Provision	Subject / status	Finin2min decode, implementation and evidence
Module	State Amendments, Refusal Grounds and Prohibited-document Controls	Track State insertions, prohibited-property lists, authority requirements, valuation controls and additional refusal grounds separately from the Central Act. Finin2min implementation explanation

Classify the document and operative rights. Build the Central and State source pack. Verify title, authority, stamp, property description, time, office, presenter, identity and execution. Reconcile the final registered record and preserve remedies.

Practical examples and calculations

Scenario: A Sub-Registrar refuses registration because one executant denies execution. The claimant must obtain reasons, distinguish sections 72 and 73, collect witness evidence and preserve the Registrar and section 77 suit clocks.

Control	Method	Evidence
Remedy clock	Record refusal/order date, communication and applicable thirty-day period.	Certified order and service proof
Evidence pack	Map execution, attestation, identity, payment and admission evidence.	Originals, witnesses and digital logs
Forum cost	Estimate Registrar process, court fee, counsel, injunction and delay exposure.	Fee table and budget
