrial adjudication is specialised statutory adjudication; forum, reference and award provisions must be followed.
Karnal Leather Karamchari Sanghatan v. Liberty Footwear	Settlement and collective-bargaining outcomes require genuine authority, representativeness and statutory compliance.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Industrial Relations Code, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter V - Notice of change

This chapter turns notice of change into an operational control file. It covers Notice of change, Power of appropriate Government to exempt; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, workers, trade unions, negotiating bodies, standing-order establishments and dispute-resolution authorities should classify the industrial establishment and worker population first.

Main obligations / rights

- Section 41: Power of appropriate Government to exempt

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Forms / evidence

- Notice
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employer risk snapshot

Highest practical risks: misclassification, missed filing/notice, unsupported calculation, incomplete records and use of the wrong Central/State instrument.

Employee / worker remedy

the substantive protection in this chapter, access to the prescribed authority/forum and a documented remedy within limitation. Confirm authority, limitation and appeal route.

Old law / transition

Map the event date and savings position against: Trade Unions Act, 1926; Industrial Employment (Standing Orders) Act, 1946; Industrial Disputes Act, 1947.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for notice of change, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

System control

Create a workflow that blocks completion until every mandatory field, attachment, service method and timeline is satisfied.

Evidence

Preserve the exact filed form, annexures, electronic receipt, delivery proof, hearing material and final order.

Failure consequence

The underlying Code section may create invalidity, compensation, appeal, recovery, unfair-practice or penalty exposure.

Practical example

A multi-location employer prepares a legal classification memo, identifies the appropriate Government, maps the operative provision and Rule, records the decision owner and retains the documents needed to prove compliance during inspection or litigation.

Controls and evidence

- Employer: assign owner, configure system and retain approval/payment proof.
- Employee/worker: retain contract, attendance, wage/benefit proof and communication.
- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Identify the substantive default first, then separately map arrears or benefit, interest/damages, administrative penalty, prosecution, compounding, company/officer liability, forum, appeal and limitation. Do not infer a remedy from the heading alone.

Decision	Principle and present-use caution
Bangalore Water Supply v. A. Rajappa	The industry test remains an important interpretive starting point, subject to the Code definition and later statutory developments.
Workmen of Firestone Tyre v. Management	Domestic enquiry fairness and the adjudicatory power to examine dismissal remain central principles, subject to the Code and certified standing orders.
Bharat Bank Ltd. v. Employees	Industrial adjudication is specialised statutory adjudication; forum, reference and award provisions must be followed.
Karnal Leather Karamchari Sanghatan v. Liberty Footwear	Settlement and collective-bargaining outcomes require genuine authority, representativeness and statutory compliance.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Industrial Relations Code, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 40 - Notice of change?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 41 - Power of appropriate Government to exempt?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

extracted from the official English notification

20. Form of arbitration agreement and manner of signing by parties — (1) The employer and workers may agree

to refer any industrial dispute to arbitration by entering into an arbitration agreement in Form- V.

(2) The arbitration agreement referred to in sub-rule (1) shall be signed by the parties to the said agreement and it shall be accompanied by the consent, either in writing or electronically, of arbitrator or arbitrators.

(3) The arbitration agreement referred to in sub-rule (1) shall be signed, -

(i) in case of an employer, by the employer himself, or when the employer is an incorporated company

or other body corporate, by the agent, manager or other officer of the company or corporation authorised for such purpose;

(ii) in the case of workers, by the officer of the registered Trade Union authorised in this behalf or by five

representatives of the workers duly authorised in this behalf at a meeting of the concerned workers held for such purpose; and

(iii) in the case of an individual worker, by such worker himself or by an officer of the registered Trade Union,

of which the worker is a member, or by another worker in the same establishment duly authorised by him in this behalf.

Explanation.— For the purposes of this rule, the term “officer”,—

(a) in case of an association of the employers, means any officer of such association of the employers

authorised for such purpose; and

(b) in case of a registered Trade Union, means any of the following officers of such Trade Union authorised

for such purpose, namely:—

(i) the President; or

(ii) the Vice-President; or

(iii) the Secretary (including the General Secretary); or

(iv) a Joint Secretary; or

(v) any other officer of such Trade Union authorised in this behalf by the President and

Central Rule 23: Rule 23 — Conciliation proceedings

extracted from the official English notification

23. Conciliation proceedings — (1) Where the conciliation officer receives any—

- (a) notice of a strike or lockout given under rule 25 or rule 26; or
- (b) application in respect of an existing industrial dispute; or
- (c) information regarding apprehension of an industrial dispute,

such officer shall—

- (i) in case of clause (a), enter the details on the designated portal and hold conciliation proceedings and
inform the concerned parties the date of sitting for such purpose;
- (ii) in case of clause (b), enter the details on the designated portal and examine the application and if such
dispute pertains to the jurisdiction of State Government, transfer the application to the concerned
authority or otherwise proceed with the application and hold the conciliation in respect thereof;
and
- (iii) in case of clause (c), enter the details on the designated portal and issue fresh notice to the parties
concerned declaring his intention to commence conciliation proceedings.

(2) The employer's representative and the worker's representative shall, on receipt of the notice referred to in sub-rule

(1), submit their respective statements in respect of the said dispute in the first meeting of the conciliation proceedings.

(3) The conciliation officer shall, without delay, ascertain the facts and circumstances relating to the dispute and enquire into all matters affecting the merits and right settlement thereof and hold conciliation proceedings between the parties to the dispute and may do all such things as he thinks fit for the purpose of inducing the parties to come to a fair and amicable settlement of the dispute.

(4) If no settlement is arrived at in the conciliation proceedings referred to in sub-rule (3), the conciliation officer shall, within seven days from the date on which the conciliation proceedings are concluded, upload a report on designated portal of the Ministry of Labour and Employment and forward a copy thereof electronically or by speed post or in person to the parties to the dispute and to the Central Government.

(5) The report shall be made accessible to the parties concerned on the said designated portal by the Ministry of Labour

and Employment.

(6) If settlement of the dispute or of any of the matters in dispute is arrived at in the course of the conciliation proceedings, the conciliation officer shall, apart from submitting a report to the Central Government or an officer duly authorised in this behalf by that Government along with a memorandum of the settlements signed by the parties to the dispute, also upload such report and memorandum of settlement on the designated portal of the Ministry of Labour and Employment.

(7) All evidences before the conciliation officer, except the documentary evidence, shall be filed in the form of an affidavit and the parties to the dispute shall also file the application or, as the case may be, file reply or rejoinder thereof in the form of an affidavit.

(8) The report referred to in sub-rule (4) shall, inter alia, contain the submissions of the employer, worker or Trade Union, as the case may be, involved in the dispute and it shall also contain the efforts made by the conciliation officer to bring the parties to an amicable settlement, reasons for refusal of the parties to resolve the dispute and the conclusion arrived at by the conciliation officer.

(9) Where any dispute is not settled during the conciliation proceeding, the concerned party may make an application in Form II before the Tribunal electronically or by speed post or by speed post with value added services-Registration or POD (Proof of Delivery), within ninety days from the date of the report under sub-rule (5).

Forms and registers must be confirmed from the appended 2026 Central Rules and the live portal applicable to the appropriate Government. A form is not treated as current merely because an earlier law used the same number.

Notifications and effective-date history

Control	Required action
Enactment	Record Act number, assent and Gazette publication.
Commencement	Use the provision-specific commencement notification; the four Codes became broadly operative from 21 November 2025 subject to earlier partial commencement and corrigenda.
Central Rules	Read the applicable 2026 Central Rules from their Gazette date and verify subsequent amendments.
State instrument	Check final State Rules, authority notifications, forms and rates where the State is appropriate Government.

Industrial Disputes Act, 1947	Classify the event date, accrued right, saved Rule/ notification and pending proceeding before moving to the Code.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Bangalore Water Supply v. A. Rajappa	The industry test remains an important interpretive starting point, subject to the Code definition and later statutory developments.
Workmen of Firestone Tyre v. Management	Domestic enquiry fairness and the adjudicatory power to examine dismissal remain central principles, subject to the Code and certified standing orders.
Bharat Bank Ltd. v. Employees	Industrial adjudication is specialised statutory adjudication; forum, reference and award provisions must be followed.
Karnal Leather Karamchari Sanghatan v. Liberty Footwear	Settlement and collective-bargaining outcomes require genuine authority, representativeness and statutory compliance.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Industrial Relations Code, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 43 - Conciliation officers?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter VIII - Strikes and lock-outs

This chapter turns strikes and lock-outs into an operational control file. It covers Prohibition of strikes and lock-outs, Illegal strikes and lock-outs, Prohibition of financial aid to illegal strikes or lock-outs; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered Employers, workers, trade unions, negotiating bodies, standing-order establishments and dispute-resolution authorities should classify the industrial establishment and worker population first.	Main obligations / rights • Section 62: Prohibition of strikes and lock-outs • Section 63: Illegal strikes and lock-outs • Section 64: Prohibition of financial aid to illegal strikes or lock-outs
Key thresholds / timelines • Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.	Forms / evidence • Notice • Classification, calculation, approval, acknowledgement and payment/filing proof
Employer risk snapshot Highest practical risks: incorrect notice, prohibited-period or disciplinary-response handling.	Employee / worker remedy clarity on notice/prohibited periods, protection against unlawful retaliation and access to dispute-resolution forums. Confirm authority, limitation and appeal route.
Old law / transition Map the event date and savings position against: Trade Unions Act, 1926; Industrial Employment (Standing Orders) Act, 1946; Industrial Disputes Act, 1947.	Five-point professional checklist • Freeze the event date, establishment, location and person/worker classification. • Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government. • Reperform the calculation or decision test and document every exception or approval. • Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence. • Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for strikes and lock-outs, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Applicable Central Rules immediately below the provision

No direct Central Rule is mapped. Check general procedural Rules, State Rules and later notifications.

Practical example

A multi-location employer prepares a legal classification memo, identifies the appropriate Government, maps the operative provision and Rule, records the decision owner and retains the documents needed to prove compliance during inspection or litigation.

Controls and evidence

- Employer: assign owner, configure system and retain approval/payment proof.
- Employee/worker: retain contract, attendance, wage/benefit proof and communication.
- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Identify the substantive default first, then separately map arrears or benefit, interest/damages, administrative penalty, prosecution, compounding, company/officer liability, forum, appeal and limitation. Do not infer a remedy from the heading alone.

Mapped Rules: No direct Central Rule mapped in the repository concordance | Official source: section 64.

Rules, forms, registers, portals and due dates

Rule	Subject	Text/control status
25	Rule 25 — Notice of strike, person or persons to whom notice be given and manner of giving such notice	Exact Gazette extract embedded
26	Rule 26 — Notice of lock-out and authority	Exact Gazette extract embedded

Forms and registers must be confirmed from the appended 2026 Central Rules and the live portal applicable to the appropriate Government. A form is not treated as current merely because an earlier law used the same number.

Notifications and effective-date history

Control	Required action
Enactment	Record Act number, assent and Gazette publication.
Commencement	Use the provision-specific commencement notification; the four Codes became broadly operative from 21 November 2025 subject to earlier partial commencement and corrigenda.
Central Rules	Read the applicable 2026 Central Rules from their Gazette date and verify subsequent amendments.
State instrument	Check final State Rules, authority notifications, forms and rates where the State is appropriate Government.

Old-law/new-Code concordance

Predecessor law	Transition control
Trade Unions Act, 1926	

Predecessor law	Transition control
	Classify the event date, accrued right, saved Rule/ notification and pending proceeding before moving to the Code.

Industrial Disputes Act, 1947	Classify the event date, accrued right, saved Rule/ notification and pending proceeding before moving to the Code.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Bangalore Water Supply v. A. Rajappa	The industry test remains an important interpretive starting point, subject to the Code definition and later statutory developments.
Workmen of Firestone Tyre v. Management	Domestic enquiry fairness and the adjudicatory power to examine dismissal remain central principles, subject to the Code and certified standing orders.
Bharat Bank Ltd. v. Employees	Industrial adjudication is specialised statutory adjudication; forum, reference and award provisions must be followed.
Karnal Leather Karamchari Sanghatan v. Liberty Footwear	Settlement and collective-bargaining outcomes require genuine authority, representativeness and statutory compliance.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Industrial Relations Code, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 62 - Prohibition of strikes and lock-outs?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 63 - Illegal strikes and lock-outs?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 64 - Prohibition of financial aid to illegal strikes or lock-outs?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is review control 14 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

What is review control 15 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter IX - Lay-off, retrenchment and closure

This chapter turns lay-off, retrenchment and closure into an operational control file. It covers Application of sections 67 to 69, Definition of continuous service, Rights of workers laid-off for compensation, etc, Duty of an employer to maintain muster rolls of workers; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered Employers, workers, trade unions, negotiating bodies, standing-order establishments and dispute-resolution authorities should classify the industrial establishment and worker population first.	Main obligations / rights • Section 65: Application of sections 67 to 69 • Section 66: Definition of continuous service • Section 67: Rights of workers laid-off for compensation, etc • Section 68: Duty of an employer to maintain muster rolls of workers • Section 69: Workers not entitled for compensation in certain cases
Key thresholds / timelines • Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.	Forms / evidence • Notice • Classification, calculation, approval, acknowledgement and payment/filing proof
Employer risk snapshot Highest practical risks: incorrect threshold, notice, compensation, permission or seniority procedure.	Employee / worker remedy notice, compensation, re-employment preference and challenge before the competent forum where conditions are breached. Confirm authority, limitation and appeal route.
Old law / transition Map the event date and savings position against: Trade Unions Act, 1926; Industrial Employment (Standing Orders) Act, 1946; Industrial Disputes Act, 1947.	Five-point professional checklist • Freeze the event date, establishment, location and person/worker classification. • Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government. • Reperform the calculation or decision test and document every exception or approval. • Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence. • Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for lay-off, retrenchment and closure, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

extracted from the official English notification

27. Service of notice before retrenchment.— If an employer desires to retrench any worker employed in his industrial

establishment who has been in continuous service for not less than one year, such employer shall serve prior notice of

retrenchment in Form-XIII to the Central Government and to the concerned Deputy Chief Labour Commissioner

(Central) through e-mail or speed post, in the following manner, namely, —

(a) where prior notice is given to a worker under clause (a) of section 70 of the Code, notice of such retrenchment

shall be served within three days from the date on which such notice is served on the worker;

(b) where no prior notice is given to the worker under clause (a) of section 70 of the Code, and he is paid one

month's wages in lieu thereof, notice of such retrenchment shall be sent within three days from the date on

which such wages are paid; and

(c) where retrenchment is carried out under an agreement, which specifies a date for the termination of service,

notice of such retrenchment shall be sent so as to reach the Central Government and a copy thereof to the

Deputy Chief Labour Commissioner (Central), at least one month before such date:

Provided that if the date of termination of service agreed upon is within thirty days of the agreement, the notice

of retrenchment shall be sent to Central Government along with a copy thereof to the Deputy Chief Labour

Commissioner (Central) concerned within three days of the agreement.

Central Rule 28: Rule 28 — Re-employment to retrenched workers

extracted from the official English notification

28. Re-employment to retrenched workers.— (1) The employer shall prepare a list of all workers in the particular category from which retrenchment is contemplated, arranged according to the seniority of their service in that category and cause a copy thereof to be pasted on a notice board in a conspicuous place in the premises of the industrial establishment, at least seven days before the actual date of retrenchment.

(2) When any vacancy occurs in an industrial establishment and there are workers of such industrial establishment retrenched within one year prior to the proposal for filling such vacancies, the employer of such industrial establishment shall, if such workers are citizens of India and have given their willingness for employment, give them preference over other on the basis of their seniority.

(3) The employer shall arrange for the display on the notice board in a conspicuous place in the premises of the industrial establishment the details of vacancies, at least fifteen days before the date on which such vacancies are to be filled and shall also give information of those vacancies by speed post or through e-mail to all the retrenched workers eligible to be considered, on the latest address or e-mail given by each of them at the time of retrenchment or at any time thereafter:

Provided that when the number of such vacancies is less than the number of retrenched workers, it shall be sufficient, if the information is given by the employer individually to the senior most retrenched workers in the list referred to in sub-rule (1) and the number of such senior-most workers being double the number of such vacancies:

Provided further that where duration of the vacancy is of less than one month there shall be no obligation on the employer to inform of such vacancy:

Provided also, that if a retrenched worker without sufficient cause being shown in writing to the employer, does not offer himself for re-employment on the date or dates specified in the information sent to him under this sub-rule, the employer shall not inform such worker of the vacancies that may be filled on any subsequent occasion.

(4) As soon as the provisions of sub-rule (3) are complied, the employer shall also inform the negotiating

union or the constituent of negotiating council or Trade Unions connected with the industrial establishment, of the number of vacancies to be filled and names of the retrenched workers to whom information has been sent under that sub-rule:

Provided that the provisions of this sub-rule shall not be complied with by the employer in any case where information is sent to every worker mentioned in the list prepared under sub-rule (1).

SPECIAL PROVISIONS RELATING TO LAY-OFF, RETRENCHMENT AND CLOSURE IN CERTAIN

ESTABLISHMENTS

Code concordance

Primary operative section

Section 74

Sixty days' notice to be given of intention to close down any undertaking

Forms and records

No form heading is directly assigned to this rule. Keep the application, notice, order, electronic acknowledgment and register required by the text.

Implementation owner

HR/employee relations with legal review and the authorised signatory specified by the rule.

System control

Create a workflow that blocks completion until every mandatory field, attachment, service method and timeline is satisfied.

Evidence

Preserve the exact filed form, annexures, electronic receipt, delivery proof, hearing material and final order.

Failure consequence

The underlying Code section may create invalidity, compensation, appeal, recovery, unfair-practice or penalty exposure.

[← Previous](#)

[Next →](#)

Practical example

A multi-location employer prepares a legal classification memo, identifies the appropriate Government, maps the operative provision and Rule, records the decision owner and retains the documents needed to prove compliance during inspection or litigation.

Controls and evidence

- Employer: assign owner, configure system and retain approval/payment proof.
- Employee/worker: retain contract, attendance, wage/benefit proof and communication.
- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Identify the substantive default first, then separately map arrears or benefit, interest/damages, administrative penalty, prosecution, compounding, company/officer liability, forum, appeal and limitation. Do not infer a remedy from the heading alone.

Forms and registers must be confirmed from the appended 2026 Central Rules and the live portal applicable to the appropriate Government. A form is not treated as current merely because an earlier law used the same number.

Notifications and effective-date history

Control	Required action
Enactment	Record Act number, assent and Gazette publication.
Commencement	Use the provision-specific commencement notification; the four Codes became broadly operative from 21 November 2025 subject to earlier partial commencement and corrigenda.
Central Rules	Read the applicable 2026 Central Rules from their Gazette date and verify subsequent amendments.
State instrument	Check final State Rules, authority notifications, forms and rates where the State is appropriate Government.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Bangalore Water Supply v. A. Rajappa	The industry test remains an important interpretive starting point, subject to the Code definition and later statutory developments.
Workmen of Firestone Tyre v. Management	Domestic enquiry fairness and the adjudicatory power to examine dismissal remain central principles, subject to the Code and certified standing orders.
Bharat Bank Ltd. v. Employees	Industrial adjudication is specialised statutory adjudication; forum, reference and award provisions must be followed.
Karnal Leather Karamchari Sanghatan v. Liberty Footwear	Settlement and collective-bargaining outcomes require genuine authority, representativeness and statutory compliance.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Industrial Relations Code, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 65 - Application of sections 67 to 69?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 66 - Definition of continuous service?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 67 - Rights of workers laid-off for compensation, etc?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 68 - Duty of an employer to maintain muster rolls of workers?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 69 - Workers not entitled for compensation in certain cases?

What is the operational focus of section 70 - Conditions precedent to retrenchment of workers?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 71 - Procedure for retrenchment?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 72 - Re-employment of retrenched worker?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter X - Special threshold establishments

This chapter turns special threshold establishments into an operational control file. It covers Application of this Chapter, Prohibition of lay-off, Conditions precedent to retrenchment of workers to which Chapter X applies, Procedure for closing down an industrial establishment; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, workers, trade unions, negotiating bodies, standing-order establishments and dispute-resolution authorities should classify the industrial establishment and worker population first.

Main obligations / rights

- Section 77: Application of this Chapter
- Section 78: Prohibition of lay-off
- Section 79: Conditions precedent to retrenchment of workers to which Chapter X applies
- Section 80: Procedure for closing down an industrial establishment
- Section 81: Duty of an employer to maintain muster rolls of workers

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Forms / evidence

- Applicable form/register, calculation file, approval and acknowledgement evidence
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employer risk snapshot

Highest practical risks: misclassification, missed filing/notice, unsupported calculation, incomplete records and use of the wrong Central/State instrument.

Employee / worker remedy

the substantive protection in this chapter, access to the prescribed authority/forum and a documented remedy within limitation. Confirm authority, limitation and appeal route.

Old law / transition

Map the event date and savings position against: Trade Unions Act, 1926; Industrial Employment (Standing Orders) Act, 1946; Industrial Disputes Act, 1947.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for special threshold establishments, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Central Rule 36: Rule 36 — Review of order

extracted from the official English notification

36. Review of order.— (1) The Central Government may, either on its own motion or on an application made by the employer or any worker, review its order granting or refusing to grant permission for the closing down of an industrial establishment.

(2) The employer or any worker concerned may make an application along with the order referred to in sub-rule (1), within thirty days from the date on which such order is made, to the Central Government for reviewing that order and that Government shall, within two months from the date on which such application is made, dispose of that application after providing the concerned parties an opportunity of being heard.

(3) Where the Central Government decides to review the order referred to in sub-rule (1) on its own motion, it may take necessary steps within one month from the date on which the order is made, and after providing the concerned parties an opportunity of being heard, dispose of such review within a period of two months from the date on which such decision is taken.

Code concordance

Primary operative section

Section 80

Procedure for closing down an industrial establishment

Forms and records

No form heading is directly assigned to this rule. Keep the application, notice, order, electronic acknowledgment and register required by the text.

Implementation owner

HR/employee relations with legal review and the authorised signatory specified by the rule.

System control

Create a workflow that blocks completion until every mandatory field, attachment, service method and timeline is satisfied.

Evidence

Preserve the exact filed form, annexures, electronic receipt, delivery proof, hearing material and final order.

Failure consequence

The underlying Code section may create invalidity, compensation, appeal, recovery, unfair-practice or penalty exposure.

Practical example

A multi-location employer prepares a legal classification memo, identifies the appropriate Government, maps the operative provision and Rule, records the decision owner and retains the documents needed to prove compliance during inspection or litigation.

Controls and evidence

- Employer: assign owner, configure system and retain approval/payment proof.
- Employee/worker: retain contract, attendance, wage/benefit proof and communication.
- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Identify the substantive default first, then separately map arrears or benefit, interest/damages, administrative penalty, prosecution, compounding, company/officer liability, forum, appeal and limitation. Do not infer a remedy from the heading alone.

- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Bangalore Water Supply v. A. Rajappa	The industry test remains an important interpretive starting point, subject to the Code definition and later statutory developments.
Workmen of Firestone Tyre v. Management	Domestic enquiry fairness and the adjudicatory power to examine dismissal remain central principles, subject to the Code and certified standing orders.
Bharat Bank Ltd. v. Employees	Industrial adjudication is specialised statutory adjudication; forum, reference and award provisions must be followed.
Karnal Leather Karamchari Sanghatan v. Liberty Footwear	Settlement and collective-bargaining outcomes require genuine authority, representativeness and statutory compliance.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Industrial Relations Code, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 77 - Application of this Chapter?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 78 - Prohibition of lay-off?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 79 - Conditions precedent to retrenchment of workers to which Chapter X applies?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 80 - Procedure for closing down an industrial establishment?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 81 - Duty of an employer to maintain muster rolls of workers?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 82 - Certain provisions of Chapter IX to apply to industrial establishment to which this?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is review control 17 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

What is review control 18 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter XI - Worker re-skilling fund

This chapter turns worker re-skilling fund into an operational control file. It covers Worker re-skilling fund; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered Employers, workers, trade unions, negotiating bodies, standing-order establishments and dispute-resolution authorities should classify the industrial establishment and worker population first.	Main obligations / rights • Section 83: Worker re-skilling fund
Key thresholds / timelines • Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.	Forms / evidence • Applicable form/register, calculation file, approval and acknowledgement evidence • Classification, calculation, approval, acknowledgement and payment/filing proof
Employer risk snapshot Highest practical risks: misclassification, missed filing/notice, unsupported calculation, incomplete records and use of the wrong Central/State instrument.	Employee / worker remedy the substantive protection in this chapter, access to the prescribed authority/forum and a documented remedy within limitation. Confirm authority, limitation and appeal route.
Old law / transition Map the event date and savings position against: Trade Unions Act, 1926; Industrial Employment (Standing Orders) Act, 1946; Industrial Disputes Act, 1947.	Five-point professional checklist • Freeze the event date, establishment, location and person/worker classification. • Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government. • Reperform the calculation or decision test and document every exception or approval. • Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence. • Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for worker re-skilling fund, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Chapter XII - Unfair labour practices

This chapter turns unfair labour practices into an operational control file. It covers Prohibition of unfair labour practice; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, workers, trade unions, negotiating bodies, standing-order establishments and dispute-resolution authorities should classify the industrial establishment and worker population first.

Main obligations / rights

- Section 84: Prohibition of unfair labour practice

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Forms / evidence

- Applicable form/register, calculation file, approval and acknowledgement evidence
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employer risk snapshot

Highest practical risks: misclassification, missed filing/notice, unsupported calculation, incomplete records and use of the wrong Central/State instrument.

Employee / worker remedy

the substantive protection in this chapter, access to the prescribed authority/forum and a documented remedy within limitation. Confirm authority, limitation and appeal route.

Old law / transition

Map the event date and savings position against: Trade Unions Act, 1926; Industrial Employment (Standing Orders) Act, 1946; Industrial Disputes Act, 1947.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Bangalore Water Supply v. A. Rajappa	The industry test remains an important interpretive starting point, subject to the Code definition and later statutory developments.
Workmen of Firestone Tyre v. Management	Domestic enquiry fairness and the adjudicatory power to examine dismissal remain central principles, subject to the Code and certified standing orders.
Bharat Bank Ltd. v. Employees	Industrial adjudication is specialised statutory adjudication; forum, reference and award provisions must be followed.
Karnal Leather Karamchari Sanghatan v. Liberty Footwear	Settlement and collective-bargaining outcomes require genuine authority, representativeness and statutory compliance.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Industrial Relations Code, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 84 - Prohibition of unfair labour practice?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is review control 12 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

What is review control 13 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

What is review control 14 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

What is review control 15 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter XIII - Offences and penalties

This chapter turns offences and penalties into an operational control file. It covers Power of officers of appropriate Government to impose penalty in certain cases, Penalties, Cognizance of offences, Offences by companies; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, workers, trade unions, negotiating bodies, standing-order establishments and dispute-resolution authorities should classify the industrial establishment and worker population first.

Main obligations / rights

- Section 85: Power of officers of appropriate Government to impose penalty in certain cases
- Section 86: Penalties
- Section 87: Cognizance of offences
- Section 88: Offences by companies
- Section 89: Composition of offences

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Forms / evidence

- Applicable form/register, calculation file, approval and acknowledgement evidence
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employer risk snapshot

Highest practical risks: failure to separate monetary liability, prosecution, compounding and officer-in-default exposure.

Employee / worker remedy

access to the competent authority/court and protection against unsupported recovery or prosecution. Confirm authority, limitation and appeal route.

Old law / transition

Map the event date and savings position against: Trade Unions Act, 1926; Industrial Employment (Standing Orders) Act, 1946; Industrial Disputes Act, 1947.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for offences and penalties, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Central Rule 44: Rule 44 — Enquiry

extracted from the official English notification

44. Enquiry.— (1) On receipt of a complaint of an offence committed under sub-sections (3), (5), (7), (8), (9), (10), (11)

and (20) of section 86 and sub-section (7) of section 89, the complaint shall be enquired into by an officer not below the

rank of Under Secretary to the Government of India, appointed by the Central Government for such purpose under sub-

section (1) of section 85 (hereinafter referred to as the “enquiry officer”).

(2) On receipt of the complaint, the enquiry officer shall call upon the person or persons through notice to be sent

electronically, or by speed post and upload a copy of the same on the designated portal of the Ministry of Labour and

Employment, to appear before him on a specified date together with all relevant documents and witnesses, if any, and

shall inform the complainant of the date so specified.

(3) Where a party so desires, he may request in writing to the enquiry officer to issue notice in the enquiry only by post

and also in cases where the enquiry officer feels that no electronic means of communication are available to the parties

concerned, he may send such notice by speed post.

(4) In case the person to whom notice has been issued under sub-rule (2), the person or his representative fails to appear

on the specified date, the enquiry officer may proceed to hear and determine the complaint ex-parte.

(5) In case the complainant fails to appear on the specified date without any information to the enquiry officer on two

consecutive dates, the enquiry officer may dismiss the complaint:

Provided that not more than three adjournments may be given on the joint application by the complainant and the opposite party:

Provided further that the enquiry officer shall at his discretion permit hearing the parties or any of the party, as the case may be, through video conferencing.

(6) The authorisation to appear on behalf of any person under sub-section (2) of section 85 of the Code shall be given

by a certificate or electronic certificate, as the case may be, which shall be presented to the enquiry officer during the

hearing of the complaint and shall form part of the record.

(7) Any person who intends to appear in the proceeding on behalf of the complainant shall present before the enquiry officer and submit a brief statement in writing explaining the reason for his appearance.

(8) The enquiry officer shall record an order on the statement referred to in sub-rule (7) permitting the person referred to in that sub-rule to appear in the proceeding on behalf of the complainant, and in the case of refusing such permission, the enquiry officer shall include reasons for the same and incorporate it in the record.

(9) The complaint or other documents relevant to the complaint may be presented in person to the enquiry officer at any time during hours fixed by the enquiry officer or may be sent to him electronically or by speed post and the opposite party shall have the right to reply to the complaint and such other documents.

(10) The enquiry officer shall endorse or cause to be endorsed on each document, the date of its presentation or receipt, as the case may be, and if the documents are submitted electronically, no such endorsement shall be necessary.

(11) The enquiry officer may refuse to entertain a complaint, if considers that the complaint is incomplete and may request the complainant to rectify the defects within the time specified for such purpose:

Provided that if the enquiry officer observes that it is not possible to rectify the defects in the complaint, he may at once return such complaint indicating the defects.

(12) Where the complaint is presented after rectification of the defects, the date of such re-presentation shall be deemed to be the date of presentation for the purpose of sub-section (1) of section 85 of the code.

(13) The enquiry officer may, after giving the complainant an opportunity of being heard, refuse to entertain a complaint, if satisfied for reasons to be recorded in writing, that—

(a) the complainant is not entitled to present the complaint; or

(b) the complainant has filed the complaint beyond six months from the date on which the offence complained is committed;

(c) the complainant fails to comply with the directions given by the enquiry officer under sub-section (2) of section 85 of the Code.

(14) The enquiry officer shall, in all cases mention the particulars at the time of passing of order containing the details, such as, the date of complaint, name and address of the complainant, name and address of the opposite party or opposite

parties, section-wise details of the offence committed, plea of the opposite party, findings and brief statement of the evidence taken including cross examination, reasons and penalty imposed with his signature, date and place.

(15) The enquiry officer shall, in respect of the procedure be guided by the provisions of the Code of Civil Procedure, 1908 (5 of 1908), with such alterations as the enquiry officer may deem fit, not affecting their substance, for adapting them to the matter before him except where they are in conflict with the express provisions of the Code or these rules.

(16) The enquiry officer shall, after the case has been heard, pass an order or give directions on the same day or on a future date to be fixed for this purpose.

(17) Any person, who is either a complainant or an opposite party or any person permitted under sub-rule (8) shall be entitled to inspect any complaint or any other document filed with the enquiry officer.

(11) The enquiry officer may refuse to entertain a complaint, if considers that the complaint is incomplete and may request the complainant to rectify the defects within the time specified for such purpose:

Provided that if the enquiry officer observes that it is not possible to rectify the defects in the complaint, he may at once return such complaint indicating the defects.

(12) Where the complaint is presented after rectification of the defects, the date of such re-presentation shall be deemed to be the date of presentation for the purpose of sub-section (1) of section 85 of the code.

(13) The enquiry officer may, after giving the complainant an opportunity of being heard, refuse to entertain a complaint, if satisfied for reasons to be recorded in writing, that—

(a) the complainant is not entitled to present the complaint; or

(b) the complainant has filed the complaint beyond six months from the date on which the offence complained is committed;

(c) the complainant fails to comply with the directions given by the enquiry officer under sub-section (2) of section 85 of the Code.

(14) The enquiry officer shall, in all cases mention the particulars at the time of passing of order containing the details, such as, the date of complaint, name and address of the complainant, name and address of the opposite party or opposite

parties, section-wise details of the offence committed, plea of the opposite party, findings and brief statement of the evidence taken including cross examination, reasons and penalty imposed with his signature, date and place.

(15) The enquiry officer shall, in respect of the procedure be guided by the provisions of the Code of Civil Procedure, 1908 (5 of 1908), with such alterations as the enquiry officer may deem fit, not affecting their substance, for adapting them to the matter before him except where they are in conflict with the express provisions of the Code or these rules.

(16) The enquiry officer shall, after the case has been heard, pass an order or give directions on the same day or on a future date to be fixed for this purpose.

(17) Any person, who is either a complainant or an opposite party or any person permitted under sub-rule (8) shall be entitled to inspect any complaint or any other document filed with the enquiry officer.

Practical example

A multi-location employer prepares a legal classification memo, identifies the appropriate Government, maps the operative provision and Rule, records the decision owner and retains the documents needed to prove compliance during inspection or litigation.

Controls and evidence

- Employer: assign owner, configure system and retain approval/payment proof.
- Employee/worker: retain contract, attendance, wage/benefit proof and communication.
- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Identify the substantive default first, then separately map arrears or benefit, interest/damages, administrative penalty, prosecution, compounding, company/officer liability, forum, appeal and limitation. Do not infer a remedy from the heading alone.

Mapped Rules: Rule 38, Rule 44 | Official source: section 89.

Rules, forms, registers, portals and due dates

Rule	Subject	Text/control status
44	Rule 44 — Enquiry	Exact Gazette extract embedded
38	Rule 38 — Manner of composition of offence	Exact Gazette extract embedded

Forms and registers must be confirmed from the appended 2026 Central Rules and the live portal applicable to the appropriate Government. A form is not treated as current merely because an earlier law used the same number.

Notifications and effective-date history

Control	Required action
Enactment	Record Act number, assent and Gazette publication.
Commencement	Use the provision-specific commencement notification; the four Codes became broadly operative from 21 November 2025 subject to earlier partial commencement and corrigenda.
Central Rules	Read the applicable 2026 Central Rules from their Gazette date and verify subsequent amendments.
State instrument	Check final State Rules, authority notifications, forms and rates where the State is appropriate Government.

Old-law/new-Code concordance

Predecessor law	Transition control
Trade Unions Act, 1926	Classify the event date, accrued right, saved Rule/ notification and pending proceeding before moving to the Code.

Predecessor law	Transition control

Industrial Disputes Act, 1947	Classify the event date, accrued right, saved Rule/ notification and pending proceeding before moving to the Code.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Bangalore Water Supply v. A. Rajappa	The industry test remains an important interpretive starting point, subject to the Code definition and later statutory developments.
Workmen of Firestone Tyre v. Management	Domestic enquiry fairness and the adjudicatory power to examine dismissal remain central principles, subject to the Code and certified standing orders.
Bharat Bank Ltd. v. Employees	Industrial adjudication is specialised statutory adjudication; forum, reference and award provisions must be followed.
Karnal Leather Karamchari Sanghatan v. Liberty Footwear	Settlement and collective-bargaining outcomes require genuine authority, representativeness and statutory compliance.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Industrial Relations Code, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 85 - Power of officers of appropriate Government to impose penalty in certain cases?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 86 - Penalties?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 87 - Cognizance of offences?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 88 - Offences by companies?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 89 - Composition of offences?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is review control 16 for this chapter?

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Industrial Relations Code, 2020 — Chapter XIV - Miscellaneous

This chapter turns miscellaneous into an operational control file. It covers Conditions of service, etc., to remain unchanged under certain circumstances during pendency of proceedings, Special provision for adjudication as to whether conditions of service, etc., changed during pendency of proceedings, Power to transfer certain proceedings, Protection of persons; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, workers, trade unions, negotiating bodies, standing-order establishments and dispute-resolution authorities should classify the industrial establishment and worker population first.

Main obligations / rights

- Section 90: Conditions of service, etc., to remain unchanged under certain circumstances during pendency of proceedings
- Section 91: Special provision for adjudication as to whether conditions of service, etc., changed during pendency of proceedings
- Section 92: Power to transfer certain proceedings
- Section 93: Protection of persons
- Section 94: Representation of parties

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Forms / evidence

- Applicable form/register, calculation file, approval and acknowledgement evidence
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employer risk snapshot

Highest practical risks: misclassification, missed filing/notice, unsupported calculation, incomplete records and use of the wrong Central/State instrument.

Employee / worker remedy

the substantive protection in this chapter, access to the prescribed authority/forum and a documented remedy within limitation. Confirm authority, limitation and appeal route.

Old law / transition

Map the event date and savings position against: Trade Unions Act, 1926; Industrial Employment (Standing Orders) Act, 1946; Industrial Disputes Act, 1947.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for miscellaneous, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Central Rule 39: Rule 39 — Protected workers

extracted from the official English notification

39. Protected workers.- (1) Every registered Trade Union connected with an industrial establishment, to which the provisions of the Code apply, shall communicate to the employer before the 30th April of every year, the names and addresses of such of the officers of such Trade Union who are employed in that establishment and who, in the opinion of such Trade Union shall be recognised as protected workers.

(2) Any change in the incumbency of any officer of the Trade Union referred to in sub-rule (1), shall be communicated to the employer by such Trade Union within fifteen days of such change.

(3) The employer shall, within fifteen days of the receipt of the names and addresses from the Trade Union under sub-rule (1) and subject to the provisions of sub-section (3) and (4) of section 90 of the Code recognise such workers as protected workers for the purposes of the said section and communicate to such Trade Union in writing, the list of workers recognised as protected workers for a period of twelve months from the date of such communication.

(4) Where the total number of names received by the employer under sub-rule (1), exceeds the maximum number of protected workers admissible for the industrial establishment under sub-section (4) of section 90, the employer shall recognise such maximum number of workers as protected workers:

Provided that where there is more than one registered Trade Union in the industrial establishment, the maximum number shall be so distributed by the employer among the Trade Unions that the numbers of recognised protected workers in individual Trade Unions bear practicably the same proportion to one another as the membership figures of the Trade Unions; and the employer shall in that case inform in writing to the President or the Secretary of each of the concerned Trade Union, the number of protected workers allotted to it:

Provided further that where the number of protected workers allotted to such a Trade Union under this sub-rule falls short of the number of officers of such Trade Union seeking protection, then that Trade Union shall be entitled to select the officers to be recognised as protected workers and such selection shall be made by that Trade Union and communicated to the employer within five days of the receipt of written intimation of the employer in

this regard.

(5) Where a dispute arises between an employer and any registered Trade Union in any matter connected with the recognition of protected workers under this rule, such dispute shall be referred to the Deputy Chief Labour

Commissioner (Central) or Regional Labour Commissioner (Central) or Assistant Labour Commissioner (Central)

concerned, whose decision thereon shall be final.

Applicable Central Rules immediately below the provision

No direct Central Rule is mapped. Check general procedural Rules, State Rules and later notifications.

Practical example

A multi-location employer prepares a legal classification memo, identifies the appropriate Government, maps the operative provision and Rule, records the decision owner and retains the documents needed to prove compliance during inspection or litigation.

Controls and evidence

- Employer: assign owner, configure system and retain approval/payment proof.
- Employee/worker: retain contract, attendance, wage/benefit proof and communication.
- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Identify the substantive default first, then separately map arrears or benefit, interest/damages, administrative penalty, prosecution, compounding, company/officer liability, forum, appeal and limitation. Do not infer a remedy from the heading alone.

Forms and registers must be confirmed from the appended 2026 Central Rules and the live portal applicable to the appropriate Government. A form is not treated as current merely because an earlier law used the same number.

Notifications and effective-date history

Control	Required action
Enactment	Record Act number, assent and Gazette publication.
Commencement	Use the provision-specific commencement notification; the four Codes became broadly operative from 21 November 2025 subject to earlier partial commencement and corrigenda.
Central Rules	Read the applicable 2026 Central Rules from their Gazette date and verify subsequent amendments.
State instrument	Check final State Rules, authority notifications, forms and rates where the State is appropriate Government.

Old-law/new-Code concordance

Predecessor law	Transition control
Trade Unions Act, 1926	Classify the event date, accrued right, saved Rule/ notification and pending proceeding before moving to the Code.
Industrial Employment (Standing Orders) Act, 1946	Classify the event date, accrued right, saved Rule/ notification and pending proceeding before moving to the Code.
Industrial Disputes Act, 1947	Classify the event date, accrued right, saved Rule/ notification and pending proceeding before moving to the Code.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Bangalore Water Supply v. A. Rajappa	The industry test remains an important interpretive starting point, subject to the Code definition and later statutory developments.
Workmen of Firestone Tyre v. Management	Domestic enquiry fairness and the adjudicatory power to examine dismissal remain central principles, subject to the Code and certified standing orders.
Bharat Bank Ltd. v. Employees	Industrial adjudication is specialised statutory adjudication; forum, reference and award provisions must be followed.
Karnal Leather Karamchari Sanghatan v. Liberty Footwear	Settlement and collective-bargaining outcomes require genuine authority, representativeness and statutory compliance.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Industrial Relations Code, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 90 - Conditions of service, etc., to remain unchanged under certain circumstances during pendency of proceedings?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 91 - Special provision for adjudication as to whether conditions of service, etc., changed during pendency of proceedings?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 92 - Power to transfer certain proceedings?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 93 - Protection of persons?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 96 - Power to exempt?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 97 - Jurisdiction of civil courts barred?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Code on Social Security, 2020 — Chapter I - Preliminary

This chapter turns preliminary into an operational control file. It covers Short title, extent, commencement and application, Definitions, Registration and cancellation of an establishment; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, employees, unorganised workers, gig/platform workers, beneficiaries and social-security authorities must identify the applicable chapter, establishment threshold and scheme.

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Employer risk snapshot

Highest practical risks: misclassification, missed filing/notice, unsupported calculation, incomplete records and use of the wrong Central/State instrument.

Old law / transition

Map the event date and savings position against: Employees' Compensation Act, 1923; Employees' State Insurance Act, 1948; EPF and MP Act, 1952; Employment Exchanges Act, 1959; Maternity Benefit Act, 1961.

Main obligations / rights

- Section 1: Short title, extent, commencement and application
- Section 2: Definitions
- Section 3: Registration and cancellation of an establishment

Forms / evidence

- Applicable form/register, calculation file, approval and acknowledgement evidence
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employee / worker remedy

the substantive protection in this chapter, access to the prescribed authority/forum and a documented remedy within limitation. Confirm authority, limitation and appeal route.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for preliminary, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Rules, forms, registers, portals and due dates

Rule	Subject	Text/control status
3	Rule 3 — Manner and conditions of making the provisions of Chapter III or Chapter IV inapplicable to an establishment	Source-controlled mapping
2	Rule 2 — Definitions	Source-controlled mapping
4	Rule 4 — Income of dependent parents of employee	Source-controlled mapping
5	Rule 5 — Registration of establishments and cancellation thereof	Source-controlled mapping

Forms and registers must be confirmed from the appended 2026 Central Rules and the live portal applicable to the appropriate Government. A form is not treated as current merely because an earlier law used the same number.

Notifications and effective-date history

Control	Required action
Enactment	Record Act number, assent and Gazette publication.
Commencement	

	Use the provision-specific commencement notification; the four Codes became broadly operative from 21 November 2025 subject to earlier partial commencement and corrigenda.
Central Rules	Read the applicable 2026 Central Rules from their Gazette date and verify subsequent amendments.
State instrument	Check final State Rules, authority notifications, forms and rates where the State is appropriate Government.

Old-law/new-Code concordance

Predecessor law	Transition control
Employees' Compensation Act, 1923	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Employees' State Insurance Act, 1948	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
EPF and MP Act, 1952	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Employment Exchanges Act, 1959	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Maternity Benefit Act, 1961	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Payment of Gratuity Act, 1972	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Cine Workers Welfare Fund Act, 1981	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
BOCW Welfare Cess Act, 1996	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Unorganised Workers' Social Security Act, 2008	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Regional Director, ESI Corporation v. Ramanuja Match Industries	Social-security legislation is beneficial, but coverage and contribution liability still turn on statutory definitions and evidence.
Organo Chemical Industries v. Union of India	Social-security defaults may attract compensatory and deterrent consequences; separate principal contribution, interest, damages and prosecution.
Jeewanlal (1929) Ltd. v. Appellate Authority	Gratuity is a statutory terminal benefit; eligibility and forfeiture require strict application of the governing text.
Municipal Corporation of Delhi v. Female Workers	Maternity protection is interpreted purposively, while present claims must be tested under the Code and current Rules.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Code on Social Security, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 1 - Short title, extent, commencement and application?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 2 - Definitions?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 3 - Registration and cancellation of an establishment?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is review control 14 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

What is review control 15 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter II - Social Security Organisations

This chapter turns social security organisations into an operational control file. It covers Constitution of Board of Trustees of Employees' Provident Fund, Constitution of Employees' State Insurance Corporation, National Social Security Board and State Unorganised Workers' Board, Constitution of State Building Workers' Welfare Boards; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, employees, unorganised workers, gig/platform workers, beneficiaries and social-security authorities must identify the applicable chapter, establishment threshold and scheme.

Main obligations / rights

- Section 4: Constitution of Board of Trustees of Employees' Provident Fund
- Section 5: Constitution of Employees' State Insurance Corporation
- Section 6: National Social Security Board and State Unorganised Workers' Board
- Section 7: Constitution of State Building Workers' Welfare Boards
- Section 8: Disqualification and removal of a member of any Social Security Organisation

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Forms / evidence

- Notice
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employer risk snapshot

Highest practical risks: misclassification, missed filing/notice, unsupported calculation, incomplete records and use of the wrong Central/State instrument.

Employee / worker remedy

the substantive protection in this chapter, access to the prescribed authority/forum and a documented remedy within limitation. Confirm authority, limitation and appeal route.

Old law / transition

Map the event date and savings position against: Employees' Compensation Act, 1923; Employees' State Insurance Act, 1948; EPF and MP Act, 1952; Employment Exchanges Act, 1959; Maternity Benefit Act, 1961.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for social security organisations, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Controls and evidence

- Employer: assign owner, configure system and retain approval/payment proof.
- Employee/worker: retain contract, attendance, wage/benefit proof and communication.
- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Identify the substantive default first, then separately map arrears or benefit, interest/damages, administrative penalty, prosecution, compounding, company/officer liability, forum, appeal and limitation. Do not infer a remedy from the heading alone.

Mapped Rules: Rule 10 | Official source: section 13.

8	Rule 8 — The Employees' State Insurance Corporation, Standing Committee and Medical Benefit Committee	Source-controlled mapping
9	Rule 9 — National Social Security Board	Source-controlled mapping
10	Rule 10 — Other welfare measures and facilities	

Rule	Subject	Text/control status
		Source-controlled mapping

Forms and registers must be confirmed from the appended 2026 Central Rules and the live portal applicable to the appropriate Government. A form is not treated as current merely because an earlier law used the same number.

Notifications and effective-date history

Control	Required action
Enactment	Record Act number, assent and Gazette publication.
Commencement	Use the provision-specific commencement notification; the four Codes became broadly operative from 21 November 2025 subject to earlier partial commencement and corrigenda.
Central Rules	Read the applicable 2026 Central Rules from their Gazette date and verify subsequent amendments.
State instrument	Check final State Rules, authority notifications, forms and rates where the State is appropriate Government.

Old-law/new-Code concordance

Predecessor law	Transition control
Employees' Compensation Act, 1923	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Employees' State Insurance Act, 1948	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.

Predecessor law	Transition control
EPF and MP Act, 1952	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Employment Exchanges Act, 1959	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Maternity Benefit Act, 1961	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Payment of Gratuity Act, 1972	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Cine Workers Welfare Fund Act, 1981	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
BOCW Welfare Cess Act, 1996	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Unorganised Workers' Social Security Act, 2008	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Regional Director, ESI Corporation v. Ramanuja Match Industries	Social-security legislation is beneficial, but coverage and contribution liability still turn on statutory definitions and evidence.
Organo Chemical Industries v. Union of India	Social-security defaults may attract compensatory and deterrent consequences; separate principal contribution, interest, damages and prosecution.
Jeewanlal (1929) Ltd. v. Appellate Authority	Gratuity is a statutory terminal benefit; eligibility and forfeiture require strict application of the governing text.
Municipal Corporation of Delhi v. Female Workers	Maternity protection is interpreted purposively, while present claims must be tested under the Code and current Rules.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.

- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Code on Social Security, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 4 - Constitution of Board of Trustees of Employees' Provident Fund?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 5 - Constitution of Employees' State Insurance Corporation?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 6 - National Social Security Board and State Unorganised Workers' Board?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 7 - Constitution of State Building Workers' Welfare Boards?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 8 - Disqualification and removal of a member of any Social Security Organisation?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 9 - Procedure for transaction of business of Social Security Organisation, etc.?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 10 - Executive Heads of Central Board and Corporation?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 11 - Supersession of Corporation, Central Board, National Social Security Board or State Unorganised Workers' Board or the Building Workers' Welfare Board?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter III - EPF/EPS/EDLI

This chapter turns epf/eps/edli into an operational control file. It covers Appointment of officers of Central Board, Schemes, Funds, Contribution in respect of employees and contractors; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, employees, unorganised workers, gig/platform workers, beneficiaries and social-security authorities must identify the applicable chapter, establishment threshold and scheme.

Main obligations / rights

- Section 14: Appointment of officers of Central Board
- Section 15: Schemes
- Section 16: Funds
- Section 17: Contribution in respect of employees and contractors
- Section 18: Fund to be recognised under Act 43 of 1961

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Forms / evidence

- Applicable form/register, calculation file, approval and acknowledgement evidence
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employer risk snapshot

Highest practical risks: wrong membership/wage base, delayed remittance, excluded-employee treatment or incomplete ECR/records.

Employee / worker remedy

membership credit, contribution visibility, transfer/withdrawal and grievance/claim routes. Confirm authority, limitation and appeal route.

Old law / transition

Map the event date and savings position against: Employees' Compensation Act, 1923; Employees' State Insurance Act, 1948; EPF and MP Act, 1952; Employment Exchanges Act, 1959; Maternity Benefit Act, 1961.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for epf/eps/edli, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Regional Director, ESI Corporation v. Ramanuja Match Industries	Social-security legislation is beneficial, but coverage and contribution liability still turn on statutory definitions and evidence.
Organo Chemical Industries v. Union of India	Social-security defaults may attract compensatory and deterrent consequences; separate principal contribution, interest, damages and prosecution.
Jeewanlal (1929) Ltd. v. Appellate Authority	Gratuity is a statutory terminal benefit; eligibility and forfeiture require strict application of the governing text.
Municipal Corporation of Delhi v. Female Workers	Maternity protection is interpreted purposively, while present claims must be tested under the Code and current Rules.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Code on Social Security, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 14 - Appointment of officers of Central Board?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 15 - Schemes?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 16 - Funds?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 17 - Contribution in respect of employees and contractors?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 18 - Fund to be recognised under Act 43 of 1961?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 19 - Priority of payment of contributions over other debts?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 20 - Chapter not to apply to certain establishments?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 21 - Authorising certain employers to maintain provident fund accounts?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter IV - ESI

This chapter turns esi into an operational control file. It covers Principal Officers and other staff, Employees' State Insurance Fund, Purposes for which Employees' State Insurance Fund may be expended, Holding of property, etc.; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, employees, unorganised workers, gig/platform workers, beneficiaries and social-security authorities must identify the applicable chapter, establishment threshold and scheme.

Main obligations / rights

- Section 24: Principal Officers and other staff
- Section 25: Employees' State Insurance Fund
- Section 26: Purposes for which Employees' State Insurance Fund may be expended
- Section 27: Holding of property, etc.
- Section 28: All employees to be insured

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Forms / evidence

- Applicable form/register, calculation file, approval and acknowledgement evidence
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employer risk snapshot

Highest practical risks: coverage, contribution, accident reporting, certification or benefit-period errors.

Employee / worker remedy

medical and cash benefits, employment-injury protection and access to ESIC/Employees Insurance Court remedies. Confirm authority, limitation and appeal route.

Old law / transition

Map the event date and savings position against: Employees' Compensation Act, 1923; Employees' State Insurance Act, 1948; EPF and MP Act, 1952; Employment Exchanges Act, 1959; Maternity Benefit Act, 1961.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for esi, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Applicable Central Rules immediately below the provision

Central Rule 29: Rule 29 — Proceedings before Employees' Insurance Court, etc.

Rule mapping is retained; read the official 2026 Gazette for the exact sub-rule text and forms.

Practical example

A multi-location employer prepares a legal classification memo, identifies the appropriate Government, maps the operative provision and Rule, records the decision owner and retains the documents needed to prove compliance during inspection or litigation.

Controls and evidence

- Employer: assign owner, configure system and retain approval/payment proof.
- Employee/worker: retain contract, attendance, wage/benefit proof and communication.
- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Identify the substantive default first, then separately map arrears or benefit, interest/damages, administrative penalty, prosecution, compounding, company/officer liability, forum, appeal and limitation. Do not infer a remedy from the heading alone.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Regional Director, ESI Corporation v. Ramanuja Match Industries	Social-security legislation is beneficial, but coverage and contribution liability still turn on statutory definitions and evidence.
Organo Chemical Industries v. Union of India	Social-security defaults may attract compensatory and deterrent consequences; separate principal contribution, interest, damages and prosecution.
Jeewanlal (1929) Ltd. v. Appellate Authority	Gratuity is a statutory terminal benefit; eligibility and forfeiture require strict application of the governing text.
Municipal Corporation of Delhi v. Female Workers	Maternity protection is interpreted purposively, while present claims must be tested under the Code and current Rules.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Code on Social Security, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 24 - Principal Officers and other staff?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 25 - Employees' State Insurance Fund?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 26 - Purposes for which Employees' State Insurance Fund may be expended?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 27 - Holding of property, etc.?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 28 - All employees to be insured?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 29 - Contributions?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 30 - Administrative expenses?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 31 - Provisions as to payment of contributions by employer, etc.?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter V - Gratuity

This chapter turns gratuity into an operational control file. It covers Payment of gratuity, Continuous service, Nomination, Determination of amount of gratuity; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, employees, unorganised workers, gig/platform workers, beneficiaries and social-security authorities must identify the applicable chapter, establishment threshold and scheme.

Main obligations / rights

- Section 53: Payment of gratuity
- Section 54: Continuous service
- Section 55: Nomination
- Section 56: Determination of amount of gratuity
- Section 57: Compulsory insurance

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Forms / evidence

- Nomination
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employer risk snapshot

Highest practical risks: wrong continuous-service test, wage base, nomination, forfeiture or delayed payment.

Employee / worker remedy

determination and timely payment of gratuity, nomination rights and interest/remedy for delay. Confirm authority, limitation and appeal route.

Old law / transition

Map the event date and savings position against: Employees' Compensation Act, 1923; Employees' State Insurance Act, 1948; EPF and MP Act, 1952; Employment Exchanges Act, 1959; Maternity Benefit Act, 1961.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for gratuity, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter VI - Maternity benefit

This chapter turns maternity benefit into an operational control file. It covers Employment of, or work by, women prohibited during certain period, Right to payment of maternity benefit, Continuance of payment of maternity benefit in certain cases, Notice of claim for maternity benefit and payment thereof; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, employees, unorganised workers, gig/platform workers, beneficiaries and social-security authorities must identify the applicable chapter, establishment threshold and scheme.

Main obligations / rights

- Section 59: Employment of, or work by, women prohibited during certain period
- Section 60: Right to payment of maternity benefit
- Section 61: Continuance of payment of maternity benefit in certain cases
- Section 62: Notice of claim for maternity benefit and payment thereof
- Section 63: Payment of maternity benefit in case of death of a woman

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Forms / evidence

- Notice
- Certificate
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employer risk snapshot

Highest practical risks: denial of protected benefit, incorrect qualifying service or adverse employment action.

Employee / worker remedy

maternity and connected benefits, protection from prohibited dismissal and access to the competent authority. Confirm authority, limitation and appeal route.

Old law / transition

Map the event date and savings position against: Employees' Compensation Act, 1923; Employees' State Insurance Act, 1948; EPF and MP Act, 1952; Employment Exchanges Act, 1959; Maternity Benefit Act, 1961.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for maternity benefit, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Identify the substantive default first, then separately map arrears or benefit, interest/damages, administrative penalty, prosecution, compounding, company/officer liability, forum, appeal and limitation. Do not infer a remedy from the heading alone.

Mapped Rules: Rule 39, Rule 40 | Official source: section 72.

Rules, forms, registers, portals and due dates

Rule	Subject	Text/control status
35	Rule 35 — Certificate and notice of claim for maternity benefit	Source-controlled mapping
36	Rule 36 — Duration of nursing breaks	Source-controlled mapping
37	Rule 37 — Employees and crèche facility	Source-controlled mapping
38	Rule 38 — Gross misconduct	Source-controlled mapping

Rule	Subject	Text/control status
40	Rule 40 — Duties of Inspector-cum-Facilitator	Source-controlled mapping
39	Rule 39 — Complaint before Inspector-cum-Facilitator and appeal	Source-controlled mapping

Forms and registers must be confirmed from the appended 2026 Central Rules and the live portal applicable to the appropriate Government. A form is not treated as current merely because an earlier law used the same number.

Notifications and effective-date history

Control	Required action
Enactment	Record Act number, assent and Gazette publication.
Commencement	Use the provision-specific commencement notification; the four Codes became broadly operative from 21 November 2025 subject to earlier partial commencement and corrigenda.
Central Rules	Read the applicable 2026 Central Rules from their Gazette date and verify subsequent amendments.
State instrument	Check final State Rules, authority notifications, forms and rates where the State is appropriate Government.

Old-law/new-Code concordance

Predecessor law	Transition control
Employees' Compensation Act, 1923	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Employees' State Insurance Act, 1948	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.

Predecessor law	Transition control
EPF and MP Act, 1952	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Employment Exchanges Act, 1959	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Maternity Benefit Act, 1961	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Payment of Gratuity Act, 1972	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Cine Workers Welfare Fund Act, 1981	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
BOCW Welfare Cess Act, 1996	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Unorganised Workers' Social Security Act, 2008	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Regional Director, ESI Corporation v. Ramanuja Match Industries	Social-security legislation is beneficial, but coverage and contribution liability still turn on statutory definitions and evidence.
Organo Chemical Industries v. Union of India	Social-security defaults may attract compensatory and deterrent consequences; separate principal contribution, interest, damages and prosecution.
Jeewanlal (1929) Ltd. v. Appellate Authority	Gratuity is a statutory terminal benefit; eligibility and forfeiture require strict application of the governing text.
Municipal Corporation of Delhi v. Female Workers	Maternity protection is interpreted purposively, while present claims must be tested under the Code and current Rules.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.

- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Code on Social Security, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 59 - Employment of, or work by, women prohibited during certain period?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 60 - Right to payment of maternity benefit?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 61 - Continuance of payment of maternity benefit in certain cases?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 62 - Notice of claim for maternity benefit and payment thereof?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 63 - Payment of maternity benefit in case of death of a woman?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 64 - Payment of medical bonus?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 65 - Leave for miscarriage, etc.?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 66 - Nursing breaks?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter VII - Employees compensation

This chapter turns employees compensation into an operational control file. It covers Reports of fatal accidents and serious bodily injuries, Employer's liability for compensation, Compensation in case of death of or injury in plantation, Amount of compensation; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, employees, unorganised workers, gig/platform workers, beneficiaries and social-security authorities must identify the applicable chapter, establishment threshold and scheme.

Main obligations / rights

- Section 73: Reports of fatal accidents and serious bodily injuries
- Section 74: Employer's liability for compensation
- Section 75: Compensation in case of death of or injury in plantation
- Section 76: Amount of compensation
- Section 77: Compensation to be paid when due and damages for default

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Forms / evidence

- Notice
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employer risk snapshot

Highest practical risks: failure to report injury, calculate compensation or deposit/pay within the statutory route.

Employee / worker remedy

employment-injury compensation, medical evidence recognition and adjudication/appeal rights. Confirm authority, limitation and appeal route.

Old law / transition

Map the event date and savings position against: Employees' Compensation Act, 1923; Employees' State Insurance Act, 1948; EPF and MP Act, 1952; Employment Exchanges Act, 1959; Maternity Benefit Act, 1961.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for employees compensation, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Regional Director, ESI Corporation v. Ramanuja Match Industries	Social-security legislation is beneficial, but coverage and contribution liability still turn on statutory definitions and evidence.
Organo Chemical Industries v. Union of India	Social-security defaults may attract compensatory and deterrent consequences; separate principal contribution, interest, damages and prosecution.
Jeewanlal (1929) Ltd. v. Appellate Authority	Gratuity is a statutory terminal benefit; eligibility and forfeiture require strict application of the governing text.
Municipal Corporation of Delhi v. Female Workers	Maternity protection is interpreted purposively, while present claims must be tested under the Code and current Rules.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Code on Social Security, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 73 - Reports of fatal accidents and serious bodily injuries?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 74 - Employer's liability for compensation?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 75 - Compensation in case of death of or injury in plantation?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 76 - Amount of compensation?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 77 - Compensation to be paid when due and damages for default?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 78 - Method of calculating monthly wages for purposes of compensation?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 79 - Review?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 80 - Commutation of half-monthly payments?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter VIII - BOCW and cess

This chapter turns bocw and cess into an operational control file. It covers Levy and collection of cess, Interest payable on delay in payment of cess, Power to exempt from cess, Self-assessment of cess; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, employees, unorganised workers, gig/platform workers, beneficiaries and social-security authorities must identify the applicable chapter, establishment threshold and scheme.

Main obligations / rights

- Section 100: Levy and collection of cess
- Section 101: Interest payable on delay in payment of cess
- Section 102: Power to exempt from cess
- Section 103: Self-assessment of cess
- Section 104: Penalty for non-payment of cess within the specified time

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Forms / evidence

- Applicable form/register, calculation file, approval and acknowledgement evidence
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employer risk snapshot

Highest practical risks: misclassification, missed filing/notice, unsupported calculation, incomplete records and use of the wrong Central/State instrument.

Employee / worker remedy

the substantive protection in this chapter, access to the prescribed authority/forum and a documented remedy within limitation. Confirm authority, limitation and appeal route.

Old law / transition

Map the event date and savings position against: Employees' Compensation Act, 1923; Employees' State Insurance Act, 1948; EPF and MP Act, 1952; Employment Exchanges Act, 1959; Maternity Benefit Act, 1961.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for bocw and cess, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Municipal Corporation of Delhi v. Female Workers	Maternity protection is interpreted purposively, while present claims must be tested under the Code and current Rules.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Code on Social Security, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 100 - Levy and collection of cess?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 101 - Interest payable on delay in payment of cess?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 102 - Power to exempt from cess?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 103 - Self-assessment of cess?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 104 - Penalty for non-payment of cess within the specified time?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 105 - Appeal to appellate authority?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 106 - Registration of building workers as beneficiaries?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 107 - Cessation as a beneficiary?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter IX - Unorganised, gig and platform workers

This chapter turns unorganised, gig and platform workers into an operational control file. It covers Framing of schemes for unorganised workers, Funding of State Government schemes, Record keeping, Helpline, facilitation centre, etc., for unorganised workers, gig workers and platform workers; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, employees, unorganised workers, gig/platform workers, beneficiaries and social-security authorities must identify the applicable chapter, establishment threshold and scheme.

Main obligations / rights

- Section 109: Framing of schemes for unorganised workers
- Section 110: Funding of State Government schemes
- Section 111: Record keeping
- Section 112: Helpline, facilitation centre, etc., for unorganised workers, gig workers and platform workers
- Section 113: Registration of unorganised workers, gig workers and platform workers

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Forms / evidence

- Applicable form/register, calculation file, approval and acknowledgement evidence
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employer risk snapshot

Highest practical risks: incorrect registration, contribution or scheme classification.

Employee / worker remedy

registration and access to notified social-security schemes, subject to the operative scheme and contribution framework. Confirm authority, limitation and appeal route.

Old law / transition

Map the event date and savings position against: Employees' Compensation Act, 1923; Employees' State Insurance Act, 1948; EPF and MP Act, 1952; Employment Exchanges Act, 1959; Maternity Benefit Act, 1961.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for unorganised, gig and platform workers, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Rules, forms, registers, portals and due dates

Rule	Subject	Text/control status
48	Rule 48 — Registration of unorganised workers, gig workers and platform workers	Source-controlled mapping
49	Rule 49 — Implementation of schemes and refund of contribution	Source-controlled mapping

Forms and registers must be confirmed from the appended 2026 Central Rules and the live portal applicable to the appropriate Government. A form is not treated as current merely because an earlier law used the same number.

Notifications and effective-date history

Control	Required action
Enactment	Record Act number, assent and Gazette publication.
Commencement	Use the provision-specific commencement notification; the four Codes became broadly operative from 21 November 2025 subject to earlier partial commencement and corrigenda.
Central Rules	Read the applicable 2026 Central Rules from their Gazette date and verify subsequent amendments.
State instrument	

Check final State Rules, authority notifications, forms and rates where the State is appropriate Government.

Old-law/new-Code concordance

Predecessor law	Transition control
Employees' Compensation Act, 1923	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Employees' State Insurance Act, 1948	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
EPF and MP Act, 1952	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Employment Exchanges Act, 1959	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Maternity Benefit Act, 1961	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Payment of Gratuity Act, 1972	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Cine Workers Welfare Fund Act, 1981	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
BOCW Welfare Cess Act, 1996	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Unorganised Workers' Social Security Act, 2008	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Regional Director, ESI Corporation v. Ramanuja Match Industries	Social-security legislation is beneficial, but coverage and contribution liability still turn on statutory definitions and evidence.
Organo Chemical Industries v. Union of India	Social-security defaults may attract compensatory and deterrent consequences; separate principal contribution, interest, damages and prosecution.
Jeewanlal (1929) Ltd. v. Appellate Authority	Gratuity is a statutory terminal benefit; eligibility and forfeiture require strict application of the governing text.
Municipal Corporation of Delhi v. Female Workers	Maternity protection is interpreted purposively, while present claims must be tested under the Code and current Rules.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Code on Social Security, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is review control 17 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

What is review control 18 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter X - Finance and accounts

This chapter turns finance and accounts into an operational control file. It covers Accounts, Audit, Budget estimates, Annual report; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, employees, unorganised workers, gig/platform workers, beneficiaries and social-security authorities must identify the applicable chapter, establishment threshold and scheme.

Main obligations / rights

- Section 115: Accounts
- Section 116: Audit
- Section 117: Budget estimates
- Section 118: Annual report
- Section 119: Valuation of assets and liabilities

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Forms / evidence

- Applicable form/register, calculation file, approval and acknowledgement evidence
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employer risk snapshot

Highest practical risks: misclassification, missed filing/notice, unsupported calculation, incomplete records and use of the wrong Central/State instrument.

Employee / worker remedy

the substantive protection in this chapter, access to the prescribed authority/forum and a documented remedy within limitation. Confirm authority, limitation and appeal route.

Old law / transition

Map the event date and savings position against: Employees' Compensation Act, 1923; Employees' State Insurance Act, 1948; EPF and MP Act, 1952; Employment Exchanges Act, 1959; Maternity Benefit Act, 1961.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Rules, forms, registers, portals and due dates

Rule	Subject	Text/control status
30	Rule 30 — Administration of Fund	Source-controlled mapping
52	Rule 52 — Account and annual report	Source-controlled mapping
50	Rule 50 — Rules under section 120	Source-controlled mapping
51	Rule 51 — Conditions for writing off irrecoverable dues	Source-controlled mapping

Forms and registers must be confirmed from the appended 2026 Central Rules and the live portal applicable to the appropriate Government. A form is not treated as current merely because an earlier law used the same number.

Notifications and effective-date history

Control	Required action
Enactment	Record Act number, assent and Gazette publication.
Commencement	Use the provision-specific commencement notification; the four Codes became broadly operative from 21 November 2025 subject to earlier partial commencement and corrigenda.
Central Rules	Read the applicable 2026 Central Rules from their Gazette date and verify subsequent amendments.

State instrument	Check final State Rules, authority notifications, forms and rates where the State is appropriate Government.

Old-law/new-Code concordance

Predecessor law	Transition control
Employees' Compensation Act, 1923	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Employees' State Insurance Act, 1948	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
EPF and MP Act, 1952	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Employment Exchanges Act, 1959	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Maternity Benefit Act, 1961	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Payment of Gratuity Act, 1972	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Cine Workers Welfare Fund Act, 1981	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
BOCW Welfare Cess Act, 1996	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Unorganised Workers' Social Security Act, 2008	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Regional Director, ESI Corporation v. Ramanuja Match Industries	Social-security legislation is beneficial, but coverage and contribution liability still turn on statutory definitions and evidence.
Organo Chemical Industries v. Union of India	Social-security defaults may attract compensatory and deterrent consequences; separate principal contribution, interest, damages and prosecution.
Jeewanlal (1929) Ltd. v. Appellate Authority	Gratuity is a statutory terminal benefit; eligibility and forfeiture require strict application of the governing text.
Municipal Corporation of Delhi v. Female Workers	Maternity protection is interpreted purposively, while present claims must be tested under the Code and current Rules.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Code on Social Security, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is review control 18 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter XI - Assessment, compliance and recovery

This chapter turns assessment, compliance and recovery into an operational control file. It covers Appointment of Inspector-cum-Facilitators and their powers, Maintenance of records, registers, returns, etc., Employer not to reduce wages, etc., Assessment and determination of dues from employer; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, employees, unorganised workers, gig/platform workers, beneficiaries and social-security authorities must identify the applicable chapter, establishment threshold and scheme.

Main obligations / rights

- Section 122: Appointment of Inspector-cum-Facilitators and their powers
- Section 123: Maintenance of records, registers, returns, etc.
- Section 124: Employer not to reduce wages, etc.
- Section 125: Assessment and determination of dues from employer
- Section 126: Appeal against order of authorised officer relating to Chapter IV

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Forms / evidence

- Applicable form/register, calculation file, approval and acknowledgement evidence
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employer risk snapshot

Highest practical risks: misclassification, missed filing/notice, unsupported calculation, incomplete records and use of the wrong Central/State instrument.

Employee / worker remedy

the substantive protection in this chapter, access to the prescribed authority/forum and a documented remedy within limitation. Confirm authority, limitation and appeal route.

Old law / transition

Map the event date and savings position against: Employees' Compensation Act, 1923; Employees' State Insurance Act, 1948; EPF and MP Act, 1952; Employment Exchanges Act, 1959; Maternity Benefit Act, 1961.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for assessment, compliance and recovery, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Rules, forms, registers, portals and due dates

Rule	Subject	Text/control status
53	Rule 53 — Form and manner for maintenance of records and registers, etc.	Source-controlled mapping

Forms and registers must be confirmed from the appended 2026 Central Rules and the live portal applicable to the appropriate Government. A form is not treated as current merely because an earlier law used the same number.

Notifications and effective-date history

Control	Required action
Enactment	Record Act number, assent and Gazette publication.
Commencement	Use the provision-specific commencement notification; the four Codes became broadly operative from 21 November 2025 subject to earlier partial commencement and corrigenda.
Central Rules	Read the applicable 2026 Central Rules from their Gazette date and verify subsequent amendments.
State instrument	Check final State Rules, authority notifications, forms and rates where the State is appropriate Government.

Old-law/new-Code concordance

Predecessor law	Transition control
Employees' Compensation Act, 1923	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Employees' State Insurance Act, 1948	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.

Predecessor law	Transition control
EPF and MP Act, 1952	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Employment Exchanges Act, 1959	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Maternity Benefit Act, 1961	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Payment of Gratuity Act, 1972	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Cine Workers Welfare Fund Act, 1981	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
BOCW Welfare Cess Act, 1996	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Unorganised Workers' Social Security Act, 2008	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Regional Director, ESI Corporation v. Ramanuja Match Industries	Social-security legislation is beneficial, but coverage and contribution liability still turn on statutory definitions and evidence.
Organo Chemical Industries v. Union of India	Social-security defaults may attract compensatory and deterrent consequences; separate principal contribution, interest, damages and prosecution.
Jeewanlal (1929) Ltd. v. Appellate Authority	Gratuity is a statutory terminal benefit; eligibility and forfeiture require strict application of the governing text.
Municipal Corporation of Delhi v. Female Workers	Maternity protection is interpreted purposively, while present claims must be tested under the Code and current Rules.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.

- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Code on Social Security, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 122 - Appointment of Inspector-cum-Facilitators and their powers?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter XII - Offences and penalties

This chapter turns offences and penalties into an operational control file. It covers Penalty for failure to pay contributions, etc., Enhanced punishment in certain cases after previous conviction, Offences by companies, Cognizance of offences; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, employees, unorganised workers, gig/platform workers, beneficiaries and social-security authorities must identify the applicable chapter, establishment threshold and scheme.

Main obligations / rights

- Section 133: Penalty for failure to pay contributions, etc.
- Section 134: Enhanced punishment in certain cases after previous conviction
- Section 135: Offences by companies
- Section 136: Cognizance of offences
- Section 137: Prior opportunity before prosecution

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Forms / evidence

- Applicable form/register, calculation file, approval and acknowledgement evidence
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employer risk snapshot

Highest practical risks: failure to separate monetary liability, prosecution, compounding and officer-in-default exposure.

Employee / worker remedy

access to the competent authority/court and protection against unsupported recovery or prosecution. Confirm authority, limitation and appeal route.

Old law / transition

Map the event date and savings position against: Employees' Compensation Act, 1923; Employees' State Insurance Act, 1948; EPF and MP Act, 1952; Employment Exchanges Act, 1959; Maternity Benefit Act, 1961.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for offences and penalties, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Rule	Subject	Text/control status
54	Rule 54 — Compounding of offences	Source-controlled mapping

Forms and registers must be confirmed from the appended 2026 Central Rules and the live portal applicable to the appropriate Government. A form is not treated as current merely because an earlier law used the same number.

Notifications and effective-date history

Control	Required action
Enactment	Record Act number, assent and Gazette publication.
Commencement	Use the provision-specific commencement notification; the four Codes became broadly operative from 21 November 2025 subject to earlier partial commencement and corrigenda.
Central Rules	Read the applicable 2026 Central Rules from their Gazette date and verify subsequent amendments.
State instrument	Check final State Rules, authority notifications, forms and rates where the State is appropriate Government.

Old-law/new-Code concordance

Predecessor law	Transition control
Employees' Compensation Act, 1923	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Employees' State Insurance Act, 1948	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
EPF and MP Act, 1952	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Employment Exchanges Act, 1959	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Maternity Benefit Act, 1961	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Payment of Gratuity Act, 1972	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.

Unorganised Workers' Social Security Act, 2008	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Regional Director, ESI Corporation v. Ramanuja Match Industries	Social-security legislation is beneficial, but coverage and contribution liability still turn on statutory definitions and evidence.
Organo Chemical Industries v. Union of India	Social-security defaults may attract compensatory and deterrent consequences; separate principal contribution, interest, damages and prosecution.
Jeewanlal (1929) Ltd. v. Appellate Authority	Gratuity is a statutory terminal benefit; eligibility and forfeiture require strict application of the governing text.
Municipal Corporation of Delhi v. Female Workers	Maternity protection is interpreted purposively, while present claims must be tested under the Code and current Rules.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Code on Social Security, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 133 - Penalty for failure to pay contributions, etc.?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 134 - Enhanced punishment in certain cases after previous conviction?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 135 - Offences by companies?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 136 - Cognizance of offences?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 137 - Prior opportunity before prosecution?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 138 - Compounding of offences?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is review control 17 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

What is review control 18 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter XIII - Employment information

This chapter turns employment information into an operational control file. It covers Reporting of vacancies to career centres, Exclusions from application of this Chapter; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered Employers, employees, unorganised workers, gig/platform workers, beneficiaries and social-security authorities must identify the applicable chapter, establishment threshold and scheme.	Main obligations / rights • Section 139: Reporting of vacancies to career centres • Section 140: Exclusions from application of this Chapter
Key thresholds / timelines • Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.	Forms / evidence • Applicable form/register, calculation file, approval and acknowledgement evidence • Classification, calculation, approval, acknowledgement and payment/filing proof
Employer risk snapshot Highest practical risks: misclassification, missed filing/notice, unsupported calculation, incomplete records and use of the wrong Central/State instrument.	Employee / worker remedy the substantive protection in this chapter, access to the prescribed authority/forum and a documented remedy within limitation. Confirm authority, limitation and appeal route.
Old law / transition Map the event date and savings position against: Employees' Compensation Act, 1923; Employees' State Insurance Act, 1948; EPF and MP Act, 1952; Employment Exchanges Act, 1959; Maternity Benefit Act, 1961.	Five-point professional checklist • Freeze the event date, establishment, location and person/worker classification. • Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government. • Reperform the calculation or decision test and document every exception or approval. • Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence. • Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for employment information, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Applicable Central Rules immediately below the provision

No direct Central Rule is mapped. Check general procedural Rules, State Rules and later notifications.

Practical example

A multi-location employer prepares a legal classification memo, identifies the appropriate Government, maps the operative provision and Rule, records the decision owner and retains the documents needed to prove compliance during inspection or litigation.

Controls and evidence

- Employer: assign owner, configure system and retain approval/payment proof.
- Employee/worker: retain contract, attendance, wage/benefit proof and communication.
- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Identify the substantive default first, then separately map arrears or benefit, interest/damages, administrative penalty, prosecution, compounding, company/officer liability, forum, appeal and limitation. Do not infer a remedy from the heading alone.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Regional Director, ESI Corporation v. Ramanuja Match Industries	Social-security legislation is beneficial, but coverage and contribution liability still turn on statutory definitions and evidence.
Organo Chemical Industries v. Union of India	Social-security defaults may attract compensatory and deterrent consequences; separate principal contribution, interest, damages and prosecution.
Jeewanlal (1929) Ltd. v. Appellate Authority	Gratuity is a statutory terminal benefit; eligibility and forfeiture require strict application of the governing text.
Municipal Corporation of Delhi v. Female Workers	Maternity protection is interpreted purposively, while present claims must be tested under the Code and current Rules.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.

- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of Code on Social Security, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 141 - Social Security Fund?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

OSHWC Code, 2020 — Chapter I - Preliminary

This chapter turns preliminary into an operational control file. It covers Short title, commencement and application, Definitions; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered Employers, occupiers, contractors, principal employers, workers and sector-specific establishments must identify the establishment type, worker category and appropriate Government.	Main obligations / rights • Section 1: Short title, commencement and application • Section 2: Definitions
Key thresholds / timelines • Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.	Forms / evidence • Applicable form/register, calculation file, approval and acknowledgement evidence • Classification, calculation, approval, acknowledgement and payment/filing proof
Employer risk snapshot Highest practical risks: misclassification, missed filing/notice, unsupported calculation, incomplete records and use of the wrong Central/State instrument.	Employee / worker remedy the substantive protection in this chapter, access to the prescribed authority/forum and a documented remedy within limitation. Confirm authority, limitation and appeal route.
Old law / transition Map the event date and savings position against: Factories Act, 1948; Plantations Labour Act, 1951; Mines Act, 1952; Working Journalists laws; Motor Transport Workers Act, 1961.	Five-point professional checklist • Freeze the event date, establishment, location and person/worker classification. • Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government. • Reperform the calculation or decision test and document every exception or approval. • Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence. • Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for preliminary, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Consumer Education and Research Centre v. Union of India	Worker health and safety are connected with dignity and life; statutory standards should be treated as minimum controls.
J.K. Industries Ltd. v. Chief Inspector of Factories	Responsibility attaches to the statutory person in control; internal delegation does not erase legal accountability.
Vellore Citizens Welfare Forum v. Union of India	Preventive and precautionary controls are relevant where industrial risk affects workers and surrounding communities.
Gammon India Ltd. v. Union of India	Construction-worker welfare and cess legislation is beneficial and must be applied consistently with the charging and machinery provisions.

State-law variation alerts

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter II - Registration

This chapter turns registration into an operational control file. It covers Registration of certain establishments, Appeal, Notice by employer of commencement and cessation of operation; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, occupiers, contractors, principal employers, workers and sector-specific establishments must identify the establishment type, worker category and appropriate Government.

Main obligations / rights

- Section 3: Registration of certain establishments
- Section 4: Appeal
- Section 5: Notice by employer of commencement and cessation of operation

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Forms / evidence

- Notice
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employer risk snapshot

Highest practical risks: operating without registration, using stale particulars or missing amendment/closure filings.

Employee / worker remedy

the substantive protection in this chapter, access to the prescribed authority/forum and a documented remedy within limitation. Confirm authority, limitation and appeal route.

Old law / transition

Map the event date and savings position against: Factories Act, 1948; Plantations Labour Act, 1951; Mines Act, 1952; Working Journalists laws; Motor Transport Workers Act, 1961.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for registration, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

FININ2MIN LEGAL FLOW

OSHC Code, 2020 — Registration

Law → trigger → procedure → evidence. Confirm the operative Central/State instrument on the event date.

Finin2min decision flow — identify the law, complete the statutory process and preserve evidence.

Publication-source status: The chapter contains the complete analytical and Rule-mapping layer. For the four parent Codes, the exact current Act text is displayed through the official India Code PDF/section viewer. It is not re-labelled as locally embedded text where the retained source file is unavailable. This preserves legal honesty while the official text is retained as the controlling source.

Section 3: Registration of certain establishments

Current statutory text

Current statutory text source control. The exact consolidated provision is displayed from the official source below. The analytical text after it is not a substitute for the signed Gazette. For an offline professional file, retain the official PDF and the event-date commencement instrument.

Open section 3 in the official source. Statutory title: Registration of certain establishments.

Finin2min clause-by-clause decode

1. This page does not replace the statutory text. It separates the operative legal transaction into controls so that each subsection, proviso, exception and delegated instrument can be checked against the official India Code source before use.
2. Test the establishment, activity, worker-count and sector thresholds that trigger registration or licensing.
3. Confirm whether the establishment, contractor or premises falls within the relevant threshold and jurisdiction.
4. Identify the competent registering or licensing officer and the Central/State jurisdiction before filing.
5. Use the prescribed electronic form and attach identity, address, constitution and work-order evidence.
6. Map the prescribed application, attachments, fee, security, validity, renewal and amendment events.
7. Track completeness, statutory processing period, deemed outcome where expressly provided, and portal acknowledgement.
8. Keep the certificate or licence displayed and reconcile contractor, migrant-worker and location data to the approved particulars.
9. Update material changes within the prescribed period; registration or licence is not transferable unless law says otherwise.

10. Track refusal, suspension, revocation, appeal, limitation and the consequences of operating without valid authority.

Applicable Central Rules immediately below the provision

Central Rule 3: Rule 3 — Application for registration

Rule mapping is retained; read the official 2026 Gazette for the exact sub-rule text and forms.

Practical example

The establishment creates a trigger ticket when coverage changes, assigns the authorised signatory, uploads the prescribed attachments, captures the acknowledgement and retains a versioned copy of the form, payment and approval.

Controls and evidence

- Employer: assign owner, configure system and retain approval/payment proof.
- Employee/worker: retain contract, attendance, wage/benefit proof and communication.
- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Identify the substantive default first, then separately map arrears or benefit, interest/damages, administrative penalty, prosecution, compounding, company/officer liability, forum, appeal and limitation. Do not infer a remedy from the heading alone.

Mapped Rules: Rule 3 | Official source: section 3.

4. Convert each statutory condition and proviso into an assigned action with a clear deadline.
5. Break the provision into trigger, actor, action, timing, evidence and consequence before configuring the process.
6. Map the enabling Rule, form, Schedule, authority and any sector-specific notification.
7. Read the corresponding Central Rule, prescribed form, Schedule and notified authority together.
8. Preserve the decision memo, worker communication, register, portal acknowledgement and payment or inspection evidence.
9. Create a named control owner and maker-checker evidence trail.
10. Record exceptions, non-compliance consequences, remedy, appeal forum and limitation period.

Applicable Central Rules immediately below the provision

Central Rule 3: Rule 3 — Application for registration

Rule mapping is retained; read the official 2026 Gazette for the exact sub-rule text and forms.

Practical example

A multi-location employer prepares a legal classification memo, identifies the appropriate Government, maps the operative provision and Rule, records the decision owner and retains the documents needed to prove compliance during inspection or litigation.

Controls and evidence

- Employer: assign owner, configure system and retain approval/payment proof.
- Employee/worker: retain contract, attendance, wage/benefit proof and communication.
- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Rules, forms, registers, portals and due dates

Rule	Subject	Text/control status
3	Rule 3 — Application for registration	Source-controlled mapping
4	Rule 4 — Notice of commencement and cessation of operation	Source-controlled mapping

Forms and registers must be confirmed from the appended 2026 Central Rules and the live portal applicable to the appropriate Government. A form is not treated as current merely because an earlier law used the same number.

Notifications and effective-date history

Control	Required action
Enactment	Record Act number, assent and Gazette publication.
Commencement	Use the provision-specific commencement notification; the four Codes became broadly operative from 21 November 2025 subject to earlier partial commencement and corrigenda.
Central Rules	Read the applicable 2026 Central Rules from their Gazette date and verify subsequent amendments.
State instrument	

Check final State Rules, authority notifications, forms and rates where the State is appropriate Government.

Old-law/new-Code concordance

Predecessor law	Transition control
Factories Act, 1948	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Plantations Labour Act, 1951	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Mines Act, 1952	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Working Journalists laws	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Motor Transport Workers Act, 1961	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Beedi and Cigar Workers Act, 1966	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Contract Labour Act, 1970	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Inter-State Migrant Workmen Act, 1979	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Cine-Workers Act, 1981	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Dock Workers Act, 1986	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
BOCW Act, 1996	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Consumer Education and Research Centre v. Union of India	Worker health and safety are connected with dignity and life; statutory standards should be treated as minimum controls.
J.K. Industries Ltd. v. Chief Inspector of Factories	Responsibility attaches to the statutory person in control; internal delegation does not erase legal accountability.
Vellore Citizens Welfare Forum v. Union of India	Preventive and precautionary controls are relevant where industrial risk affects workers and surrounding communities.
Gammon India Ltd. v. Union of India	Construction-worker welfare and cess legislation is beneficial and must be applied consistently with the charging and machinery provisions.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of OSHWC Code, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 3 - Registration of certain establishments?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 4 - Appeal?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 5 - Notice by employer of commencement and cessation of operation?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is review control 14 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

What is review control 15 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

Rules, forms, registers, portals and due dates

Rule	Subject	Text/control status
5	Rule 5 — Annual health examination of employees	Source-controlled mapping
6	Rule 6 — Letter of appointment to employee	Source-controlled mapping
7	Rule 7 — Notice of accidents and dangerous occurrences	Source-controlled mapping
8	Rule 8 — Notice of disease	Source-controlled mapping
9	Rule 9 — Duties of employee	Source-controlled mapping
10	Rule 10 — Rights of employee	Source-controlled mapping

Forms and registers must be confirmed from the appended 2026 Central Rules and the live portal applicable to the appropriate Government. A form is not treated as current merely because an earlier law used the same number.

Notifications and effective-date history

Control	Required action
Enactment	Record Act number, assent and Gazette publication.
Commencement	Use the provision-specific commencement notification; the four Codes became broadly operative from 21 November 2025 subject to earlier partial commencement and corrigenda.
Central Rules	Read the applicable 2026 Central Rules from their Gazette date and verify subsequent amendments.
State instrument	

Check final State Rules, authority notifications, forms and rates where the State is appropriate Government.

Old-law/new-Code concordance

Predecessor law	Transition control
Factories Act, 1948	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Plantations Labour Act, 1951	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Mines Act, 1952	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Working Journalists laws	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Motor Transport Workers Act, 1961	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Beedi and Cigar Workers Act, 1966	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Contract Labour Act, 1970	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Inter-State Migrant Workmen Act, 1979	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Cine-Workers Act, 1981	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
Dock Workers Act, 1986	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.
BOCW Act, 1996	Classify the event date, accrued right, saved Rule/notification and pending proceeding before moving to the Code.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Consumer Education and Research Centre v. Union of India	Worker health and safety are connected with dignity and life; statutory standards should be treated as minimum controls.
J.K. Industries Ltd. v. Chief Inspector of Factories	Responsibility attaches to the statutory person in control; internal delegation does not erase legal accountability.
Vellore Citizens Welfare Forum v. Union of India	Preventive and precautionary controls are relevant where industrial risk affects workers and surrounding communities.
Gammon India Ltd. v. Union of India	Construction-worker welfare and cess legislation is beneficial and must be applied consistently with the charging and machinery provisions.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of OSHWC Code, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 6 - Duties of employer?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 7 - Duties and responsibilities of owner, agent and manager in relation to mine?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 8 - Duties of designers, manufacturers, importers or suppliers?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 9 - Duties of architect, project engineer and designer?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 10 - Notice of certain accident?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 11 - Notice of certain dangerous occurrences?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 12 - Notice of certain diseases?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 13 - Duties of employee?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter IV - Occupational safety and health

This chapter turns occupational safety and health into an operational control file. It covers National Occupational Safety and Health Advisory Board, State Occupational Safety and Health Advisory Board, Occupational safety and health standards, Research related activities; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, occupiers, contractors, principal employers, workers and sector-specific establishments must identify the establishment type, worker category and appropriate Government.

Main obligations / rights

- Section 16: National Occupational Safety and Health Advisory Board
- Section 17: State Occupational Safety and Health Advisory Board
- Section 18: Occupational safety and health standards
- Section 19: Research related activities
- Section 20: Safety and occupational health surveys

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Forms / evidence

- Applicable form/register, calculation file, approval and acknowledgement evidence
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employer risk snapshot

Highest practical risks: risk-assessment, training, protective-equipment, reporting and emergency-control failures.

Employee / worker remedy

a safe workplace, information/training, protective measures and complaint/reporting routes. Confirm authority, limitation and appeal route.

Old law / transition

Map the event date and savings position against: Factories Act, 1948; Plantations Labour Act, 1951; Mines Act, 1952; Working Journalists laws; Motor Transport Workers Act, 1961.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for occupational safety and health, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Open section 20 in the official source. Statutory title: Safety and occupational health surveys.

Finin2min clause-by-clause decode

1. This page does not replace the statutory text. It separates the operative legal transaction into controls so that each subsection, proviso, exception and delegated instrument can be checked against the official India Code source before use.
2. Identify the hazard, exposed worker group, process and statutory duty holder before selecting the control.
3. Verify the officer's jurisdiction, appointment and the statutory purpose of the visit, sample, survey or inquiry.
4. Apply the prescribed engineering, medical, supervision, training, protective-equipment and emergency requirements.
5. Nominate an authorised site contact while preserving worker access and non-retaliation rights.
6. Map the relevant Rule, Schedule, standard, licence condition and sector-specific authority direction.
7. Provide accurate documents and facilities; record items taken, samples sealed and statements made.
8. Report notifiable accidents, dangerous occurrences or diseases within the applicable time and preserve the incident file.
9. Assess improvement, prohibition or inquiry directions immediately and diarise appeal or compliance periods.

10. Close root-cause actions and separately assess compensation, employment protection, inspection and penal consequences.

Applicable Central Rules immediately below the provision

No direct Central Rule is mapped. Check general procedural Rules, State Rules and later notifications.

Practical example

Following a workplace event, the incident controller first protects life and the site, then completes statutory reporting, evidence preservation, medical documentation, contractor allocation and root-cause action without waiting for a compensation dispute.

Controls and evidence

- Employer: assign owner, configure system and retain approval/payment proof.
- Employee/worker: retain contract, attendance, wage/benefit proof and communication.
- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Identify the substantive default first, then separately map arrears or benefit, interest/damages, administrative penalty, prosecution, compounding, company/officer liability, forum, appeal and limitation. Do not infer a remedy from the heading alone.

Mapped Rules: No direct Central Rule mapped in the repository concordance | Official source: section 20.

2. Classify the principal employer, contractor, worksite, worker category and inter-State movement facts.
3. Identify migrant status using recruitment, residence and deployment facts rather than contractor labels alone.
4. Test registration/licensing, threshold, appointment, journey allowance, displacement or other worker entitlement triggers.
5. Capture origin, destination, emergency contact and skills information with privacy safeguards.
6. Reconcile attendance, wage, social-security, accommodation, safety and contractor invoice records worker by worker.
7. Provide prescribed facilities and journey allowance without unlawful deduction.
8. Create a principal-employer recovery file without treating contractual indemnity as a substitute for statutory performance.
9. Display and communicate helpline/grievance access in a language understood by workers.

10. Map inspection, claim, recovery, appeal and penal consequences for both principal employer and contractor.

Applicable Central Rules immediately below the provision

Central Rule 13: Rule 13 — Collection of statistics and portal for inter-State migrant workers

Rule mapping is retained; read the official 2026 Gazette for the exact sub-rule text and forms.

Practical example

A multi-location employer prepares a legal classification memo, identifies the appropriate Government, maps the operative provision and Rule, records the decision owner and retains the documents needed to prove compliance during inspection or litigation.

Controls and evidence

- Employer: assign owner, configure system and retain approval/payment proof.
- Employee/worker: retain contract, attendance, wage/benefit proof and communication.
- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Consumer Education and Research Centre v. Union of India	Worker health and safety are connected with dignity and life; statutory standards should be treated as minimum controls.
J.K. Industries Ltd. v. Chief Inspector of Factories	Responsibility attaches to the statutory person in control; internal delegation does not erase legal accountability.
Vellore Citizens Welfare Forum v. Union of India	Preventive and precautionary controls are relevant where industrial risk affects workers and surrounding communities.
Gammon India Ltd. v. Union of India	Construction-worker welfare and cess legislation is beneficial and must be applied consistently with the charging and machinery provisions.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.

- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of OSHWC Code, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter V - Health, safety and working conditions

This chapter turns health, safety and working conditions into an operational control file. It covers Responsibility of employer for maintaining health, safety and working conditions; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered Employers, occupiers, contractors, principal employers, workers and sector-specific establishments must identify the establishment type, worker category and appropriate Government.	Main obligations / rights • Section 23: Responsibility of employer for maintaining health, safety and working conditions
Key thresholds / timelines • Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.	Forms / evidence • Applicable form/register, calculation file, approval and acknowledgement evidence • Classification, calculation, approval, acknowledgement and payment/filing proof
Employer risk snapshot Highest practical risks: risk-assessment, training, protective-equipment, reporting and emergency-control failures.	Employee / worker remedy a safe workplace, information/training, protective measures and complaint/reporting routes. Confirm authority, limitation and appeal route.
Old law / transition Map the event date and savings position against: Factories Act, 1948; Plantations Labour Act, 1951; Mines Act, 1952; Working Journalists laws; Motor Transport Workers Act, 1961.	Five-point professional checklist • Freeze the event date, establishment, location and person/worker classification. • Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government. • Reperform the calculation or decision test and document every exception or approval. • Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence. • Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for health, safety and working conditions, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Consumer Education and Research Centre v. Union of India	Worker health and safety are connected with dignity and life; statutory standards should be treated as minimum controls.
J.K. Industries Ltd. v. Chief Inspector of Factories	Responsibility attaches to the statutory person in control; internal delegation does not erase legal accountability.
Vellore Citizens Welfare Forum v. Union of India	Preventive and precautionary controls are relevant where industrial risk affects workers and surrounding communities.
Gammon India Ltd. v. Union of India	Construction-worker welfare and cess legislation is beneficial and must be applied consistently with the charging and machinery provisions.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of OSHWC Code, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 23 - Responsibility of employer for maintaining health, safety and working conditions?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is review control 12 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

What is review control 13 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

What is review control 14 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

What is review control 15 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter VI - Welfare

This chapter turns welfare into an operational control file. It covers Welfare facilities in the establishment, etc.; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered Employers, occupiers, contractors, principal employers, workers and sector-specific establishments must identify the establishment type, worker category and appropriate Government.	Main obligations / rights • Section 24: Welfare facilities in the establishment, etc.
Key thresholds / timelines • Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.	Forms / evidence • Applicable form/register, calculation file, approval and acknowledgement evidence • Classification, calculation, approval, acknowledgement and payment/filing proof
Employer risk snapshot Highest practical risks: misclassification, missed filing/notice, unsupported calculation, incomplete records and use of the wrong Central/State instrument.	Employee / worker remedy the substantive protection in this chapter, access to the prescribed authority/forum and a documented remedy within limitation. Confirm authority, limitation and appeal route.
Old law / transition Map the event date and savings position against: Factories Act, 1948; Plantations Labour Act, 1951; Mines Act, 1952; Working Journalists laws; Motor Transport Workers Act, 1961.	Five-point professional checklist • Freeze the event date, establishment, location and person/worker classification. • Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government. • Reperform the calculation or decision test and document every exception or approval. • Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence. • Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for welfare, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

1. This page does not replace the statutory text. It separates the operative legal transaction into controls so that each subsection, proviso, exception and delegated instrument can be checked against the official India Code source before use.
2. Classify the worker, shift, establishment and State/Central sphere before applying hours or welfare conditions.
3. Determine the applicable worker threshold, sector and gender/age-related requirement.
4. Map daily/weekly limits, spread-over, rest, consent, transport, security, leave and overtime requirements as applicable.
5. Provide the facility at the required location, capacity, accessibility and operating hours.
6. Configure roster, attendance and payroll controls so operational scheduling cannot bypass the statutory condition.
7. Appoint trained personnel and maintain supplies, hygiene and emergency readiness.
8. Retain worker consent/communication, risk assessment, facility records, inspections and payment evidence.
9. Do not recover prohibited costs from workers; document service contracts and inspections.

10. Provide a complaint and correction route and test State variations, exemption conditions and consequences.

Practical example

A multi-location employer prepares a legal classification memo, identifies the appropriate Government, maps the operative provision and Rule, records the decision owner and retains the documents needed to prove compliance during inspection or litigation.

Controls and evidence

- Employer: assign owner, configure system and retain approval/payment proof.
- Employee/worker: retain contract, attendance, wage/benefit proof and communication.
- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Identify the substantive default first, then separately map arrears or benefit, interest/damages, administrative penalty, prosecution, compounding, company/officer liability, forum, appeal and limitation. Do not infer a remedy from the heading alone.

Mapped Rules: Rule 49, Rule 50, Rule 51, Rule 52, Rule 53, Rule 54, Rule 55, Rule 56, Rule 57, Rule 58, Rule 59, Rule 60, Rule 61, Rule 62, Rule 63 | Official source: section 24.

Practical example

A multi-location employer prepares a legal classification memo, identifies the appropriate Government, maps the operative provision and Rule, records the decision owner and retains the documents needed to prove compliance during inspection or litigation.

Controls and evidence

- Employer: assign owner, configure system and retain approval/payment proof.
- Employee/worker: retain contract, attendance, wage/benefit proof and communication.
- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Identify the substantive default first, then separately map arrears or benefit, interest/damages, administrative penalty, prosecution, compounding, company/officer liability, forum, appeal and limitation. Do not infer a remedy from the heading alone.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Consumer Education and Research Centre v. Union of India	Worker health and safety are connected with dignity and life; statutory standards should be treated as minimum controls.
J.K. Industries Ltd. v. Chief Inspector of Factories	Responsibility attaches to the statutory person in control; internal delegation does not erase legal accountability.
Vellore Citizens Welfare Forum v. Union of India	Preventive and precautionary controls are relevant where industrial risk affects workers and surrounding communities.
Gammon India Ltd. v. Union of India	Construction-worker welfare and cess legislation is beneficial and must be applied consistently with the charging and machinery provisions.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.

- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of OSHWC Code, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter VIII - Registers and returns

This chapter turns registers and returns into an operational control file. It covers Maintenance of registers, records and filing of returns; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered Employers, occupiers, contractors, principal employers, workers and sector-specific establishments must identify the establishment type, worker category and appropriate Government.	Main obligations / rights • Section 33: Maintenance of registers, records and filing of returns
Key thresholds / timelines • Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.	Forms / evidence • Register • Return • Notice • Classification, calculation, approval, acknowledgement and payment/filing proof
Employer risk snapshot Highest practical risks: misclassification, missed filing/notice, unsupported calculation, incomplete records and use of the wrong Central/State instrument.	Employee / worker remedy the substantive protection in this chapter, access to the prescribed authority/forum and a documented remedy within limitation. Confirm authority, limitation and appeal route.
Old law / transition Map the event date and savings position against: Factories Act, 1948; Plantations Labour Act, 1951; Mines Act, 1952; Working Journalists laws; Motor Transport Workers Act, 1961.	Five-point professional checklist • Freeze the event date, establishment, location and person/worker classification. • Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government. • Reperform the calculation or decision test and document every exception or approval. • Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence. • Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for registers and returns, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 33 - Maintenance of registers, records and filing of returns?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is review control 12 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

What is review control 13 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

What is review control 14 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

What is review control 15 for this chapter?

Confirm source currency, State variation, internal ownership, documentary proof and the next statutory deadline before closing the compliance ticket.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter IX - Inspector and authority

This chapter turns inspector and authority into an operational control file. It covers Appointment of Inspector-cum-Facilitators, Powers of Inspector-cum-Facilitators, Powers and duties of District Magistrate, Third party audit and certification; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, occupiers, contractors, principal employers, workers and sector-specific establishments must identify the establishment type, worker category and appropriate Government.

Main obligations / rights

- Section 34: Appointment of Inspector-cum-Facilitators
- Section 35: Powers of Inspector-cum-Facilitators
- Section 36: Powers and duties of District Magistrate
- Section 37: Third party audit and certification
- Section 38: Special powers of Inspector-cum-Facilitator in respect of factory, mines, dock work and building or other construction work

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Forms / evidence

- Applicable form/register, calculation file, approval and acknowledgement evidence
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employer risk snapshot

Highest practical risks: misclassification, missed filing/notice, unsupported calculation, incomplete records and use of the wrong Central/State instrument.

Employee / worker remedy

the substantive protection in this chapter, access to the prescribed authority/forum and a documented remedy within limitation. Confirm authority, limitation and appeal route.

Old law / transition

Map the event date and savings position against: Factories Act, 1948; Plantations Labour Act, 1951; Mines Act, 1952; Working Journalists laws; Motor Transport Workers Act, 1961.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for inspector and authority, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Consumer Education and Research Centre v. Union of India	Worker health and safety are connected with dignity and life; statutory standards should be treated as minimum controls.
J.K. Industries Ltd. v. Chief Inspector of Factories	Responsibility attaches to the statutory person in control; internal delegation does not erase legal accountability.
Vellore Citizens Welfare Forum v. Union of India	Preventive and precautionary controls are relevant where industrial risk affects workers and surrounding communities.
Gammon India Ltd. v. Union of India	Construction-worker welfare and cess legislation is beneficial and must be applied consistently with the charging and machinery provisions.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of OSHWC Code, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 34 - Appointment of Inspector-cum-Facilitators?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 35 - Powers of Inspector-cum-Facilitators?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 37 - Third party audit and certification?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 38 - Special powers of Inspector-cum-Facilitator in respect of factory, mines, dock work and building or other construction work?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 39 - Secrecy of information by Chief Inspector-cum-Facilitator or Inspector-cum-Facilitator, etc.?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 40 - Facilities to be afforded to Inspector-cum-Facilitator?

What is the operational focus of section 41 - Powers of special officer to enter, measure, etc., in relation to mine?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter X - Employment of women

This chapter turns employment of women into an operational control file. It covers Employment of women, Adequate safety of employment of women in dangerous operation; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered Employers, occupiers, contractors, principal employers, workers and sector-specific establishments must identify the establishment type, worker category and appropriate Government.	Main obligations / rights • Section 43: Employment of women • Section 44: Adequate safety of employment of women in dangerous operation
Key thresholds / timelines • Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.	Forms / evidence • Applicable form/register, calculation file, approval and acknowledgement evidence • Classification, calculation, approval, acknowledgement and payment/filing proof
Employer risk snapshot Highest practical risks: unsafe deployment, consent/conditions, night-shift safeguards or discrimination.	Employee / worker remedy equal opportunity, safe working conditions and protection against unlawful discrimination or unsafe deployment. Confirm authority, limitation and appeal route.
Old law / transition Map the event date and savings position against: Factories Act, 1948; Plantations Labour Act, 1951; Mines Act, 1952; Working Journalists laws; Motor Transport Workers Act, 1961.	Five-point professional checklist • Freeze the event date, establishment, location and person/worker classification. • Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government. • Reperform the calculation or decision test and document every exception or approval. • Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence. • Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for employment of women, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

FININ2MIN LEGAL FLOW

OSHC Code, 2020 — Employment of women

Law → trigger → procedure → evidence. Confirm the operative Central/State instrument on the event date.

Finin2min decision flow — identify the law, complete the statutory process and preserve evidence.

Publication-source status: The chapter contains the complete analytical and Rule-mapping layer. For the four parent Codes, the exact current Act text is displayed through the official India Code PDF/section viewer. It is not re-labelled as locally embedded text where the retained source file is unavailable. This preserves legal honesty while the official text is retained as the controlling source.

Open section 43 in the official source. Statutory title: Employment of women.

Finin2min clause-by-clause decode

1. This page does not replace the statutory text. It separates the operative legal transaction into controls so that each subsection, proviso, exception and delegated instrument can be checked against the official India Code source before use.
2. Classify the worker, shift, establishment and State/Central sphere before applying hours or welfare conditions.
3. Do not use sex-based exclusion unless a valid dangerous-operation restriction or risk-based legal condition applies.
4. Map daily/weekly limits, spread-over, rest, consent, transport, security, leave and overtime requirements as applicable.
5. For work before 6 a.m. or after 7 p.m., obtain consent and satisfy prescribed transport, security, supervision, welfare and grievance conditions.
6. Configure roster, attendance and payroll controls so operational scheduling cannot bypass the statutory condition.
7. Complete task-specific risk assessment, emergency response and harassment-prevention integration.
8. Retain worker consent/communication, risk assessment, facility records, inspections and payment evidence.
9. Ensure equal access to facilities, training, protective equipment and reporting channels.

10. Provide a complaint and correction route and test State variations, exemption conditions and consequences.

Applicable Central Rules immediately below the provision

Central Rule 83: Rule 83 — Employment of Women in establishment

Rule mapping is retained; read the official 2026 Gazette for the exact sub-rule text and forms.

Practical example

A multi-location employer prepares a legal classification memo, identifies the appropriate Government, maps the operative provision and Rule, records the decision owner and retains the documents needed to prove compliance during inspection or litigation.

Controls and evidence

- Employer: assign owner, configure system and retain approval/payment proof.
- Employee/worker: retain contract, attendance, wage/benefit proof and communication.
- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Identify the substantive default first, then separately map arrears or benefit, interest/damages, administrative penalty, prosecution, compounding, company/officer liability, forum, appeal and limitation. Do not infer a remedy from the heading alone.

Mapped Rules: Rule 83 | Official source: section 43.

3. Do not use sex-based exclusion unless a valid dangerous-operation restriction or risk-based legal condition applies.
4. Apply the prescribed engineering, medical, supervision, training, protective-equipment and emergency requirements.
5. For work before 6 a.m. or after 7 p.m., obtain consent and satisfy prescribed transport, security, supervision, welfare and grievance conditions.
6. Map the relevant Rule, Schedule, standard, licence condition and sector-specific authority direction.
7. Complete task-specific risk assessment, emergency response and harassment-prevention integration.
8. Report notifiable accidents, dangerous occurrences or diseases within the applicable time and preserve the incident file.

9. Ensure equal access to facilities, training, protective equipment and reporting channels.
10. Close root-cause actions and separately assess compensation, employment protection, inspection and penal consequences.

Applicable Central Rules immediately below the provision

Central Rule 84: Rule 84 — Adequate safety of employment of women in dangerous operations

Rule mapping is retained; read the official 2026 Gazette for the exact sub-rule text and forms.

Practical example

Following a workplace event, the incident controller first protects life and the site, then completes statutory reporting, evidence preservation, medical documentation, contractor allocation and root-cause action without waiting for a compensation dispute.

Controls and evidence

- Employer: assign owner, configure system and retain approval/payment proof.
- Employee/worker: retain contract, attendance, wage/benefit proof and communication.
- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Identify the substantive default first, then separately map arrears or benefit, interest/damages, administrative penalty, prosecution, compounding, company/officer liability, forum, appeal and limitation. Do not infer a remedy from the heading alone.

Forms and registers must be confirmed from the appended 2026 Central Rules and the live portal applicable to the appropriate Government. A form is not treated as current merely because an earlier law used the same number.

Notifications and effective-date history

Control	Required action
Enactment	Record Act number, assent and Gazette publication.
Commencement	Use the provision-specific commencement notification; the four Codes became broadly operative from 21 November 2025 subject to earlier partial commencement and corrigenda.
Central Rules	Read the applicable 2026 Central Rules from their Gazette date and verify subsequent amendments.
State instrument	Check final State Rules, authority notifications, forms and rates where the State is appropriate Government.

Practical calculations and control file

Calculation sequence

1. Freeze the employee/worker population and event date.
2. Apply the statutory wage/benefit base and notified threshold.
3. Reconcile attendance, service, payroll and contractor records.
4. Calculate principal amount, interest/damages and any statutory compensation separately.
5. Obtain legal/payroll approval and retain the versioned worksheet.

Three-owner sign-off

- **Employer/HR:** facts, classification, communication and workflow.
- **Employee/worker:** notice, records, nomination/claim and acknowledgement.
- **Professional:** source, formula, forum, limitation and evidence reconciliation.

Binding and highly relevant case-law principles

Older cases are included for principles only. Their continued application must be tested against the current Code wording, repeal-and-savings clause and later judgments.

Decision	Principle and present-use caution
Consumer Education and Research Centre v. Union of India	Worker health and safety are connected with dignity and life; statutory standards should be treated as minimum controls.
J.K. Industries Ltd. v. Chief Inspector of Factories	Responsibility attaches to the statutory person in control; internal delegation does not erase legal accountability.
Vellore Citizens Welfare Forum v. Union of India	Preventive and precautionary controls are relevant where industrial risk affects workers and surrounding communities.
Gammon India Ltd. v. Union of India	Construction-worker welfare and cess legislation is beneficial and must be applied consistently with the charging and machinery provisions.

State-law variation alerts

- Confirm whether the Central or State Government is the appropriate Government.
- Central Rules do not automatically displace valid State Rules, rates, registers, authorities or portal procedures.
- Minimum-wage rates, holidays, working-hours permissions, licences and local welfare obligations require State-specific verification.
- Record Gazette number, effective date and supersession status in the location compliance register.

Finin2min Q&A

Which law and version should be applied?

Use the current text of OSHWC Code, 2020, the commencement notification, the applicable Central or State Rules and any later instrument effective on the event date.

How is the appropriate Government identified?

Classify ownership/control, sector, establishment and contractor relationship before selecting the Central or State authority.

Can a company policy override the statutory protection?

No. A policy may improve a benefit or control, but it cannot contract out of a mandatory statutory floor.

What evidence should be retained?

Retain the classification memo, source instrument, form/portal record, calculation, approval, employee communication, acknowledgement and payment or authority proof.

Do the Central Rules apply to every establishment?

No. They govern the Central sphere. State Rules and State notifications must be checked where the State is the appropriate Government.

How should a historical event be tested?

Apply the law and subordinate instrument effective on the event date, then use the repeal-and-savings provision for pending rights and proceedings.

What happens when portal practice conflicts with the statute?

Record the conflict, follow the higher legal instrument, seek authority clarification where necessary and preserve screenshots and correspondence.

Can criminal and monetary consequences arise together?

They may. Separate wages/benefits, interest, damages, civil penalty, prosecution, compounding and director/officer liability.

Is a contractor arrangement enough to shift liability?

No. Principal-employer and contractor liabilities depend on the specific provision and facts; the contract should allocate evidence and recovery without diluting worker rights.

What is the first professional review step?

Freeze the event date and facts, identify the applicable provision, then map Rules, forms, notification status, authority, limitation and evidence.

What is the operational focus of section 45 - Applicability of this Part?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 46 - Appointment of designated authority?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 47 - Licensing of contractors?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 48 - Procedure for issue or renewal of licence?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 49 - No fees or commission or any cost to workers?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 50 - Information regarding work order to be given to the appropriate Government?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 51 - Revocation, suspension and amendment of licence?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

What is the operational focus of section 52 - Appeal?

The section must be decomposed into actor, trigger, threshold, procedure, exception, consequence and evidence. Read the full official text and the mapped Rules before applying the Finin2min control summary.

FININ2MIN SUMMARY - CHAPTER IN 2 MINUTES

Chapter XII - Inter-State migrant workers

This chapter turns inter-state migrant workers into an operational control file. It covers General penalty for offences, Punishment for causing obstruction to Chief Inspector-cum-Facilitator or Inspector-cum-Facilitator, etc., Penalty for non-maintenance of register, records and non-filing of returns, etc., Punishment for contravention of certain provisions; the practical sequence is to classify coverage and event date, apply the provision and mapped Rule, complete the form/register, calculate the entitlement or exposure, and retain evidence for inspection, claim or appeal.

Who is covered

Employers, occupiers, contractors, principal employers, workers and sector-specific establishments must identify the establishment type, worker category and appropriate Government.

Main obligations / rights

- Section 94: General penalty for offences
- Section 95: Punishment for causing obstruction to Chief Inspector-cum-Facilitator or Inspector-cum-Facilitator, etc.
- Section 96: Penalty for non-maintenance of register, records and non-filing of returns, etc.
- Section 97: Punishment for contravention of certain provisions
- Section 98: Punishment for falsification of records, etc.

Key thresholds / timelines

- Use only the threshold, rate and limitation period effective on the event date; verify the Central/State instrument before acting.

Forms / evidence

- Applicable form/register, calculation file, approval and acknowledgement evidence
- Classification, calculation, approval, acknowledgement and payment/filing proof

Employer risk snapshot

Highest practical risks: journey allowance, displacement, registration, portability or record failures.

Employee / worker remedy

registration, portability, journey/displacement protections and access to grievance or authority routes. Confirm authority, limitation and appeal route.

Old law / transition

Map the event date and savings position against: Factories Act, 1948; Plantations Labour Act, 1951; Mines Act, 1952; Working Journalists laws; Motor Transport Workers Act, 1961.

Five-point professional checklist

- Freeze the event date, establishment, location and person/worker classification.
- Identify the controlling section/paragraph, mapped Rule, notification and appropriate Government.
- Reperform the calculation or decision test and document every exception or approval.
- Complete the prescribed form/register/portal step and retain acknowledgement, payment and communication evidence.
- Record the remedy, forum, limitation, appeal path and State variation before sign-off.

Finin2min takeaway: for inter-state migrant workers, the defensible answer is not a policy label - it is the event-date law, the mapped procedure, the calculation and a complete evidence trail.

1. This page does not replace the statutory text. It separates the operative legal transaction into controls so that each subsection, proviso, exception and delegated instrument can be checked against the official India Code source before use.
2. Identify the exact contravention, responsible person, establishment and event date; do not combine distinct offences.
3. Identify the exact contravention, responsible legal person, continuing-offence period and consequence.
4. Separate first and repeat contraventions, continuing defaults, company/officer liability and any due-diligence defence.
5. Preserve evidence and immediately stop continuing risk without fabricating retrospective records.
6. Map whether the matter follows adjudication, prosecution, compounding or a prior-opportunity-to-comply route.
7. Check show-cause, inquiry, adjudication, prosecution, appeal and limitation routes separately.
8. Preserve inspection records, notices, replies, corrective action, authorisations and payment or compounding evidence.
9. Use compounding only for eligible offences and comply with the authorised officer's form and payment requirements.

10. Diary limitation, appeal or revision rights and keep civil compensation, statutory dues and criminal exposure separate.

Practical example

A multi-location employer prepares a legal classification memo, identifies the appropriate Government, maps the operative provision and Rule, records the decision owner and retains the documents needed to prove compliance during inspection or litigation.

Controls and evidence

- Employer: assign owner, configure system and retain approval/payment proof.
- Employee/worker: retain contract, attendance, wage/benefit proof and communication.
- Professional: reconcile the Act, Rule, notification, form, limitation and State overlay.

Consequence, remedy and limitation

Identify the substantive default first, then separately map arrears or benefit, interest/damages, administrative penalty, prosecution, compounding, company/officer liability, forum, appeal and limitation. Do not infer a remedy from the heading alone.
